LAFARGE NORTH AMERICA INC. HOURLY 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan

The following description of the Lafarge North America Inc. Hourly 401(k) Plan (the “Plan”) (formerly the “Lafarge North America Inc. 401(k) Plan for Hourly Compensated Employees”) is provided for general purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan was created by Lafarge North America Inc. (the “Company” or “Employer” or “Plan Sponsor”) on June 1, 1992 and was most recently amended effective January 1, 2015, to clarify groups eligible to participate in the Plan and to restate several supplements to the Plan. On July 10, 2015, the Company completed a merger with Holcim Ltd and became Lafarge Holcim. The Plan is a defined contribution plan and covers hourly employees of the Company at certain facilities who have completed any applicable eligibility requirements and who are not covered by another Company plan. The Plan is intended to qualify under Section 401(k) of the Internal Revenue Code (“IRC”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan’s assets are held in the custody of Vanguard Fiduciary Trust Company (the “trustee”). See Note 9 for more information regarding change in trustee effective December 31, 2015.

Administrative Expenses – The Plan is administered by the Plan Sponsor. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative expenses are paid either directly by the Plan Sponsor or by the account of the participant.

Participant Contributions – The Plan consists of a basic Plan document and several supplements relating to certain locations and/or unions. Each supplement to the Plan document addresses eligibility, employer contributions and allocations, vesting, etc. which may be different from the basic Plan document. Each hourly employee who becomes eligible to participate in the Plan under the basic Plan document may contribute on a pretax basis, an amount in integral percentages up to 4% of annual compensation and also may elect to make an additional voluntary pretax contribution of whole percentages, subject to Internal Revenue Service (“IRS”) limits. In addition, participants 50 years of age or older may elect to make a catch-up deferral contribution of up to \$6,000 for the year ended December 31, 2015. Qualified distributions from other qualified retirement plans can also be contributed to the Plan and retained as a rollover contribution.

Employer Contributions – Under the basic Plan document, the Company matches 25% of the first 4% of pretax compensation contributed to the Plan by each participant for all participants who have completed one year of service and attained the age 21. In addition, eligible employees within certain locations and/or unions may receive an employer supplemental contribution based on the supplement related to that location and/or union. Employees within these locations and/or unions receive 1.5% of eligible compensation, regardless of employee deferrals. The employer match and supplemental contribution for the year ended December 31, 2015 totaled \$128,028. Contributions are subject to certain limitations.

Vesting – Participants are immediately vested in their salary deferral contributions and rollover contributions plus actual earnings thereon.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Participants become vested in employer contributions and earnings in accordance with the following schedule:

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Participant Accounts – Individual accounts are maintained for each participant and include participants' salary deferral contribution and rollover contributions, plus an allocation of the Plan Sponsor's matching contribution, supplemental contributions, (if any) and plan earnings (losses), including realized and unrealized gains and losses on investments, and administrative expenses not paid by the Plan Sponsor. Allocations are based on participant earnings or account balances, as defined.

Forfeited Accounts – Forfeitures arising with respect to former non-fully vested participants are first applied to restore any forfeited amounts for any former participant rehired before five consecutive one year breaks in service, then to pay for any administrative expenses of the Plan. Any remaining forfeitures may be used to reduce future employer contributions. During the year ended December 31, 2015, forfeitures used to reduce administrative expenses totaled \$49,489. Forfeitures of \$264,645 were used to reduce employer contributions during the year ended December 31, 2015. At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$0 and \$314,134, respectively.

Payment of Benefits – On termination of service, a participant (or designated beneficiary) may elect to receive an amount equal to the value of the participant's vested interest in his account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 59½, or in certain hardship situations. A participant may elect to receive a lump sum payment, an annuity, or may roll over the value of their account into another qualified plan. In the event a participant terminates or retires and the participant's vested account balance is less than \$5,000, the balance will either be rolled into an Individual Retirement Account ("IRA") or paid out as a lump sum distribution at the discretion of the Company.

The Plan also allows, in certain hardship situations as defined in the Plan, participants to withdraw from their account balances while actively employed. These hardship withdrawals are subject to IRC restrictions and penalties.

Notes Receivable from Participants – The Plan does not offer notes to participants, with the exception of participants covered by the Blue Circle Heritage Cement Supplement ("Cement Supplement"). Participants under the Cement Supplement may receive a note from the Plan of up to 50% of their vested balance or \$50,000, whichever is less. Interest rates on notes are commensurate with the interest rates charged by persons in the business of lending money for notes, which would be made under similar circumstances. The note is collateralized by the remainder of the participant's account and is paid back over a period not to exceed five years unless the note is for the purchase of a primary residence. Interest rates ranged from 4.25% to 9.00% at December 31, 2015. Principal and interest are paid ratably through payroll deductions. As of December 31, 2015, the transfer in receivable included \$228,062 of outstanding notes receivable to participants. See Note 9 for more information regarding the transfer in receivable.

LAFARGE NORTH AMERICA INC. HOURLY 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Investment Options – Participants may direct Vanguard Fiduciary Trust Company, the trustee, as to the investment of their account balances in accordance with guidelines established by the Plan. Participants may change their investment elections at any time. Transfers of account balances between elected investment options may also be made at any time.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan’s gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the Plan document.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Risks and Uncertainties – The Plan provides for various investment fund options. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants’ account balances and the amount reported in the statements of net asset available for benefits and the statement of changes in net assets available for benefits.

New Accounting Pronouncements – In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the Net Asset Value (“NAV”) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. As permitted, the Plan has elected early adoption and has applied the ASU retrospectively for all periods presented. Accordingly, investments measured using the NAV practical expedient have been removed from the categorization of the fair value hierarchy as of December 31, 2015 and 2014.

LAFARGE NORTH AMERICA INC. HOURLY 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 2—Summary of significant accounting policies (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures and provides for a measurement-date practical expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provides certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. As permitted, the Plan has elected early adoption of Part II and has applied the ASU retrospectively for all periods presented. The adoption of Part II eliminated the historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, disclosure of investments by nature, characteristics and risks, as well as the net appreciation or depreciation of fair value types.

Fair Value Measurement – GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
- Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and
- Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

LAFARGE NORTH AMERICA INC. HOURLY 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 2—Summary of significant accounting policies (continued)

Common / Collective Trust – These investments are public investment vehicles valued using the NAV as a practical expedient to estimating fair value provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is not a publicly-quoted price in an active market. The investment objectives seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. As part of the adoption of ASU 2015-07, the common / collective trust has not been classified under the fair value or reflective of future fair values.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3—Tax status

The Plan has received its latest determination letter from the IRS dated June 24, 2014 stating that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, that it has no income subject to business income tax, and that the Plan continues to be tax exempt.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4—Plan termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.

Note 5—Information certified by the Plan's trustee (unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL'S Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of the following data included in the accompanying financial statements as of December 31, 2015 and 2014 and for the year ended December 31, 2015.

- Interest and dividend income, interest on notes receivable from participants, and net depreciation in fair value of investments

Participant Contributions – The Plan consists of a basic Plan document and several supplements relating to certain locations and/or unions. Each supplement to the Plan document addresses eligibility, employer contributions and allocations, vesting, etc. which may be different from the basic Plan document. Each hourly employee who becomes eligible to participate in the Plan under the basic Plan document may contribute on a pretax basis, an amount in integral percentages up to 4% of annual compensation and also may elect to make an additional voluntary pretax contribution of whole percentages, subject to Internal Revenue Service (“IRS”) limits. A participant may elect to receive a lump sum payment, an annuity, or may roll over the value of their account into another qualified plan. In the event a participant terminates or retires and the participant's vested account balance is less than \$5,000, the balance will either be rolled into an Individual Retirement Account ("IRA") or paid out as a lump sum distribution at the discretion of the Company.

The Plan also allows, in certain hardship situations as defined in the Plan, participants to withdraw from their account balances while actively employed. These hardship withdrawals are subject to IRC restrictions and penalties.

Notes Receivable from Participants – The Plan does not offer notes to participants, with the exception of participants covered by the Blue Circle Heritage Cement Supplement ("Cement Supplement"). Participants under the Cement Supplement may receive a note from the Plan of up to 50% of their vested balance or \$50,000, whichever is less. Interest rates on notes are commensurate with the interest rates charged by persons in the business of lending money for notes, which would be made under similar circumstances. The note is collateralized by the remainder of the participant's account and is paid back over a period not to exceed five years unless the note is for the purchase of a primary residence. Interest rates ranged from 4.25% to 9.00% at December 31, 2015. Principal and interest are paid ratably through payroll deductions. As of December 31, 2015, the transfer in receivable included \$228,062 of outstanding notes receivable to participants. See Note 9 for more information regarding the transfer in receivable.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

Note 1—Description of Plan (continued)

Investment Options – Participants may direct Vanguard Fiduciary Trust Company, the trustee, as to the investment of their account balances in accordance with guidelines established by the Plan. Participants may change their investment elections at any time. Transfers of account balances between elected investment options may also be made at any time.

Note 2—Summary of significant accounting policies

Basis of Accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan’s gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the Plan document.

Benefits Paid to Participants – Benefits paid to participants are recorded when paid.

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

Risks and Uncertainties – The Plan provides for various investment fund options. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants’ account balances and the amount reported in the statements of net asset available for benefits and the statement of changes in net assets available for benefits.

New Accounting Pronouncements – In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the Net Asset Value (“NAV”) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. As permitted, the Plan has elected early adoption and has applied the ASU retrospectively for all periods presented. Accordingly, investments measured using the NAV practical expedient have been removed from the categorization of the fair value hierarchy as of December 31, 2015 and 2014.

Note 2—Summary of significant accounting policies (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part I Fully Benefit-Responsive Investment Contracts, Part II Plan Investment Disclosures, Part III Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures and provides for a measurement-date practical expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provides certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investment by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. As permitted, the Plan has elected early adoption of Part II and has applied the ASU retrospectively for all periods presented. The adoption of Part II eliminated the historical disclosure of individual investments which comprise 5% or more of total net assets available for benefits, disclosure of investments by nature, characteristics and risks, as well as the net appreciation or depreciation of fair value types.

Fair Value Measurement – GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
- Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and
- Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Note 2—Summary of significant accounting policies (continued)

Common / Collective Trust – These investments are public investment vehicles valued using the NAV as a practical expedient to estimating fair value provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is not a publicly-quoted price in an active market. The investment objectives seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. As part of the adoption of ASU 2015-07, the common / collective trust has not been classified under the fair value or reflective of future fair values.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3—Tax status

The Plan has received its latest determination letter from the IRS dated June 24, 2014 stating that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, that it has no income subject to business income tax, and that the Plan continues to be tax exempt.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4—Plan termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their accounts.

Note 5—Information certified by the Plan's trustee (unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL'S Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of the following data included in the accompanying financial statements as of December 31, 2015 and 2014 and for the year ended December 31, 2015.

- Investments and notes receivable from participants
- Interest and dividend income, interest on notes receivable from participants, and net depreciation in fair value of investments

Note 7—Fair value measurements
