NOTE A – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of Jim Burke Ford 401(k) Plan (the Plan) are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by Fidelity Management Trust Company. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Excess Contributions Payable
Excess contributions payable to participants totaling $13,407 at December 31, 2016 and $2,295 at December 31, 2015 for contributions in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions prior to March 15, 2017.

Payment of Benefits
Benefits are recorded when paid.

Administration Expenses
All significant expenses of maintaining the Plan are paid by the Company. Expenses paid by the Company are excluded from these financial statements. Fees related to the independent investment advisors and administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE A – SIGNIFICANT ACCOUNTING POLICIES-*(Continued)*

Management's Review of Subsequent Events
Management has evaluated subsequent events through June 20, 2017, the date the financial statements were available to be issued.

NOTE B – SUMMARY DESCRIPTION OF PLAN

The following description of the Jim Burke Ford 401(k) Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution 401(k) Profit Sharing Plan covering all full-time employees of Haberfelde Ford, Inc. dba Jim Burke Ford, who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions - Each year, participants may contribute a portion of pre-tax compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may make discretionary matching contributions of 100% of a participant's salary deferral on the first 5% of compensation to a maximum of $2,000. The Company's matching contribution for 2016 and 2015 was $254,089 and $254,858, respectively. The Company may also make a profit sharing contribution to the Plan at the discretion of the Board of Directors. Contributions are subject to certain IRS limitations.

Investment options - Plan participants direct the investment of their account balances into various investment options offered by the Plan and can change their investments at any time. The Plan currently offers various mutual funds and money market funds as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions, the Company matching contribution and allocations of (a) the company's discretionary profit sharing contribution, if any and, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at local prevailing rates ranging from, 5.0% to 6.0% as determined periodically by the plan administrators. Principal and interest is paid ratably through payroll deductions. Generally, the term of the loan may not exceed five years.

NOTE B – SUMMARY DESCRIPTION OF PLAN-*(Continued)*

Payment of benefits - On termination of service due to death, disability or retirement, participants will be entitled to 100 percent of their account as a lump sum distribution. For termination of service for other reasons, participants may receive the value of the vested interest in their account as a lump sum distribution. Assets allocated to participants who have terminated but have not withdrawn from the plan as of December 31, 2016 total $2,957,192.

Forfeited accounts - At December 31, 2016 and 2015, forfeited non-vested accounts totaled $22,037 and $11,649, respectively. These accounts will be used to reduce future employer contributions. In 2016, employer contributions were not reduced from forfeited non-vested accounts.

NOTE C – CERTIFIED INVESTMENTS

The information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and was certified as complete and accurate by Fidelity Management Trust Company.

NOTE D – FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE D – FAIR VALUE MEASUREMENTS-*(Continued)*

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Money market funds: Valued at cost, which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 13,373,167			$ 13,373,167
Investments at fair value	$ 13,373,167	–	–	$ 13,373,167

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,554,391			$ 12,554,391
Money market funds			$ 752,141	752,141
Investments at fair value	$ 12,554,391	–	$ 752,141	$ 13,306,532

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2016.

Balance, beginning of year	$ 752,141
Interest income	309
Purchases, sales, issuances, and settlement (net)	31,733
Transfer to mutual funds/guaranteed investment contract	(784,183)
	$ –

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2016 are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2016, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

NOTE E – GUARANTEED INVESTMENT CONTRACT WITH FIDELITY MANAGEMENT TRUST COMPANY

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Fidelity Management Trust Company (Fidelity). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 and 2015, was $1,241,227 and $77,232, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 4 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Fidelity. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE F – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity Investments. Fidelity Investments is the record keeper as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note A, the Plan made direct payments to Fidelity Investments of $3,723 for the year ended December 31, 2016, which were not covered by revenue sharing.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE G – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

NOTE H – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 9, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2016 and 2015 there are no significant uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by federal taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2013.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
