RETIREMENT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015**

NOTE A – DESCRIPTION OF PLAN

The following description of the Alarm Security Group, LLC 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on February 1, 2003 by Alarm Security Group (the "Company"), based on the prototype Non-standard Profit Sharing Plan of Principal Life Insurance Company. In July 2015, the Company was purchased by Protection One Alarm Monitoring, Inc, after which the Plan was merged into the Protection One Alarm Monitoring, Inc. Plan. The Plan is subject to the provisions of the Employees Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Merger

Effective January 1, 2016, no contributions were allowed into the Plan. Plan assets totaling \$5,985,618 and \$1,302,025 on February 1, 2016, and September 15, 2016, respectively, were transferred from Principal Trust Company, the Plan's Trustee, to Vanguard, the Plan's new Trustee under the new Plan sponsor.

Eligibility

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed 1,000 hours of service within one year. Employees are eligible to join the Plan at the beginning of each quarter. Eligible employees are automatically enrolled into the Plan to defer 1% of pay until they formally decline enrollment online.

Contributions

Participants may contribute a minimum of 1% and a maximum of 100% of their annual pre-tax or after-tax (Roth) compensation, as defined in the Plan, not to exceed the maximum allowable amounts under the Internal Revenue Code. Participants who are at least age 50 may make additional contributions as defined under the Internal Revenue Code.

During 2016 and 2015, there were no employer or employee contributions to the Plan.

NOTE A – DESCRIPTION OF PLAN (continued)

Rollover Contributions

The Plan accepts rollover contributions from retirement funds held by participants outside of this Plan, subject to Plan provisions.

Investment Options

The Plan provides for participant-directed investment programs whereby the Plan determines which investment options are available and the participants may choose among the available options. Participants may have their accounts invested in any or a combination of pooled separate accounts, mutual funds, or guaranteed investment contracts. Participants may change their investment options at any time by re-allocating contributions among different investment alternatives. Participants may also transfer contributions into and out of investments provided under the Plan, subject to possible restrictions.

Participant Accounts

Each participant's account is self-directed and is increased by the participant's contributions (including elective deferrals, catch up contributions, after-tax contributions and/or rollover contributions), the Company's contributions, share of any investment earnings, and increases in the value of investments. Participant accounts are reduced by any withdrawals or distributions, investment losses, decreases in values of investments, and share of fees and expenses, as applicable. Allocations are based on participant earnings or account balances, as defined by the Plan provisions. The amount to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Administrative Expenses

Administrative costs, except for certain investment fees and loans fees that are paid out of the related participant accounts, are paid by the Company and have not been included in the accompanying financial statements.

NOTE A – DESCRIPTION OF PLAN (continued)

Payment of Benefits

Benefits may be paid from participant accounts at the age of 59 ½ , or upon death, disability, or termination of employment, or upon Plan termination. The taxable portion of a withdrawal is subject to federal and state income taxes and an additional tax if the participant has not reached retirement age, unless the amount is rolled over into another eligible plan or an Individual Retirement Account.

Eligible participants may request an in-service hardship distribution of elective deferrals and vested matching contributions, subject to the Plan's provisions.

Notes Receivable From Participants

The Plan allows active participants to borrow from their vested account balances. The minimum loan amount permitted is \$1,000. Participant loans are limited to the lesser of 50% of their vested account balance or \$50,000 less the highest outstanding loan balance in the prior twelve-month period. Participants may have be granted three loans during any one year period, and are permitted to have only one outstanding loan at any time and the loan must be repaid within a five-year period, unless the loan is for the acquisition of a primary residence. Loans are secured by the balance in the participant's account, and bear interest at a rate commensurate with local prevailing rates. The interest rate remains fixed throughout the duration of the loan. Principal and interest payments are made through payroll deductions.

Vesting

Participants are immediately vested in their contributions plus actual earnings on elective deferral contributions. All contributions are 100% vested upon attaining normal retirement age, death or disability. Employer contributions not already fully vested when made (i.e. Safe Harbor matching) are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested Interest</u>
1	0%
2	25%
3	50%
4	75%
5 or more	100%

NOTE A – DESCRIPTION OF PLAN (continued)

Forfeited Accounts

Forfeitures attributable to matching contributions not required to pay administrative expenses would be applied to reduce Company contributions in the current or next succeeding Plan year. During 2016, there were no forfeited non-vested account balances used to pay administrative expenses.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and in the disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which were reported at contract value). An insurance company pooled separate account is when several plans participate in a separate account plan held by the insurance company. The separate account plan's assets are held by the insurance company but are not commingled with the insurance company's general assets.

Each plan's share of a pooled separate account is determined on a participation-unit basis. The fair value of participation units in the pooled separate accounts, as estimated by Principal Trust Company is based on quoted redemption value on the last business day of the year. Purchases and sales of investments are recorded on a trade date basis. Interest and dividend income is recorded when earned. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

RETIREMENT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015
(continued)**

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition – continued

The Principal Fixed Income Guaranteed Option is a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company (“Principal Life”) with a fixed rate of interest. The Principal Fixed Income Guaranteed Option contract guarantees principal and provides a stated crediting rate backed by Principal Life. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a Stable Value fund. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract.

The Principal Fixed Income Guaranteed Option contract is reported at contract value, which is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. A rate of interest contractually guaranteed by Principal Life is credited to participant account balances. As of December 31, 2015, the net crediting rate was 2%.

Notes Receivable From Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Contributions

Employee contributions are recorded in the period that the Company makes payroll deductions from the participant’s earnings. Employer contributions, if any, are made the next plan year after the contribution has been calculated.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE C – INFORMATION CERTIFIED BY TRUSTEE

The following investment information has been certified by the trustee of the Plan as of and for the years ended December 31, 2016 and 2015:

	<u>2016</u>	<u>2015</u>

Dividends and interest	1,178	
Net depreciation in investments	(222,856)	

NOTE D – RELATED PARTY TRANSACTIONS

Principal Trust Company was the Plan's Trustee, as defined by the Plan. Fees paid to Principal Trust Company by the Plan for contract administrative services totaled \$1,159 during the year ended December 31, 2016.

NOTE E – INCOME TAX STATUS

The Internal Revenue Service (IRS) had determined as of March 31, 2008, Principal Life Insurance Co. Non-standardized Profit Sharing Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Proto-type Plan was adopted by the Company on February 1, 2014.

The Plan Administrator is not aware of any course of action or series of events that have occurred that might affect the Plan's tax exempt status, and therefore, believes that the Plan and the related trust are tax-exempt.

The Plan's Form 5500 is subject to examination by the IRS for a period of three years from the date they were filed, except under certain circumstances. The Plan's Form 5500 for the years 2013 through 2015 are open for a tax examination by the IRS, although no request has been made as of the date of these financial statements.

NOTE F – PRIORITIES UPON PLAN TERMINATION

The Company has the right under the Plan to amend the Plan, to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances as of the date of termination. Following the Plan merger in July 2015 as detailed in Note A, participants became 100% vested in their account balances.

NOTE G – RISKS AND UNCERTAINTIES

The Plan provides for investments in various investment securities that are exposed to various risks such as interest rate, credit risks, and overall market volatility. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

NOTE H – FAIR VALUE MEASUREMENTS

Fair value, as defined in the fair value measurement accounting guidance, is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, or exit price.

The guidance on fair value measurement accounting requires that the Plan management make assumptions market participants would use in pricing an asset or liability based on the best information available. Plan management considers factors that were not previously measured when determining the fair value of financial instruments. These factors include nonperformance risk (the risk that the obligation will not be fulfilled) and credit risk, of the reporting entity (for liabilities) and of the counterparty (for assets). The fair value measurement guidance prohibits inclusion of transaction costs and any adjustments for blockage factors in determining the instruments' fair value. The principal or most advantageous market should be considered from the perspective of the reporting entity.

Fair value, where available, is based on observable quoted market prices. Where observable prices or inputs are not available, several valuation models and techniques are applied. These models and techniques attempt to maximize the use of observable inputs and minimize the use of unobservable inputs.

ALARM SECURITY GROUP, LLC 401(K)
RETIREMENT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015
(continued)

NOTE H – FAIR VALUE MEASUREMENTS (continued)

The process involves varying levels of management judgement, the degree of which is dependent on the price transparency of the instruments or market and the instruments' complexity. Fair values of these investment funds are based on net asset value and provided by the Plan's investment managers.

To increase consistency and enhance disclosure of the fair value of financial instruments, the fair value measurement accounting guidance established a fair value of inputs to the valuation in technique, into a three-level fair value hierarchy. The three levels of the fair value hierarchy are described as follows:

- | | |
|----------------|--|
| <i>Level 1</i> | Observable inputs such as quoted market prices in active markets. Active markets are those in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. |
| <i>Level 2</i> | Inputs other than quoted process in active markets that are either directly or indirectly observable. These include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, or model based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data. |
| <i>Level 3</i> | These are investments where values are based on prices or valuation techniques that require inputs that are both observable and significant to the overall fair value measurement. These inputs reflect certain assumptions by management about the assumptions market participants would use in pricing the investments. These investments include non-readily marketable securities that do not have an active market. |

The Plan's investments in mutual funds are based on observable market quotations. When observable price quotations are not available, fair value is determined based on the present value of the stream of cash flows it is expected to generate.
