SLEEP SERVICES OF AMERICA, INC. 401(k) SAVINGS PLAN

Notes to the Financial Statements September 30, 2016 and December 31, 2015

1. DESCRIPTION OF THE PLAN

The following brief description of the Sleep Services of America, Inc. 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Johns Hopkins Medicine purchased GE Healthcare/Vital Signs, Inc.'s investment stake in Sleep Services of America, Inc. (the Company), effective July 1, 2013. As part of the transaction, Johns Hopkins Medicine established a 401(k) plan for the Company's employees with the same provisions as the 401(k) plan in which they had previously been participating. The Plan was adopted as of August 1, 2013, and was intended to be a qualified retirement plan under the Internal Revenue Code.

The Plan was a defined contribution 401(k) plan covering all full time employees of the Company. Part-time employees who had completed at least 1,000 hours of service were eligible to participate. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective March 1, 2016, Sleep Services of America was purchased by MedBridge Acquisition Corp. The Plan was merged into The MedBridge Healthcare 401(k) Retirement Plan (MedBridge) on September 30, 2016.

Plan Termination

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Effective September 30, 2016, the Plan was terminated.

Contributions

Eligible employees could elect to contribute through regular payroll deductions up to 80% of their annual pre-tax compensation. Participants who attained age 50 before the end of the plan year were eligible to make catch-up contributions. The Plan automatically enrolled eligible employees who did not affirmatively elect not to participate in the Plan. Participant contributions were made on a tax deferred basis, pursuant to a deemed salary reduction agreement, in which contributions total 6% of compensation, unless otherwise affirmatively elected by the participant.

The Company made non-discretionary matching contributions in an amount equal to 25% of deferral contributions. The maximum matching contribution was 25% of the first 6% of participant's eligible compensation contributed to the Plan.

1. DESCRIPTION OF THE PLAN (continued)

Contributions (continued)

An employee could roll over part or all of an eligible rollover distribution from an eligible retirement plan into the Plan even if the age and service requirements were not yet satisfied; however, the employee would not become a participant in the Plan and become entitled to make employee deferral contributions until the Plan's eligibility and entry date requirements were met.

Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account was credited with the participant's contributions, Company matching contributions, and Plan earnings. Allocations were based on participant earnings and account balances, as defined. The benefit to which a participant was entitled to the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Participants were 100% vested in employer contributions at all times.

Payment of Benefits

Upon termination of service, a participant could elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or a direct rollover into another qualified plan.

Notes Receivable from Participants

Participants could borrow the lesser of \$50,000 or 50% of their vested account balance, subject to a \$1,000 minimum. Up to 50% of their vested account balance could be used as collateral for any loan. Participants could only have one loan outstanding at any given time. All loans had to be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a five-year period unless the loan is for the purchase of a principal residence, in which case the loan repayment period could not extend beyond 10 years from the date of the loans. If repayment was not made by payroll deductions, a loan had to be repaid to the Plan by payment to the Company. The level repayment requirement could be waived for a period of one year or less if the participant is on a leave of absence; however, the loan had to still be repaid in full on the maturity date. If a loan was not repaid within its stated period, it was treated as a taxable distribution to the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Effective September 30, 2016, the Company terminated the Plan subject to the provisions of ERISA. During the period from January 1, 2016 to September 30, 2016, the Plan changed its basis of accounting from accrual basis to the liquidation basis. This change had a material impact on the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors, trustees, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of September 30, 2016 and December 31, 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contributions

Employee and employer contributions are recorded in the period that the Company makes payroll deductions from the participant's earnings.

Expenses

Certain expenses of the Plan are allocated and charged to participant accounts. Administrative expenses include recordkeeping fees and expenses related to purchases, sales, or transfers of the Plan's investments. Fees for loan initiation and maintenance are paid for by the participant. Management and other fees for investment funds offered under the Plan may be subtracted from the investment fund's assets in determining the investment fund's unit or net asset value. Investment related expenses are included in the net appreciation of fair value of investments. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Payment of Benefits

Benefits payments to participants are recorded when paid.

Subsequent Events

The Company evaluated subsequent events and transactions through July 13, 2017, the date these financial statements were available for issue, and has determined that no material subsequent events have occurred would affect the information presented or require additional disclosure.

Effective September 30, 2016, the Plan Administrator terminated the Plan subject to the provisions of ERISA.

3. CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held as of September 30, 2016 and December 31, 2015, and net appreciation in fair value of investments, interest and dividends for the period January 1 to September 30, 2016, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company, the Trustee of the Plan.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the entity has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As of September 30, 2016, all Plan assets were transferred to MedBridge.

The following is a description of the valuation methodologies used for investments measured at fair value as of December 31, 2015.

Mutual funds: Valued at the current trading value of shares held by the Plan at year end.

Guaranteed wrap contract: Valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. The contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contract value approximates fair value.

4. FAIR VALUE MEASUREMENTS (continued)

The table below sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2015:

	As of December 31, 2015			Total

Total Investments at Fair Value	\$ 4,545,307	\$ -	\$ 306,887	\$ 4,852,194

Transfers between Levels

For the period ended September 30, 2016, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the period ended September 30, 2016:

4. FAIR VALUE MEASUREMENTS (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2015.

Instrument	2015	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Wrap Contract	\$ 306,887	Discounted Cash Flows	Market Value to Book Value Ratio Market Yield of Underlying Portfolio Crediting Rate	1.00% to 1.03% .071% to 2.13% 1.89% to 2.03%

5. INVESTMENT IN THE MANAGED INCOME PORTFOLIO CLASS I FUND (GUARANTEED WRAP CONTRACT)

The Plan invests in The Managed Income Portfolio Class I Fund (the Portfolio). Fidelity Management Trust Company is the service agent for the Portfolio. The Portfolio of the contract is maintained separately from the service agent's general assets. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer of the Portfolio is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

To achieve its investment objectives, the Portfolio enters into "wrap" contracts issued by third-parties. Because the "wrap" contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the insurance company annuity contracts. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract as of December 31, 2015, was \$306,887. The crediting rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed monthly for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA.

Notes to the Financial Statements September 30, 2016 and December 31, 2015

5. INVESTMENT IN THE MANAGED INCOME PORTFOLIO CLASS I FUND (GUARANTEED WRAP CONTRACT) (Continued)

The average annual yields earned by the “wrap” contracts for the period ended September 30, 2016 and for the year ended December 31, 2015, was as follows:

	<u>2016</u>	<u>2015</u>
Average Yields:		
Based on actual earnings	1.26%	1.42%
Based on interest rate credited to participants	1.87%	1.78%

Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. The “wrap” contract is presented on the face of the statement of net assets available for benefits at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company served as the trustee for the Plan, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in the net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than direct payment. During the period ended September 30, 2016, the Plan made a direct payment to Fidelity Management Trust Company in the amount of \$725, which was not covered by revenue sharing.

7. RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect participants’ account balances and the amount reported in the statements of net assets available for benefits.

8. TAX STATUS

The Plan was designed using a prototype plan document which received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2008, stating that the Plan document was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan Administrator believes the Plan was designed, and was operated in compliance with the applicable requirements of the Code, and therefore, believes the Plan was qualified and the related trust was tax-exempt.

Notes to the Financial Statements

September 30, 2016 and December 31, 2015

8. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.
