EXTRUMED, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS **For the Short Year Ended January 29, 2016**

NOTE 1- DESCRIPTION OF PLAN

The following description of the EXTRUMED, INC. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees (with the exception of a collective bargaining unit or non-resident aliens) of EXTRUMED, INC. ("Company"). An eligible employee must have attained the age of 21 and completed one year of service to be a participant. Participants are eligible to receive safe harbor employer matching contributions ("Safe Harbor Contributions") once they have attained the age of 21 and after one year of service. Additionally, the Company may take a Company discretionary contribution to all eligible employees who meet the same minimum service requirement, and the Company may also make an applicable qualified non-elective contribution (QNEC) to each non-highly compensated employee, actively employed on the last day of the Plan year, who has completed a year of service (1000 hours of service). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute the maximum amount allowed by the Internal Revenue Code. Participants may also contribute amounts representing rollover distributions from other qualified pension plans. The Company may contribute to participant accounts in addition to elective deferrals. Employees become eligible to participate in the Plan after one year of service. In the year a participant becomes eligible, the Company contributes its required safe harbor match for that participant calculated retroactively back to the beginning of the year in which eligibility was first met. In addition to the Company matching contributions, the Company may make other discretionary contributions, as well as Company QNEC contributions equal to a uniform percentage of each participant's eligible compensation, which is determined each year by the Company. No Company discretionary or other QNEC contributions were made from January 1, 2016 to January 29, 2016.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, Safe Harbor Contributions, Company contribution account, and/or allocations of Company QNEC contributions and Plan

investment earnings, and charged with withdrawals and an allocation of Plan investment losses.

Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary deferral contributions and Company funded required safe harbor matching contributions plus actual earnings thereon. The vesting schedule for Employer discretionary matching contributions and Employer discretionary Profit Sharing is at the rate of 20% each year after 1 year of service (20% vested in the first year – 40% vested in the second year, 60% vested in the third year, 80% vested in the fourth year, and 100% vested in the fifth year).

Notes receivable from participants

Participants may borrow only one loan at a time from the Plan for an amount not exceeding the lesser of \$50,000 or 50% of the vested interest in their account. The loans are secured by the vested balance in the participant's account and bear interest at variable annual rates. The interest rates and number of loans available to participants are determined by the Trustees. There is a set up fee of \$75 for each note.

Payments of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or roll-over their vested benefit to another eligible account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants are also eligible to receive a hardship distribution of any or all of their respective vested funds.

Investment Options

The Plan invests its assets into segregated accounts at Fidelity Investments Institution for the 401(k) Salary Deferrals and Employer Match. Participants may invest in any of following investment options.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

EXTRUMED, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS For the Short Year Ended January 29, 2016

Investment Valuation and Income Recognition

The Plan's investments are stated at fair market value. Shares of registered mutual fund companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Valuation methods may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methods are appropriate and consistent with other market participants, the use of differing methodologies or assumptions to determine the fair values of the Plan's investments could result in different fair value measurements at the reporting dates.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance. Interest income is recorded on an accrual basis and any related fees are recorded as administrative expenses when incurred. An allowance for credit losses is not necessary as the notes are collateralized by the participants' account balance. Delinquent notes from participants are reclassified as distributions based upon provision of the Plan document. Participant loans are considered delinquent if any payment of principal and interest, or any portion thereof, remains unpaid for more than 90 days after due.

Payments of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

The Company is paying the costs of plan administration to a third party plan administrator, to an independent accountant for the cost of auditing this plan to meet compliance requirements, and to legal counsel to keep the plan documents and all filings in compliance. Plan participants pay for investment transaction fees and investment management fees.

Risks and uncertainties

The Plan and its participants invest in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities will occur at any given time, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820) – Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 31, 2015, and is to be applied retrospectively, with early adoption permitted. In July 2015, the FASB released ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient ("ASU 2015-12"). This amendment removes the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value. Under the amendment, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. In addition, this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose: (a) individual investments that represent 5% or more of net assets available for benefit, (b) net appreciation (depreciation) by individual investment type, and (c) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. The amendment also allows plans to measure investments and investment-related accounts as of a month-end date that is

NOTES TO FINANCIAL STATEMENTS **For the Short Year Ended January 29, 2016**

closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II should be applied retrospectively, while Part III should be applied prospectively.

NOTE 3 – FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques - Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at January 29, 2016 and December 31, 2015.

Fixed income separate accounts are categorized as Level 2. They are valued using third party pricing services. These services use, for example, model-based pricing methods that use observable market data as inputs. Broker dealer bids or quotes of securities with similar characteristics may also be used.

U.S. and global equity separate accounts are categorized as Level 1 if the securities actively trade on national or international exchanges and are valued at their last reported closing price.

Shares of registered investment companies held are primarily categorized as Level 1; they are valued at quoted market prices as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables, set forth by level within the fair value hierarchy, are a summary of the Plan's investments measured at fair value on recurring basis at:

Level 3 Fair Value Measurements

The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

Beginning balance	\$ 118,176	\$ 118,176

Transfers between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. For the year ended December 31, 2015, there were no transfers between levels. On January 29, 2016, the plan assets were transferred to a new plan.
