NOTE 1: DESCRIPTION OF THE PLAN

The 401(k) Profit Sharing Plan and Trust (the Plan) was formed April 1, 1994 as a defined contribution plan available to all eligible employees of CGI Communications, Inc. (CGI or the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Participants should refer to the plan document and the prospectus for a more complete description of the Plan's provisions.

Employees are eligible to participate in the Plan upon attaining age twenty one.

Contributions

Under the terms of the Plan, employees electing to participate can contribute from 1% up to as much as 85% of their compensation to the Plan, subject to certain Internal Revenue Service limitations and the Plan's provisions for the participating location. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are automatically invested in a designated balanced fund until changed by the participant. The Company contributes 25% of an employee's elective deferral as an employer match. The Plan also allows the Company to make a discretionary profit sharing match. No such profit sharing match was made during the years ended December 31, 2015 and 2014.

Participant Accounts

Each participant's account contains the participants' respective contributions, the Company's matching contributions, forfeitures of terminated participants' nonvested accounts, and investment earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are always vested in their 401(k) contributions plus earnings thereon. Vesting in the Company's matching contributions plus earnings thereon is based on years of service. A participant's employer matching contribution is 100% vested after five years of service (or upon death or disability while employed), with 20% vesting at two years of service increasing by an additional 20% with each additional year of service.

Investment Options

Plan participants may direct the investment of their funds among several alternative investment funds provided by the plan.

Notes Receivable from Participants

Participants may borrow a portion of their vested account balances in accordance with the loan policy statement. Loan amounts can range from $1,000 to a maximum of $50,000. Loans must be repaid within 4.5 years. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime interest rate plus one percent. Principal and interest is paid ratably through biweekly payroll deductions.

Payment of Benefits

The full value of an employee's account is payable following termination of employment. Withdrawals by active employees are permitted upon reaching age 59 1/2 or for specific hardship circumstances.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled $4,132 and $-0- respectively. These were reallocated to participants in the same manner as employer contributions.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014 no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investments and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains (losses) on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Plan Expenses
Brokerage commissions, transfer taxes, and other charges and expenses in connection with the purchase or sale of securities are charged against the trust fund and added to the cost of such securities or deducted from the sale proceeds, as the case may be. Participants are also charged loan fees and check processing fees in certain circumstances.

Subsequent Events
The Plan Administrator has evaluated subsequent events through the date of the auditors' report, the date the financial statements were available to be issued.

NOTE 3: FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair valsue at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements
The group annuity contract is valued at contract value, which approximates fair value. The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015 and 2014:

	Fair Value Measurements at the End of the Reporting Period Using:

During 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $327,088 and $149,591, respectively.

NOTE 5: RELATED PARTY TRANSACTIONS

The Plan's investments at December 31, 2015 are shares of mutual funds and group annuity contracts managed by Empower Retirement. Empower Retirement is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions.

The Plan's investments at December 31, 2014 were group annuity contracts managed by Merrill Lynch. Merrill Lynch was the trustee as defined by the Plan and, therefore, these transactions qualified as party in interest transactions.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8: TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.
