Report on the Financial Statements

We have audited the accompanying financial statements of the Arch Telecom Employee Stock Ownership Plan, which comprise the statement of net assets available for benefits as of December 31, 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Note 1 – Plan Description and Basis of Presentation

The following brief description of the Arch Telecom Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Arch Legacy Ventures, Inc. and its subsidiary, Arch Telecom, Inc., (Company) established the Plan effective as of January 1, 2016. The Plan operates, in relevant part, currently as a non-leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Committee whose members are appointed by the Company's Board of Directors. An independent third-party is the Plan's Trustee.

The Plan had a cash contribution receivable of $2,623,000 at December 31, 2016. As disclosed in Note 9, subsequent to year-end, the Plan purchased 276,000 shares of stock from the Company and entered into a note payable. In future years, when the Plan utilizes funds for debt service, an appropriate number of shares will be released and allocated to participants.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they have attained the age of 21 years and worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not actively employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional contributions may be made at the Company's discretion. Employee contributions are not permitted.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump-sum or in five annual installments in either cash or stock in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service and are made in five annual installments. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in the form of cash or, if a participant elects, in the form of Company stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publically traded or if the shares are subject to trading limitations.

Note 1 – Plan Description and Basis of Presentation (Continued)

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company, for the year ended December 31, 2016, paid the administrative expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required; however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of cash and/or shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's points, relative to total eligible points. Each eligible participant will receive five points for each year of service (1,000 hours) and one point for each full $1,000 of eligible compensation, as defined in the Plan agreement, received by the participant during the Plan year. Plan earnings are allocated to each participant's account based in the ratio of the participant's account balance.

For the year ended December 31, 2016, participants' accounts were credited with an allocation of cash contribution receivable and forfeitures of terminated participants' non-vested accounts.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Vesting begins at 20 percent after two years of service with participants becoming fully vested after six years of service.

Note 1 – Plan Description and Basis of Presentation (Continued)

Put Option

Under federal income tax regulations, the employer common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the participant is able to direct the investment of 50 percent of their account balance. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon shares of employer stock in the participant's account at year-end.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's points to total points for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2016, totaled $14,960.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Allocations

The financial statements of the Plan present the assets and changes therein pertaining to the accounts of employees with rights in allocated cash contribution receivable (allocated).

Subsequent Events

The Plan has evaluated subsequent events through June 30, 2017, the date the financial statements were available to be issued.

Note 3 – Administration of Plan Assets

The Plan's assets, which consist of a cash contribution receivable, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invest cash received, interest, and dividend income (if any) and make distributions to participants. The Trustee also will administer the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4 – Related Party and Party-in-Interest Transactions

The Plan investments consist of a cash contribution receivable made by the Company and the Plan entered into a debt arrangement with the Company subsequent to year-end. These are related party and party-in-interest transactions. The Company also pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 5 – Risks and Uncertainties

The Plan assets consist of a cash contribution receivable, which will be used to purchase the Company's common stock. The Company's common stock is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near-term and that such changes could materially affect the amounts which will be reported in the statement of net assets available for benefits.

Note 6 – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and IRC.

Note 7 – Tax Status

The Plan has not yet received a determination letter from the Internal Revenue Service, stating that the Plan is qualified, under the IRC, or that the related trust is exempt from taxation. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Plan Amendments

On February 28, 2017, but effective January 1, 2016, the Plan was amended to recognize years of service prior to the effective date of the Plan when determining a participant's points. Additionally, the Plan was amended to recognize hours of service for employees prior to the employee becoming a participant in the Plan.

Note 9 – Subsequent Events

On February 21, 2017, the Plan purchased 276,000 shares of Company common stock for $25,944,000 using cash and proceeds from notes with the selling shareholders and holds the common stock in a trust established under the Plan. The stock was purchased at a price of $94 per share. The Plan will operate as a leveraged ESOP.
