Technomic, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Technomic, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and eligibility: The Sponsor of the Plan is Technomic, Inc. (the Company). The Plan is a defined contribution plan. Certain employees, including non-resident aliens who have no earned income from sources within the United States, union employees and employees not eligible for the Company provided health and welfare benefits are not eligible for participation in the Plan. Employees must be 21 years of age to participate and must complete 140 hours of service within two consecutive months before becoming eligible for deferrals. In addition to the aforementioned criteria, employees are required to be employed by the Company at year-end to be eligible for employer contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2016 the Company made the decision to merge the Plan into the Winsight 401(k) Plan. The merging of the Plans has not yet occurred.

Participant contributions: The participants may elect to defer up to current statutory limits determined annually and prescribed by the Internal Revenue Service. The Plan also permits participants to make additional voluntary contributions of qualified rollovers from other retirement plans.

Employer contributions: All employer contributions are at the Company's discretion. The Company determines the contribution amount, if any, at the end of each Plan year. Contributions are subject to statutory limitations. For the year ended December 31, 2015, the Company elected to contribute 100 percent of the participant's contribution up to a maximum amount of \$1,500. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective deferral and any rollover contributions made to the Plan, plus actual earnings thereon. Vesting in the Company's contribution plus actual earnings is based on years of credited service. Participants vest at 40 percent after two years of service and 20 percent each year thereafter until fully vested. Participants are fully vested upon five years of credited service, normal retirement age, death or total disability of a participant prior to retirement.

Notes receivable from participants: Participants may borrow from their account. Notes receivable cannot exceed 50 percent of the vested portion of the participant's account (or \$50,000 if less), and must be a minimum of \$1,000. The note receivable must be repaid within five years unless the entire proceeds are used to purchase the participant's primary residence, in which case the loan may be repaid over a 10-year period. All notes receivable will provide for the repayment of interest at rates commensurate with local prevailing rates, as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement or other reasons, a participant whose vested account balance exceeds \$1,000 may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his/her account. Participants with account balances less than \$1,000 must take a lump-sum distribution as soon as practicable following termination. Participants who are at least 59 ½ years of age may take an in-service distribution of their vested account balance.

Technomic, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: The Plan allocates participant forfeitures first to reduce Plan expenses and then for Company contributions. At December 31, 2015 and 2014, there was approximately \$4,300 each year, to be forfeited in future periods. During 2015 approximately \$4,300 in forfeitures were used to pay for the Plan's administrative expenses.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make repayments and the Plan Administrator deems the note receivable from participant to be in default, the note receivable from participant balance is reduced and a benefit payment is recorded.

Corrective Distributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

Payments of benefits: Benefits paid to participants are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment-related expenses are included in net depreciation in fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. The amendments in this update will generally be effective for fiscal years beginning after December 15, 2016, for nonpublic entities. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management has not yet evaluated the impact of this update on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct-filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part II of the update for 2015. The impact of adopting these amendments is reflected in these financial statements.

Subsequent events: The Plan has evaluated subsequent events through June 23, 2017, the date the financial statements were available to be issued.

Technomic, Inc. 401(k) Plan

Notes to Financial Statements

Note 3. Tax Status

The Plan adopted a volume submitter plan as sponsored by Alliance Benefit Group of Illinois. The volume submitter plan received an opinion letter from the IRS dated March 31, 2008 as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan's adoption agreement has been amended since adopting the Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Technomic, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 or 2014.

Registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end shares of registered investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Brokerage Link: Accounts primarily consist of registered investment companies and stocks that are valued on the basis of readily determinable market prices.

Collective investment trusts: Valued based on the NAV of units of the collective investment trust. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities.

Cash: The carrying amount approximates fair value due to short-term nature of these instruments.

The following table sets forth by level, within the fair value hierarchy, of the Plan's investments at fair value as of December 31:

2015				
	Fair Value	Level 1	Level 2	Level 3
Registered investment companies	\$ 3,787,683	\$ 3,787,683	\$ -	\$ -

Technomic, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Certified Investments

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedules related to the following:

- Total investments and notes receivable from participants as shown in the accompanying statements of net assets available for benefits of \$5,387,265 and \$5,704,942 as of December 31, 2015 and 2014, respectively.
- Net depreciation in fair value of investments as shown in the accompanying statement of changes in the net assets available for benefits of \$135,227 for the year ended December 31, 2015.
- Net investment income as shown in the accompanying statement of changes in net assets available for benefits of \$80,724 for the year ended December 31, 2015.

Note 6. Related-Party Transactions

Investments are managed by Charles Schwab Bank (Charles Schwab). Charles Schwab is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Charles Schwab totaled approximately \$4,300 for the year ended December 31, 2015. The Company pays directly any other fees related to the Plan's operations.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Delinquent Participant Contributions

The Company determined certain pay periods of participant contributions and repayments on notes receivable from participants for the year ended December 31, 2015 were not deposited as soon as funds could reasonably be segregated as defined under ERISA. For the years ended December 31, 2015, 2014 and 2013, withholdings deposited delinquenty totaled \$138,804.

Note 11. Voluntary Correction Program Submission

The Company discovered there were operational errors in the administration of the Plan relating to the application of the definition of compensation as defined by the Plan agreement. Corrective contributions to participant accounts, including lost earnings, have been identified and quantified by the Company. Approximately \$26,000 is recorded as an employer contribution receivable as of December 31, 2015 in the accompanying statements of net assets available for benefits. The Company remitted the correction contribution to the Plan during May 2017.
