Sutphen Corp. Members of Teamsters Local 284 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Sutphen Corp. Members of Teamsters Local 284 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established on January 1, 1981. The Plan is a defined contribution plan covering all union employees of Sutphen Corporation (Company) who are eligible after they complete one month of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute to the Plan each year up to the maximum percentage of their compensation allowable on a pretax basis or a Roth basis, not to exceed the limits imposed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company makes a matching contribution equal to 100% of the first 1.5% of a participant's base compensation contributed to the Plan. The Company also makes a profit sharing contribution of 50 cents for every hour worked by a participant in the Plan year, as provided for in the union contract. Sutphen may make additional annual discretionary contributions solely at their option. No discretionary contribution was made by the Company during the plan year ended September 30, 2016.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution, (b) the Company's profit sharing contribution, and (c) Plan earnings and losses, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all employee contributions, employer contributions and any actual earnings thereon.

Payment of benefits: On termination of service due to death, disability, retirement or attainment of age 59½ (in-service distribution), a participant or his or her beneficiary will receive a lump-sum distribution equal to the value of the participant's vested interest in the account. Hardship withdrawals, as defined in the Plan, are also available to participants.

Notes receivable from participants: Participants may borrow from their participant account a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance reduced by the highest outstanding loan balance in the previous 12 months even if the amounts have been repaid. The number of outstanding loans is limited to one per participant. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate on the date the loan is made plus 2%. Principal and interest are paid through weekly payroll deductions.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become fully vested in their accounts.

Sutphen Corp. Members of Teamsters Local 284 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions, employer matching and profit sharing contributions are recognized when the participant contributions are withheld from the participant's earnings.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses are paid by the Plan.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 11, 2017 the date the financial statements were available to be issued.

The following is a summary of the Plan's asset information as of September 30, 2016 and 2015, and for the year ended September 30, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2016	2015
Investments, at fair value:		
Pooled separate accounts	\$ 2,830,458	\$ 2,687,105
Investment, at contract value:		
Guaranteed investment contract	452,705	196,247
	<u>\$ 3,283,163</u>	<u>\$ 2,883,352</u>

The Guardian Insurance & Annuity Company, Inc. (Guardian) also certified to the completeness and accuracy of \$234,933 of net appreciation in the fair value of investments for the year ended September 30, 2016.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2016 and 2015.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, with in the fair value hierarchy, the Plan's assets at fair value as of September 30:

		2016			
		Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$	-	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)		-	-	-	2,830,458
Investments at fair value	\$	-	\$ -	\$ -	\$ 2,830,458
		2015			
		Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$	-	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)		-	-	-	2,687,105
Investments at fair value	\$	-	\$ -	\$ -	\$ 2,687,105

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

For the years ended September 30, 2016 and 2015, there were no significant transfers in or out of Level 1, 2, or 3.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of September 30, 2016 and 2015, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	2016			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 2,830,458	None	Daily	None

Investment	2015			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 2,687,105	None	Daily	None

Note 5. Guaranteed Investment Contract with Insurance Company

The Plan entered into a traditional investment contract with Guardian. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if there were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the traditional investment contract at September 30, 2016 and 2015 was \$452,705 and \$196,247, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.5%. Such interest rates are reviewed on an annual basis for resetting. The contract does permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 5. Guaranteed Investment Contract with Insurance Company (Continued)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. Certain events limit the ability of the Plan to transact at contract value with the issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code.
2. The Plan's total investment in the contract falls below an amount specified in the contract.
3. Premature termination of the contract.
4. Plan termination or merger.
5. Changes to the Plan's prohibition on competing investment or other Plan provisions that have an adverse effect on the investment.
6. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that result in a reduction in the number of participants invested under the Contract by more than 15%.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 6. Party-in-Interest Transactions

The Plan invests in various pooled separate accounts and a guaranteed investment contract managed by Guardian. Guardian is the custodian of the Plan's assets and, therefore, these transactions qualify as related party transactions. During 2016, the Plan paid administrative fees of \$29,116 to various service providers.

Note 7. Tax Status

Effective July 15, 2016, the Plan adopted a nonstandardized form of a prototype plan sponsored by CCH Incorporated. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.
