Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

Plan Administrator, Committee, and Participants
Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan
Denver, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of September 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of September 30, 2016 and 2015, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedules as of and for the year ended September 30, 2016, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a collectively bargained, single-employer defined benefit plan established October 1, 1964 under an agreement, as amended, by and between The Denver Post, LLC (the "Company") and the Denver Teamsters Local Union 455 to provide pension, disability, and death benefits to eligible employees with qualifying years of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan investments, and maintains the Plan's records.

Effective October 1, 2005, the Plan was frozen. Current participants will not accrue benefit credits but will continue to accrue vesting credits.

Effective October 1, 2015, the Plan was amended and restated in its entirety to comply with applicable federal laws and to make other changes.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the Plan years ended September 30, 2016 and 2015.

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the Plan liabilities on the valuation date. The funding target attainment percentage was 88.68% at October 1, 2015 and 92.09% at October 1, 2014.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$265,000 and \$180,000 were made to the Plan for the years ended September 30, 2016 and 2015, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits

A participant who has completed five years of vesting service or who has attained age 65 while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan. Participants earn one year of vesting service for each calendar year in which a participant is credited with at least 1,000 hours of service. A participant who terminates employment after achieving vested status is entitled to a deferred vested benefit. Payments of the deferred benefit begin at the participant's normal retirement date and consist of all benefits accrued prior to termination. If a vested participant chooses, the participant may receive his or her deferred vested benefit in a reduced amount commencing on or after age 55.

The normal retirement date is the first day of the month coinciding with or following the participant's 65th birthday. A vested participant may terminate employment and commence receiving a reduced benefit on the first day of any month on or after age 55. The pension formula for the benefit payable at normal retirement date (in the form of a life annuity) is equal to a dollar amount dependent upon the participant's termination date, as described more fully in the following paragraphs, multiplied by the number of years of Benefit Service.

During 2000, the Plan was amended to provide for varying pension benefit formula dollar amounts based on employment termination dates. For participants whose employment terminated prior to October 1, 1997, the monthly dollar amount is \$30 times the participant's years of Benefit Service. For participants whose employment terminated between October 1, 1997 and September 30, 2000, the amount is \$35. For participants whose employment terminated on or after October 1, 2000, the monthly dollar amount is \$50 times the participant's years of Benefit Service.

A married vested participant is eligible for the Pre-Retirement Surviving Spouse's Annuity Option, under which there is a monthly death benefit payable to the participant's spouse for life equal to half of the participant's benefit as if the participant had retired under the 50% Joint and Survivor Annuity and terminated on the day preceding the participant's death. This benefit is payable to the surviving spouse beginning on the participant's earliest possible early retirement date following the death of the employee.

The spouse of a participant who dies while employed and after completing five years of vesting service, or after terminating with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified 50% Joint and Survivor Annuity or in the form of a qualified 100% Joint and Survivor Annuity if the proper elections have been made. The death benefit becomes payable no earlier than the date the participant would have become eligible to receive benefits.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

The spouse, or the designated beneficiary if the proper elections have been made, of a participant who dies after normal, early, late, deferred, or disability benefits have commenced is entitled to death benefits payable as elected when the participant became eligible for the benefit, as defined in the Plan document. However, if the participant is unmarried, the designated beneficiary is eligible for death benefits, as described in the Plan document, payable in a single lump sum.

Benefit payments to participants are recorded when paid.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, the net assets would be set aside first for the payment of benefits to retirees and then for all other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value as reported by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional fair value measurement disclosures.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated Plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

As of September 30, 2016 and 2015, four investments accounted for approximately 98% of total investments, at fair value. During the years ended September 30, 2016 and 2015, four and three investments accounted for approximately 100% and 98%, respectively, of net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in separate footnotes to the financial statements.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these plan assets was removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Recent Accounting Pronouncements (continued)

The Plan elected to early adopt this standard update for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts.

Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented.

Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt all three parts of this standard update (as applicable) for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

Notes to Financial Statements

Note 2 - Investments Certified by the Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of September 30, 2016 and 2015 and the income earned or losses incurred on the investments for the years ended September 30, 2016 and 2015, as reflected in the accompanying financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions.

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of September 30, 2016 and 2015, no investments were required to be presented in the fair value hierarchy table. As of September 30, 2016 and 2015, investments of \$3,214,806 and \$3,120,986 were measured at NAV, respectively.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The Plan's investments in pooled separate accounts ("separate accounts") are recorded at NAV reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts, and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in separate accounts on an equivalent measure where it is not probable that the fund will sell a separate account at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no changes to the valuation techniques used during the years ended 2016 and 2015. The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The IRS has determined and informed the Plan in a letter dated August 20, 2014 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended September 30, 2016 and 2015 were \$12,000, which are included within administrative fees on the statements of changes in net assets available for benefits.

Notes to Financial Statements

Note 6 - Related Party and Party-in-Interest Transactions

Plan investments include pooled separate accounts managed by Prudential. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and present employees or their beneficiaries are based on varying pension benefit formulas, as outlined in the Plan. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial valuation was performed as of October 1, 2015 and 2014. Had the valuation been performed as of September 30, 2015 and 2014, there would be no material difference.

The following table sets forth the accumulated Plan benefits:

	October 1	
	2015	2014
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 1,825,648	\$ 1,648,507
Vested benefits for other participants	<u>1,700,247</u>	<u>1,509,657</u>
Total vested benefits	3,525,895	3,158,164
Non-vested benefits	<u>2,141</u>	<u>5,438</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,528,036</u>	<u>\$ 3,163,602</u>

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

The change in present value of accumulated Plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of October 1, 2014	\$ 3,163,602
Increase (decrease) during the year attributable to	
Interest accumulation	230,009
Assumption changes (1)	280,210
Other changes (2)	51,408
Benefit payments	<u>(197,193)</u>
Actuarial present value of accumulated plan benefits as of October 1, 2015	<u>\$ 3,528,036</u>

- (1) Changes in actuarial assumptions relate to changes in mortality assumptions as noted in the following table.
- (2) Other changes represent the normal operation of the Plan, consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its October 1, 2015 and 2014 calculations are as follows:

Assumed rate of return on investments	6.99% (2016) and 7.16% (2015)
Probability of retirement	5% at ages 55-59, 10% at ages 60-61, 50% at age 62, 25% at ages 63-64, and 100% at ages 65+ (2016 and 2015)
Mortality basis	2015 Static Mortality Table for Annuitants and Non-Annuitants (2016) and 2014 Static Mortality Table for Annuitants and Non-Annuitants (2015)
Actuarial cost method	Standard Unit Credit Cost Method (2016 and 2015)
Compensation increase	Salary scale and valuation compensation assumptions no longer apply, as benefits were frozen effective October 1, 2005

The effective interest rate assumption changed to 6.31% as of October 1, 2015 from 6.52% as of October 1, 2014.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date October 1, 1964, most recently amended effective October 1, 2015.

Eligibility Any person in active employment of the employer prior to October 1, 2005 who is included in the collective bargaining unit of Denver Teamsters' Union Local No. 455.

No new participants may enter the plan after September 30, 2005.

Employer Contributions Employer contributions are made for each hour worked. The table below summarizes the most recent history of employer contributions.

Effective Date	Rate Per Hour
10/1986	\$0.625
6/2001	1.000
1/2002	1.100
1/2003	1.200
7/2004	1.400
7/2005 ¹	1.550

Normal Retirement

Eligibility Age 65.

Benefit A monthly income payable for life equal to \$50 per year of benefit service, plus the actuarial equivalent of the severance benefit.

Benefits are frozen as of September 30, 2005.

Early Retirement

Eligibility Age 55 and five years of vesting service.

Benefit The monthly benefit is determined same as normal retirement considering benefit service prior to actual retirement. If payment commences prior to age 65, benefits are reduced by 0.25% for each month by which payment begins before age 65.

Disability Retirement
Eligibility

Five years of vesting service.

Benefit

Benefit commencing six months after disability equal to the larger of 50% of the accrued benefit, or the actuarial equivalent of the accrued benefit.

Preretirement Death Benefit

Non-vested participants and participants with no spouse who have earned one year of benefit service or more shall have a lump-sum benefit payable to their beneficiary equal to \$200 times years of benefit service.

The spouse of a married participant who meets the eligibility requirements for vesting in the plan will receive a monthly benefit equal to 50% of the accrued benefit at the participant's date of death, payable at the participant's earliest retirement date, and unreduced for early retirement.

Form of Retirement Benefit
Normal

The normal form of benefit is a life annuity. Participants who are married at their normal retirement date will receive a reduced benefit payable in the form of a qualified Joint and 50% Survivor Annuity unless an alternate form annuity is elected.

Optional

Ten-year Certain and Life Annuity, 50%, 75%, or 100% Joint and Survivor Annuities.

Definitions

Actuarial Equivalence

Equivalence in value between two or more methods of payment.

For payments other than lump sums, actuarial equivalence shall be based on interest rate of 6.5% per annum, compounded annually, and the 1994 GAR Mortality Table in Revenue Ruling 2001-62.

Lump-sum payments are based on IRC section 417(e) mortality and interest rates.

Plan Year

October 1 to September 30.

Vesting

Participants are 100% vested in their accrued benefit after completion of five years of service.

If a participant terminates after earning one year of benefit service, participant shall receive a severance benefit equal to \$400 times years of benefit service earned October 1, 1964 through March 23, 2001.

Years of Benefit Service

A plan year prior to October 1, 2005 in which an employee completes 1,000 hours, with partial credit at the rate of 1/10th year for each 100 hours worked. Benefit service is frozen effective October 1, 2005.

Years of Vesting

A plan year in which an employee completes 500 hours, with partial credit at the rate of 1/10th year for each 100 hours worked.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan change:

- A change in the mortality and interest basis for lump-sum payments under IRC Section 417(e)(3) to the applicable rates for the current plan year

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets
2013 Plan Year

Lesser of 7.60%, and the 3rd Segment rate. Actual rate of 7.16%.

2014 Plan Year

Lesser of 7.50%, and the 3rd Segment rate. Actual rate of 6.99%.

2015 Plan Year

Lesser of 7.50%, and the 3rd Segment rate. Actual rate of 6.81%.

Trust Expenses Included in Target Normal Cost

The Target Normal Cost includes estimated administrative expenses (based on prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2015, this amount is \$100,000.

Actuarial Method

Standard unit credit cost method.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date October 1, 1964, most recently amended effective October 1, 2015.

Eligibility Any person in active employment of the employer prior to October 1, 2005 who is included in the collective bargaining unit of Denver Teamsters' Union Local No. 455.

No new participants may enter the plan after September 30, 2005.

Employer Contributions Employer contributions are made for each hour worked. The table below summarizes the most recent history of employer contributions.

Effective Date	Rate Per Hour
10/1986	\$0.625
6/2001	1.000
1/2002	1.100
1/2003	1.200
7/2004	1.400
7/2005 ¹	1.550

Normal Retirement

Eligibility Age 65.

Benefit A monthly income payable for life equal to \$50 per year of benefit service, plus the actuarial equivalent of the severance benefit.

Benefits are frozen as of September 30, 2005.

Early Retirement

Eligibility Age 55 and five years of vesting service.

Benefit The monthly benefit is determined same as normal retirement considering benefit service prior to actual retirement. If payment commences prior to age 65, benefits are reduced by 0.25% for each month by which payment begins before age 65.

Disability Retirement
Eligibility

Five years of vesting service.

Benefit

Benefit commencing six months after disability equal to the larger of 50% of the accrued benefit, or the actuarial equivalent of the accrued benefit.

Preretirement Death Benefit

Non-vested participants and participants with no spouse who have earned one year of benefit service or more shall have a lump-sum benefit payable to their beneficiary equal to \$200 times years of benefit service.

The spouse of a married participant who meets the eligibility requirements for vesting in the plan will receive a monthly benefit equal to 50% of the accrued benefit at the participant's date of death, payable at the participant's earliest retirement date, and unreduced for early retirement.

Form of Retirement Benefit
Normal

The normal form of benefit is a life annuity. Participants who are married at their normal retirement date will receive a reduced benefit payable in the form of a qualified Joint and 50% Survivor Annuity unless an alternate form annuity is elected.

Optional

Ten-year Certain and Life Annuity, 50%, 75%, or 100% Joint and Survivor Annuities.

Definitions
Actuarial Equivalence

Equivalence in value between two or more methods of payment.

For payments other than lump sums, actuarial equivalence shall be based on interest rate of 6.5% per annum, compounded annually, and the 1994 GAR Mortality Table in Revenue Ruling 2001-62.

Lump-sum payments are based on IRC section 417(e) mortality and interest rates.

Plan Year

October 1 to September 30.

Vesting

Participants are 100% vested in their accrued benefit after completion of five years of service.

If a participant terminates after earning one year of benefit service, participant shall receive a severance benefit equal to \$400 times years of benefit service earned October 1, 1964 through March 23, 2001.

Years of Benefit Service

A plan year prior to October 1, 2005 in which an employee completes 1,000 hours, with partial credit at the rate of 1/10th year for each 100 hours worked. Benefit service is frozen effective October 1, 2005.

Years of Vesting

A plan year in which an employee completes 500 hours, with partial credit at the rate of 1/10th year for each 100 hours worked.

Plan Changes Since the Prior Year

The funding valuation reflects the following plan change:

- A change in the mortality and interest basis for lump-sum payments under IRC Section 417(e)(3) to the applicable rates for the current plan year

INDEPENDENT AUDITORS' REPORT

Plan Administrator, Committee, and Participants
Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan
Denver, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of September 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of September 30, 2016 and 2015, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedules as of and for the year ended September 30, 2016, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a collectively bargained, single-employer defined benefit plan established October 1, 1964 under an agreement, as amended, by and between The Denver Post, LLC (the "Company") and the Denver Teamsters Local Union 455 to provide pension, disability, and death benefits to eligible employees with qualifying years of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan investments, and maintains the Plan's records.

Effective October 1, 2005, the Plan was frozen. Current participants will not accrue benefit credits but will continue to accrue vesting credits.

Effective October 1, 2015, the Plan was amended and restated in its entirety to comply with applicable federal laws and to make other changes.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the Plan years ended September 30, 2016 and 2015.

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the Plan liabilities on the valuation date. The funding target attainment percentage was 88.68% at October 1, 2015 and 92.09% at October 1, 2014.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$265,000 and \$180,000 were made to the Plan for the years ended September 30, 2016 and 2015, respectively.

Vesting and Payment of Benefits

A participant who has completed five years of vesting service or who has attained age 65 while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan. Participants earn one year of vesting service for each calendar year in which a participant is credited with at least 1,000 hours of service. A participant who terminates employment after achieving vested status is entitled to a deferred vested benefit. Payments of the deferred benefit begin at the participant's normal retirement date and consist of all benefits accrued prior to termination. If a vested participant chooses, the participant may receive his or her deferred vested benefit in a reduced amount commencing on or after age 55.

The normal retirement date is the first day of the month coinciding with or following the participant's 65th birthday. A vested participant may terminate employment and commence receiving a reduced benefit on the first day of any month on or after age 55. The pension formula for the benefit payable at normal retirement date (in the form of a life annuity) is equal to a dollar amount dependent upon the participant's termination date, as described more fully in the following paragraphs, multiplied by the number of years of Benefit Service.

During 2000, the Plan was amended to provide for varying pension benefit formula dollar amounts based on employment termination dates. For participants whose employment terminated prior to October 1, 1997, the monthly dollar amount is \$30 times the participant's years of Benefit Service. For participants whose employment terminated between October 1, 1997 and September 30, 2000, the amount is \$35. For participants whose employment terminated on or after October 1, 2000, the monthly dollar amount is \$50 times the participant's years of Benefit Service.

A married vested participant is eligible for the Pre-Retirement Surviving Spouse's Annuity Option, under which there is a monthly death benefit payable to the participant's spouse for life equal to half of the participant's benefit as if the participant had retired under the 50% Joint and Survivor Annuity and terminated on the day preceding the participant's death. This benefit is payable to the surviving spouse beginning on the participant's earliest possible early retirement date following the death of the employee.

The spouse of a participant who dies while employed and after completing five years of vesting service, or after terminating with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified 50% Joint and Survivor Annuity or in the form of a qualified 100% Joint and Survivor Annuity if the proper elections have been made. The death benefit becomes payable no earlier than the date the participant would have become eligible to receive benefits.

PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

The spouse, or the designated beneficiary if the proper elections have been made, of a participant who dies after normal, early, late, deferred, or disability benefits have commenced is entitled to death benefits payable as elected when the participant became eligible for the benefit, as defined in the Plan document. However, if the participant is unmarried, the designated beneficiary is eligible for death benefits, as described in the Plan document, payable in a single lump sum.

Benefit payments to participants are recorded when paid.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, the net assets would be set aside first for the payment of benefits to retirees and then for all other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value as reported by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional fair value measurement disclosures.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated Plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

As of September 30, 2016 and 2015, four investments accounted for approximately 98% of total investments, at fair value. During the years ended September 30, 2016 and 2015, four and three investments accounted for approximately 100% and 98%, respectively, of net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in separate footnotes to the financial statements.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these plan assets was removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Recent Accounting Pronouncements (continued)

The Plan elected to early adopt this standard update for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts.

Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented.

Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt all three parts of this standard update (as applicable) for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

PENSION PLAN**

Notes to Financial Statements

Note 2 - Investments Certified by the Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of September 30, 2016 and 2015 and the income earned or losses incurred on the investments for the years ended September 30, 2016 and 2015, as reflected in the accompanying financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions.

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of September 30, 2016 and 2015, no investments were required to be presented in the fair value hierarchy table. As of September 30, 2016 and 2015, investments of \$3,214,806 and \$3,120,986 were measured at NAV, respectively.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The Plan's investments in pooled separate accounts ("separate accounts") are recorded at NAV reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts, and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in separate accounts on an equivalent measure where it is not probable that the fund will sell a separate account at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no changes to the valuation techniques used during the years ended 2016 and 2015. The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The IRS has determined and informed the Plan in a letter dated August 20, 2014 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended September 30, 2016 and 2015 were \$12,000, which are included within administrative fees on the statements of changes in net assets available for benefits.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 6 - Related Party and Party-in-Interest Transactions

Plan investments include pooled separate accounts managed by Prudential. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and present employees or their beneficiaries are based on varying pension benefit formulas, as outlined in the Plan. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial valuation was performed as of October 1, 2015 and 2014. Had the valuation been performed as of September 30, 2015 and 2014, there would be no material difference.

The following table sets forth the accumulated Plan benefits:

	October 1	
	2015	2014
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 1,825,648	\$ 1,648,507
Vested benefits for other participants	<u>1,700,247</u>	<u>1,509,657</u>
Total vested benefits	3,525,895	3,158,164
Non-vested benefits	<u>2,141</u>	<u>5,438</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,528,036</u>	<u>\$ 3,163,602</u>

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

The change in present value of accumulated Plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of October 1, 2014	\$ 3,163,602
Increase (decrease) during the year attributable to	
Interest accumulation	230,009
Assumption changes (1)	280,210
Other changes (2)	51,408
Benefit payments	<u>(197,193)</u>
Actuarial present value of accumulated plan benefits as of October 1, 2015	\$ <u>3,528,036</u>

- (1) Changes in actuarial assumptions relate to changes in mortality assumptions as noted in the following table.
- (2) Other changes represent the normal operation of the Plan, consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its October 1, 2015 and 2014 calculations are as follows:

Assumed rate of return on investments	6.99% (2016) and 7.16% (2015)
Probability of retirement	5% at ages 55-59, 10% at ages 60-61, 50% at age 62, 25% at ages 63-64, and 100% at ages 65+ (2016 and 2015)
Mortality basis	2015 Static Mortality Table for Annuitants and Non-Annuitants (2016) and 2014 Static Mortality Table for Annuitants and Non-Annuitants (2015)
Actuarial cost method	Standard Unit Credit Cost Method (2016 and 2015)
Compensation increase	Salary scale and valuation compensation assumptions no longer apply, as benefits were frozen effective October 1, 2005

The effective interest rate assumption changed to 6.31% as of October 1, 2015 from 6.52% as of October 1, 2014.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

INDEPENDENT AUDITORS' REPORT

Plan Administrator, Committee, and Participants
Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan
Denver, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of September 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of September 30, 2016 and 2015, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedules as of and for the year ended September 30, 2016, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a collectively bargained, single-employer defined benefit plan established October 1, 1964 under an agreement, as amended, by and between The Denver Post, LLC (the "Company") and the Denver Teamsters Local Union 455 to provide pension, disability, and death benefits to eligible employees with qualifying years of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan investments, and maintains the Plan's records.

Effective October 1, 2005, the Plan was frozen. Current participants will not accrue benefit credits but will continue to accrue vesting credits.

Effective October 1, 2015, the Plan was amended and restated in its entirety to comply with applicable federal laws and to make other changes.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the Plan years ended September 30, 2016 and 2015.

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the Plan liabilities on the valuation date. The funding target attainment percentage was 88.68% at October 1, 2015 and 92.09% at October 1, 2014.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$265,000 and \$180,000 were made to the Plan for the years ended September 30, 2016 and 2015, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits

A participant who has completed five years of vesting service or who has attained age 65 while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan. Participants earn one year of vesting service for each calendar year in which a participant is credited with at least 1,000 hours of service. A participant who terminates employment after achieving vested status is entitled to a deferred vested benefit. Payments of the deferred benefit begin at the participant's normal retirement date and consist of all benefits accrued prior to termination. If a vested participant chooses, the participant may receive his or her deferred vested benefit in a reduced amount commencing on or after age 55.

The normal retirement date is the first day of the month coinciding with or following the participant's 65th birthday. A vested participant may terminate employment and commence receiving a reduced benefit on the first day of any month on or after age 55. The pension formula for the benefit payable at normal retirement date (in the form of a life annuity) is equal to a dollar amount dependent upon the participant's termination date, as described more fully in the following paragraphs, multiplied by the number of years of Benefit Service.

During 2000, the Plan was amended to provide for varying pension benefit formula dollar amounts based on employment termination dates. For participants whose employment terminated prior to October 1, 1997, the monthly dollar amount is \$30 times the participant's years of Benefit Service. For participants whose employment terminated between October 1, 1997 and September 30, 2000, the amount is \$35. For participants whose employment terminated on or after October 1, 2000, the monthly dollar amount is \$50 times the participant's years of Benefit Service.

A married vested participant is eligible for the Pre-Retirement Surviving Spouse's Annuity Option, under which there is a monthly death benefit payable to the participant's spouse for life equal to half of the participant's benefit as if the participant had retired under the 50% Joint and Survivor Annuity and terminated on the day preceding the participant's death. This benefit is payable to the surviving spouse beginning on the participant's earliest possible early retirement date following the death of the employee.

The spouse of a participant who dies while employed and after completing five years of vesting service, or after terminating with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified 50% Joint and Survivor Annuity or in the form of a qualified 100% Joint and Survivor Annuity if the proper elections have been made. The death benefit becomes payable no earlier than the date the participant would have become eligible to receive benefits.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

The spouse, or the designated beneficiary if the proper elections have been made, of a participant who dies after normal, early, late, deferred, or disability benefits have commenced is entitled to death benefits payable as elected when the participant became eligible for the benefit, as defined in the Plan document. However, if the participant is unmarried, the designated beneficiary is eligible for death benefits, as described in the Plan document, payable in a single lump sum.

Benefit payments to participants are recorded when paid.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, the net assets would be set aside first for the payment of benefits to retirees and then for all other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value as reported by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional fair value measurement disclosures.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated Plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

As of September 30, 2016 and 2015, four investments accounted for approximately 98% of total investments, at fair value. During the years ended September 30, 2016 and 2015, four and three investments accounted for approximately 100% and 98%, respectively, of net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in separate footnotes to the financial statements.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these plan assets was removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Recent Accounting Pronouncements (continued)

The Plan elected to early adopt this standard update for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts.

Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented.

Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt all three parts of this standard update (as applicable) for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 2 - Investments Certified by the Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of September 30, 2016 and 2015 and the income earned or losses incurred on the investments for the years ended September 30, 2016 and 2015, as reflected in the accompanying financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions.

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of September 30, 2016 and 2015, no investments were required to be presented in the fair value hierarchy table. As of September 30, 2016 and 2015, investments of \$3,214,806 and \$3,120,986 were measured at NAV, respectively.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The Plan's investments in pooled separate accounts ("separate accounts") are recorded at NAV reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts, and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in separate accounts on an equivalent measure where it is not probable that the fund will sell a separate account at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no changes to the valuation techniques used during the years ended 2016 and 2015. The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The IRS has determined and informed the Plan in a letter dated August 20, 2014 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended September 30, 2016 and 2015 were \$12,000, which are included within administrative fees on the statements of changes in net assets available for benefits.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 6 - Related Party and Party-in-Interest Transactions

Plan investments include pooled separate accounts managed by Prudential. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and present employees or their beneficiaries are based on varying pension benefit formulas, as outlined in the Plan. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial valuation was performed as of October 1, 2015 and 2014. Had the valuation been performed as of September 30, 2015 and 2014, there would be no material difference.

The following table sets forth the accumulated Plan benefits:

	October 1	
	2015	2014
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 1,825,648	\$ 1,648,507
Vested benefits for other participants	<u>1,700,247</u>	<u>1,509,657</u>
Total vested benefits	3,525,895	3,158,164
Non-vested benefits	<u>2,141</u>	<u>5,438</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,528,036</u>	<u>\$ 3,163,602</u>

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

The change in present value of accumulated Plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of October 1, 2014	\$ 3,163,602
Increase (decrease) during the year attributable to	
Interest accumulation	230,009
Assumption changes (1)	280,210
Other changes (2)	51,408
Benefit payments	<u>(197,193)</u>
Actuarial present value of accumulated plan benefits as of October 1, 2015	\$ <u>3,528,036</u>

- (1) Changes in actuarial assumptions relate to changes in mortality assumptions as noted in the following table.
- (2) Other changes represent the normal operation of the Plan, consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its October 1, 2015 and 2014 calculations are as follows:

Assumed rate of return on investments	6.99% (2016) and 7.16% (2015)
Probability of retirement	5% at ages 55-59, 10% at ages 60-61, 50% at age 62, 25% at ages 63-64, and 100% at ages 65+ (2016 and 2015)
Mortality basis	2015 Static Mortality Table for Annuitants and Non-Annuitants (2016) and 2014 Static Mortality Table for Annuitants and Non-Annuitants (2015)
Actuarial cost method	Standard Unit Credit Cost Method (2016 and 2015)
Compensation increase	Salary scale and valuation compensation assumptions no longer apply, as benefits were frozen effective October 1, 2005

The effective interest rate assumption changed to 6.31% as of October 1, 2015 from 6.52% as of October 1, 2014.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

INDEPENDENT AUDITORS' REPORT

Plan Administrator, Committee, and Participants
Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan
Denver, Colorado

REPORT ON FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan"), which are comprised of the statements of net assets available for benefits as of September 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

BASIS FOR DISCLAIMER OF OPINION

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Prudential Retirement Insurance and Annuity Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of September 30, 2016 and 2015, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

DISCLAIMER OF OPINION

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

OTHER MATTER

The supplemental schedules as of and for the year ended September 30, 2016, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH THE DEPARTMENT OF LABOR'S RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Denver Teamsters Local Union 455 - The Denver Post Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a collectively bargained, single-employer defined benefit plan established October 1, 1964 under an agreement, as amended, by and between The Denver Post, LLC (the "Company") and the Denver Teamsters Local Union 455 to provide pension, disability, and death benefits to eligible employees with qualifying years of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected a committee that administers the Plan. Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan investments, and maintains the Plan's records.

Effective October 1, 2005, the Plan was frozen. Current participants will not accrue benefit credits but will continue to accrue vesting credits.

Effective October 1, 2015, the Plan was amended and restated in its entirety to comply with applicable federal laws and to make other changes.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the Plan years ended September 30, 2016 and 2015.

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the Plan liabilities on the valuation date. The funding target attainment percentage was 88.68% at October 1, 2015 and 92.09% at October 1, 2014.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$265,000 and \$180,000 were made to the Plan for the years ended September 30, 2016 and 2015, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits

A participant who has completed five years of vesting service or who has attained age 65 while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan. Participants earn one year of vesting service for each calendar year in which a participant is credited with at least 1,000 hours of service. A participant who terminates employment after achieving vested status is entitled to a deferred vested benefit. Payments of the deferred benefit begin at the participant's normal retirement date and consist of all benefits accrued prior to termination. If a vested participant chooses, the participant may receive his or her deferred vested benefit in a reduced amount commencing on or after age 55.

The normal retirement date is the first day of the month coinciding with or following the participant's 65th birthday. A vested participant may terminate employment and commence receiving a reduced benefit on the first day of any month on or after age 55. The pension formula for the benefit payable at normal retirement date (in the form of a life annuity) is equal to a dollar amount dependent upon the participant's termination date, as described more fully in the following paragraphs, multiplied by the number of years of Benefit Service.

During 2000, the Plan was amended to provide for varying pension benefit formula dollar amounts based on employment termination dates. For participants whose employment terminated prior to October 1, 1997, the monthly dollar amount is \$30 times the participant's years of Benefit Service. For participants whose employment terminated between October 1, 1997 and September 30, 2000, the amount is \$35. For participants whose employment terminated on or after October 1, 2000, the monthly dollar amount is \$50 times the participant's years of Benefit Service.

A married vested participant is eligible for the Pre-Retirement Surviving Spouse's Annuity Option, under which there is a monthly death benefit payable to the participant's spouse for life equal to half of the participant's benefit as if the participant had retired under the 50% Joint and Survivor Annuity and terminated on the day preceding the participant's death. This benefit is payable to the surviving spouse beginning on the participant's earliest possible early retirement date following the death of the employee.

The spouse of a participant who dies while employed and after completing five years of vesting service, or after terminating with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified 50% Joint and Survivor Annuity or in the form of a qualified 100% Joint and Survivor Annuity if the proper elections have been made. The death benefit becomes payable no earlier than the date the participant would have become eligible to receive benefits.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

The spouse, or the designated beneficiary if the proper elections have been made, of a participant who dies after normal, early, late, deferred, or disability benefits have commenced is entitled to death benefits payable as elected when the participant became eligible for the benefit, as defined in the Plan document. However, if the participant is unmarried, the designated beneficiary is eligible for death benefits, as described in the Plan document, payable in a single lump sum.

Benefit payments to participants are recorded when paid.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, the net assets would be set aside first for the payment of benefits to retirees and then for all other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value as reported by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional fair value measurement disclosures.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated Plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

PENSION PLAN**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

As of September 30, 2016 and 2015, four investments accounted for approximately 98% of total investments, at fair value. During the years ended September 30, 2016 and 2015, four and three investments accounted for approximately 100% and 98%, respectively, of net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in separate footnotes to the financial statements.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendment applies to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendment removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendment is effective for all plan years beginning after December 15, 2015. Earlier application is permitted. Entities should apply the amendment in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these plan assets was removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient.

Recent Accounting Pronouncements (continued)

The Plan elected to early adopt this standard update for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts.

Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the NAV per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented.

Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end.

The Plan elected to early adopt all three parts of this standard update (as applicable) for the year ended September 30, 2016 and adjusted the financial statement disclosures for all periods presented. The adoption of this new accounting pronouncement did not have a material impact on the Plan's financial statements.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 2 - Investments Certified by the Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of September 30, 2016 and 2015 and the income earned or losses incurred on the investments for the years ended September 30, 2016 and 2015, as reflected in the accompanying financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements, the supplemental schedule of assets (held at end of year), and the schedule of reportable transactions.

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of September 30, 2016 and 2015, no investments were required to be presented in the fair value hierarchy table. As of September 30, 2016 and 2015, investments of \$3,214,806 and \$3,120,986 were measured at NAV, respectively.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The Plan's investments in pooled separate accounts ("separate accounts") are recorded at NAV reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts, and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in separate accounts on an equivalent measure where it is not probable that the fund will sell a separate account at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no changes to the valuation techniques used during the years ended 2016 and 2015. The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The IRS has determined and informed the Plan in a letter dated August 20, 2014 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services. Fees incurred and paid directly by the Plan for investment consultant services during the years ended September 30, 2016 and 2015 were \$12,000, which are included within administrative fees on the statements of changes in net assets available for benefits.

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 6 - Related Party and Party-in-Interest Transactions

Plan investments include pooled separate accounts managed by Prudential. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and present employees or their beneficiaries are based on varying pension benefit formulas, as outlined in the Plan. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial valuation was performed as of October 1, 2015 and 2014. Had the valuation been performed as of September 30, 2015 and 2014, there would be no material difference.

The following table sets forth the accumulated Plan benefits:

	October 1	
	2015	2014
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 1,825,648	\$ 1,648,507
Vested benefits for other participants	<u>1,700,247</u>	<u>1,509,657</u>
Total vested benefits	3,525,895	3,158,164
Non-vested benefits	<u>2,141</u>	<u>5,438</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 3,528,036</u>	<u>\$ 3,163,602</u>

**DENVER TEAMSTERS LOCAL UNION 455 - THE DENVER POST EMPLOYEES'
PENSION PLAN**

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

The change in present value of accumulated Plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of October 1, 2014	\$ 3,163,602
Increase (decrease) during the year attributable to	
Interest accumulation	230,009
Assumption changes (1)	280,210
Other changes (2)	51,408
Benefit payments	<u>(197,193)</u>
Actuarial present value of accumulated plan benefits as of October 1, 2015	\$ <u>3,528,036</u>

- (1) Changes in actuarial assumptions relate to changes in mortality assumptions as noted in the following table.
- (2) Other changes represent the normal operation of the Plan, consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its October 1, 2015 and 2014 calculations are as follows:

Assumed rate of return on investments	6.99% (2016) and 7.16% (2015)
Probability of retirement	5% at ages 55-59, 10% at ages 60-61, 50% at age 62, 25% at ages 63-64, and 100% at ages 65+ (2016 and 2015)
Mortality basis	2015 Static Mortality Table for Annuitants and Non-Annuitants (2016) and 2014 Static Mortality Table for Annuitants and Non-Annuitants (2015)
Actuarial cost method	Standard Unit Credit Cost Method (2016 and 2015)
Compensation increase	Salary scale and valuation compensation assumptions no longer apply, as benefits were frozen effective October 1, 2005

The effective interest rate assumption changed to 6.31% as of October 1, 2015 from 6.52% as of October 1, 2014.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.
