401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Clayton Williams Energy, Inc. (the “Company” or “CWEI”) 401(k) Plan and Trust (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan, as amended and restated, is a defined contribution plan established by CWEI under the provisions of Section 401(a) of the Internal Revenue Code (“IRC”), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company who become entitled to participate in the Plan. Employees who have 90 days of service and are age 21 or older are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Administration

The Plan is administered by the Company. ADP Retirement Service, Inc. (“ADP”) is the Plan’s recordkeeper and holds the Plan’s assets. Reliance Trust Company is the Trustee and is responsible for accepting funds, managing them and distributing them to beneficiaries.

Contributions

The Plan requires that the amounts of all participant and Company contributions comply with limitations established by the IRC. Subject to these limitations, participants may contribute to the Plan up to 100% of pre-tax annual compensation, as defined by the Plan, and the Company, in its sole discretion, may provide a matching contribution equal to a percentage of participants’ contributions. The Company makes matching contributions equal to 100% of participants’ contributions, limited to 6% of compensation. The Company may also make discretionary profit-sharing contributions to the Plan which are allocated to participants’ accounts based on each participant’s compensation as a percentage of total compensation.

Vesting

Participants are fully vested in their contributions and the earnings thereon. The Plan has been established as a safe-harbor plan; therefore, participants are fully vested in Company matching and discretionary contributions upon entry into the Plan.

Benefits

Upon termination of service due to death, disability or retirement, participants may request and receive a lump-sum distribution in an amount equal to the value of the vested interest in their respective accounts. Participants may also receive hardship withdrawals of their accounts, subject to certain limitations, as defined by the IRC.

Participant Accounts

Individual accounts are maintained to reflect each participant’s allocated share of the Plan’s income, the Plan’s administrative expenses, the Company’s contributions, and the participant’s contributions. Allocation of investment income is based on participant account balances.

CLAYTON WILLIAMS ENERGY, INC.
401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Investment Options

As directed by participants, the Plan purchases units of participation in eighteen distinct investment portfolios sponsored and administered by ADP. In addition, the Plan makes participant-directed investments and matching contributions in the Company's common stock. Under the Plan, participants are allowed to transfer funds between any investment options, including the Company stock fund.

Administrative Expenses

At its discretion, the Company may pay all or any portion of administrative expenses on behalf of the Plan. Administrative expenses paid by the Company were not significant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements and supplemental schedule are prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments are recognized when paid. Benefits due to participants who have elected to withdraw from the Plan but have not been paid are deducted from net assets available for benefits. At December 31, 2016 and 2015, there were no amounts allocated to withdrawing participants.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Securities traded in public markets are valued at their quoted market prices. Purchases and sales of securities are reflected on a trade-date basis. Changes in the market value of investments from one period to the next, combined with realized gains and losses based on differences between revalued costs and market value of investments on the trade date are recognized as net appreciation or depreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Reinvested income is reflected as additions to the cost basis of investments.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting periods. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board issued Audit Standards Update No. 2015-12 ("ASU 2015-12"), which allows the Plan to measure, present, and disclose fully benefit-responsive investment contracts at contract value instead of fair value. Additionally, ASU 2015-12 allows the Plan to no longer disaggregate the net appreciation or depreciation of investments by general type. Further, ASU 2015-12 allows the Plan to no longer disclose individual investments by general investment type. Further, ASU 2015-12 allows the Plan to no longer disclose individual investments that are greater than 5% of net

CLAYTON WILLIAMS ENERGY, INC.
401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

assets. Finally, ASU 2015-12 allows the Plan to no longer disclose investments based on the nature, characteristics, and risks of the investment. Instead, the Plan has the ability to aggregate investments by general investment type. ASU 2015-12 is effective for periods beginning after December 15, 2015. The adoption of ASU 2015-12 had no impact to the 2016 financial statements. The financial statements for 2015 have been retroactively restated for the change, which resulted in a decrease in the stable value fund of \$41,226 as of December 31, 2015. Disclosures have been updated to reflect the changes accordingly.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (“NAV”) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. The adoption of ASU 2015-07 had no impact to the 2016 and 2015 financial statements.

3. STABLE VALUE FUND

The Putnam Stable Value Fund (the “Stable Value Fund” or the “Fund”) is a collective investment trust established and maintained by Putnam Fiduciary Trust Company (“PFTC” or “Putnam”). The Fund is designed to provide a stable fixed income vehicle for defined contribution plans, such as 401(k) and conventional profit sharing and money purchase plans. The fund invests in high-quality guaranteed investment contracts (“GICs”) and similar contracts issued by insurance companies, banks, and other financial institutions. The Fund also invests up to 75% of its assets in security-backed investment contracts (“SBICs”), including separate account products of insurance companies. Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. SBICs, or synthetic GICs, are portfolios of securities owned by the Fund. Synthetic GICs have a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. Synthetic GICs can be comprised of, but not limited to, asset-backed securities, corporate bonds, mortgage-backed securities, and securities issued or backed by U.S. government agencies. All contracts that the Fund purchases are benefit responsive at contract value for all plan-permitted, participant-directed transactions. The Fund negotiates contracts with certain employer-initiated transaction provisions, including percentage allowances for targeted layoffs, bankruptcy resulting in employee job loss, reorganizations, spin-offs, and Plan terminations. The Plan did not have any events that limited the ability of the Plan to transact the fund at contract value. The only event or circumstance that would allow issuers to immediately terminate a fully benefit-responsive wrap contract with the Fund at an amount different from contract value would be if they were provided with willingly fraudulent information about the Fund by the Trustee. At December 31, 2016 and 2015, the Stable Value Fund accounted for all of the investments at contract value.

4. FAIR VALUE MEASUREMENTS (UNAUDITED)

Financial Accounting Standards Board ASC Topic 820 (“ASC 820”), *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

CLAYTON WILLIAMS ENERGY, INC.
401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

- Common stock: Valued at the closing price reported on the active market on which the individual securities are traded;
- Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Total

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2016 and 2015, the Plan's following party-in-interest investments which were either administered by the Trustee or holdings of CWEI.

	2016	2015
CWEI common stock	\$ 15,787,406	\$ 5,260,764

The Participants paid \$2,054 and \$9,332 in 2016 and 2015, respectively, to ADP for administrative fees related to distributions. The Company pays other administrative expenses of the Plan.

6. TAX STATUS

ADP obtained a favorable opinion letter from the Internal Revenue Service on July 16, 2014, stating that the prototype plan, which was adopted by the Plan in 2004, is a qualified plan under the IRC. The Plan has not been amended since this time. As such, management believes the Plan is in compliance with the applicable requirements of the IRC to remain tax-exempt.
