Report on the financial statements

We were engaged to audit the accompanying financial statements of the Appleton Group LLC Pension Plan for Bargaining Unit Employees, formerly known as EGS Electrical Group LLC Pension Plan for Bargaining Unit Employees (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with

respect to the certified information described in note G, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of and for the years ended September 30, 2016 and 2015, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in note G, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF PLAN

General

In order to simplify the administration of the collectively bargained retirement plans, in fiscal year 2001, Appleton Group LLC (the Company or the Sponsor) deemed it advisable to merge the following plans into the O-Z/Gedney, Terryville Pension Plan for Bargaining Unit Employees, which was renamed the Appleton Group LLC Pension Plan for Bargaining Unit Employees, formerly known as EGS Electrical Group LLC Pension Plan for Bargaining Unit Employees (the Plan):

- The Appleton Electric Company, South Milwaukee Foundry Division Pension Plan for Bargaining Unit Employees.
- Appleton Electric Pension Plan for Bargaining Unit Employees.
- O-Z/Gedney Pension Plan for Bargaining Unit Employees.
- Hevi-Duty/Nelson Pension Plan for Bargaining Unit Employees.
- Sola/Hevi-Duty Pension Plan for Bargaining Unit Employees.
- Birch Hills Foundries Pension Plan for Bargaining Unit Employees.
- G.S. Electrical Group Neer Pension Plan for Bargaining Unit Employees.

Effective October 1, 2000, the aforementioned plans were merged into the Plan. Notwithstanding the merger of the plans, separate plan documents continue to be maintained. The benefit provisions of each plan, as in effect before the merger, have been retained with respect to the class of eligible employees covered under the particular plan before the merger until the Company, at its discretion, determines otherwise.

The Plan is currently a non-contributory defined benefit plan covering all bargaining unit employees. The Company contributes such amounts as are necessary on an actuarially determined basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Participants should refer to the respective plan document for more complete information.

Effective October 1, 2015, the Appleton Group LLC adopted the EGS Electrical Group LLC Pension Plan for Bargaining Unit Employees.

Pension Benefits

Each plan merged into the Plan has different benefit payments, which are documented in the individual plan documents and generally provide for benefits at normal retirement age 65, based on either a formula considering compensation and years of service or a stated dollar amount times years of service.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
September 30, 2016 and 2015

Due to changes in the law, effective March 28, 2005, the cash-out provisions of the Plan have been revised to require a lump-sum cash-out over \$1,000 of a participant's vested benefit be transferred to an individual retirement account (IRA) or annuity if the participant has not reached the later of age 62 or his or her normal retirement age, and the participant fails to timely consent to payment or select an IRA or another eligible retirement plan into which to roll the distribution.

Vesting

A participant's vested portion of benefits is based on his or her years of credited service up to his or her termination of employment. Participants become 100% vested after five years of continuous service or at age 65, whichever occurs first.

Death and Disability Benefits

If an active employee dies at a specified age, which varies by location, a death benefit equal to the value of the employee's vested accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled, subject to defined age and/or years of service vesting requirements. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, the actuarial present value of accumulated benefits at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updated ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

September 30, 2016 and 2015

For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Plan administrator is currently evaluating the impact the updated guidance will have on the Plan's financial statement disclosures.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measurement for fully benefit-responsive investment contracts. Part II eliminates the disclosure requirements of individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to disaggregate investments by nature, characteristics and risks. In addition, investments in the fair value hierarchy table shall only be provided by general type. Part III allows a plan with a fiscal year-end that does not coincide with the end of a calendar month to measure its investments and investment related accounts using the month end closest to its fiscal year-end. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. Part I and III are not applicable to the plan; however, the Plan elected to early adopt Part II, which is reflected in the financial statements.

In February 2017, the FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. This Update changes reporting and disclosure requirements for plans with a master trusts and eliminates redundant disclosures for plans with 401(h) accounts. This Update is effective for the fiscal periods beginning after December 15, 2018. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Investments

Investments are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sale price on the last business day of the fiscal year. Purchases and sales of securities are reflected on the trade dates. Realized gains and losses on sales of securities are based on the average cost of the securities and are included in investment income. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments in the Emerson Electric Co. Master Trust (Master Trust) are stated at fair value as determined based on the fair value of the underlying investments of the Master Trust. See note D for discussion on fair value measurements.

The Plan's interest in the Master Trust is based on an allocation of the Plan's assets compared to total assets in the Master Trust. Purchases and sales of investments are recorded on a trade-date basis. Investment income is recorded as earned. Dividends are recorded on the ex-dividend date.

Investors may use various financial instruments, particularly forward foreign currency contracts, options and futures, commonly referred to as derivatives, to manage risk. No investments are engaged in market making

or other speculative activities. Established practices require that derivative financial instruments relate to specific asset, liability or equity transactions, or to currency exposure.

Expenses

Investment management and certain administrative expenses are paid by the Plan. Expenses include Pension Benefit Guaranty Corporation (PBGC) premiums and professional fees.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Reclassifications

Certain 2015 amounts in the statements of changes in net assets available for benefits have been reclassified to conform to the current year presentation.

NOTE C - INTEREST IN MASTER TRUST

During 2014, Emerson Electric Co. (Emerson) acquired the remaining non-controlling interest of the Company. In connection with the acquisition, the Plan's assets were transferred to the Master Trust effective September 30, 2014. The Master Trust was established for the investment of assets of the Plan and several other Emerson-sponsored retirement plans. Each plan in the Master Trust has an undivided interest in the Master Trust. At September 30, 2016 and 2015, the Plan's interest in the net assets of the Master Trust was approximately 0.25% and 0.23%, respectively. The net assets of the Master Trust at September 30, 2016 and 2015, are summarized as follows (in thousands):

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance regarding the disclosure of fair value measurements. The guidance establishes a formal hierarchy and framework for measuring fair value and provides guidance on the disclosure of fair value measurements and the reliability of valuation inputs. Under the guidance, measurement assumes the transaction

Appleton Group LLC**Pension Plan for Bargaining Unit Employees, formerly known as EGS Electrical Group LLC****Pension Plan for Bargaining Unit Employees****NOTES TO FINANCIAL STATEMENTS - CONTINUED****September 30, 2016 and 2015**

to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments are valued through broker/dealer quotations or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates and volatilities. Level 3 instruments are valued using inputs that are not observable in an active market, such as company-developed future cash flow estimates, and are considered the least reliable. The following tables are in thousands:

Total	<u>\$1,560,980</u>	<u>\$2,075,503</u>	<u>\$260,291</u>	<u>\$3,897,444</u>

The primary objective for the investment of Plan assets is to secure participant retirement benefits while earning a reasonable rate of return. Plan assets are invested consistent with the provisions of the prudence and diversification rules of ERISA and with a long-term investment horizon. The Company continuously monitors the value of assets by class and routinely rebalances to remain within target allocations. The strategy for equity assets is to minimize concentrations of risk by investing primarily in companies in a diversified mix of industries worldwide, while targeting neutrality in exposure to market capitalization levels, growth versus value profile, global versus regional markets, fund types and fund managers. The approach for bonds emphasizes investment-grade corporate and government debt with maturities matching a portion of the longer-duration pension liabilities. The bonds strategy also includes a high-yield element, which is generally shorter in duration. A small portion of the U.S. Plan assets is allocated to private equity partnerships and real assets fund investments for diversification, providing opportunities for above-market returns. Leveraging techniques are not used and the use of derivatives in any fund is limited to exchange-traded futures contracts and is inconsequential.

U.S. equities reflect companies domiciled in the United States, including multi-national companies. International equities are composed of companies domiciled in developed nations outside the United States. Emerging market equities are composed of companies domiciled in portions of Asia, Africa, Eastern Europe and Latin America.

Appleton Group LLC**Pension Plan for Bargaining Unit Employees, formerly known as EGS Electrical Group LLC****Pension Plan for Bargaining Unit Employees****NOTES TO FINANCIAL STATEMENTS - CONTINUED****September 30, 2016 and 2015**

Government bonds include investment-grade instruments issued by federal, state and local governments, primarily in the United States. Corporate bonds represent investment-grade debt of issuers primarily from the United States. High-yield bonds include non-investment-grade debt from a diverse group of developed market issuers.

Other assets include cash, interests in mixed asset funds investing in commodities, natural resources, agriculture and exchange-traded real estate funds, life insurance contracts (United States), and shares in certain general investment funds of financial institutions or insure arrangements (non-United States) that typically ensure no market losses or provide for small minimum return guarantee.

Valuations of Level 1 assets for all classes shown above are based on quoted closing market prices from the principal exchanges where the individual securities are traded. Cash is valued at cost, which approximates fair value.

Equity securities categorized as Level 2 assets are primarily non-exchange-traded commingled or collective funds in which the underlying securities have observable prices available from active markets. Valuation is based on the NAV of fund units held as derived from the fair value of the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used as a practical expedient to estimate fair value.

Debt securities categorized as Level 2 assets are generally valued based on independent broker/dealer bids or by comparison to other debt securities having similar durations, yields and credit ratings. Other Level 2 assets are valued based on an NAV of fund units held, which is derived from either broker/dealer quotations or market-observed pricing for the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used as a practical expedient to estimate fair value.

Limited partnerships are valued at NAV based on units/shares held at year-end, which are obtained from a third-party pricing source obtained by the fund manager. Insurance contracts are valued by the applicable insurance company. These are Level 3 investments. The NAV is used as a practical expedient to estimate fair value.

A reconciliation of the change in value for Level 3 assets, primarily limited partnerships, is as follows as of September 30 (in thousands):

	2016	2015
Beginning balance	\$260,961	\$188,124
Realized (gain)	(20,169)	(20,639)

NOTE E - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION (PBGC) MATTERS

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE F - FUNDING POLICY

All contributions to the Plan are made by the Company. The Company makes contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to Plan participants as determined by the Plan's actuary. The Plan is in compliance with applicable minimum funding requirements of ERISA. It is the present intention of the Company to make such future contributions, which, in the aggregate over a period of time, may be necessary in order for Plan assets to provide all benefits specified in the Plan.

NOTE G - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company, the trustee, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Emerson Electric Co. Master Trust, as shown in the statements of net assets available for benefits as of September 30, 2016 and 2015.

- Master Trust net assets and net investment income (loss) as of and for the years ended September 30, 2016 and 2015, as shown in note C.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements.

NOTE H - RELATED-PARTY TRANSACTIONS

The Plan's investments are held in the Master Trust at the trustee. The trustee charges fees for the management of the account. Fees charged to the Master Trust are ordinary and customary. These fees qualify as permitted party-in-interest transactions under ERISA.

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

NOTE I - TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service (IRS) dated May 22, 2017, indicating that the Plan is designed in accordance with the qualification requirements of Section 401(a) of the IRC. Accordingly, the Plan qualifies for exemption from federal income taxation.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of September 30, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE J - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died and (3) present employees or their beneficiaries. Benefits payable

Pension Plan for Bargaining Unit Employees
NOTES TO FINANCIAL STATEMENTS - CONTINUED
September 30, 2016 and 2015

under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary as of the beginning of the Plan year and is calculated using actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of September 30, 2015 and 2014, were as follows:

Discount rate	4.38% in 2015; 4.25% in 2014
Mortality	RP-2014 Mortality Table, projected back to 2007, using Scale MP-2014
Retirement age	Varies by age between 55 and 69, with 100% retired by age 70

The foregoing actuarial assumptions used in calculating the accumulated Plan benefits are based on the presumption that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits under the Plan as of September 30, 2016, as calculated the Plan's actuary, is as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Participants currently receiving benefits	\$4,224,783
Other vested benefits	<u>5,569,174</u>
Total vested benefits	9,793,957
Non-vested benefits	<u>45,878</u>
Total actuarial present value of accumulated Plan benefits	<u>\$9,839,835</u>

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of October 1, 2015

The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

For illustration purposes only, below is a hypothetical determination of the average retirement age based on retirement as the only decrement.

Age	Retirement Rate	Assumed Number Eligible	Assumed Number Retiring	Age * Number Retiring

65-69	300	1,000
70	1,000	1,000

¹ Participants in Appendix 34 (Branson Ultrasonics) of the Emerson Retirement Plan that have attained age 44, 10 years of service, and 55 points are assumed to retire at a rate of 50 for ages 45 to 54.

² Alternate rates apply to participants in the Fisher Bargaining plan that have attained age 55 with 85 points.

Benefit commencement date:

- ▶ Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- ▶ Deferred vested benefit Age 65 for all plans except for those eligible for unreduced retirement in appendices 34, 81 and 82 of the Emerson Retirement Plan. Those eligible are assumed to retire at age 62.
- ▶ Disability benefit Upon disablement.
- ▶ Retirement benefit Upon termination of employment.

Form of payment

Normal form of payment as described in plan provisions. For ENP – ES plan, employees are assumed to take a lump sum distribution.

Percent married

80%

Spouse age	Wife three years younger than husband.	
Covered pay	In general, reported 2014 W-2 pay, this pay is projected by the Salary Increase Rate assumption to approximate pay for the October 1, 2015 plan year.	
Plan related expenses:	Emerson Retirement Plan	\$4,677,000
	Bristol Union	46,000
	Copeland Hourly	156,000
	EGS Bargaining	88,000
	ENP – ES	55,000
	Fisher Bargaining	127,000
	Kato Local #1999	130,000
	Power & Water Solutions	119,000
	Urick Hourly	0
Timing of benefit payments	Annuity payments are payable mid-year.	

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Interest rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan (ENP – ES) credits interest to cash balance accounts using the 30-year Treasury rate for the preceding November. Our long term estimate of the 30-year Treasury rate is 4.75% based on a combination of current conditions and future economic expectations.
Plan-related Expenses	Assumed plan related expenses are set based on a combination of recent plan experiences and expectations for the current year.
Rates of increase in:	
► Compensation	Assumed compensation increases are based on a combination of assumed future (i) inflation, (ii) merit increases and (iii) promotional increases. As part of a review of assumptions in 2012, Towers Watson reviewed Emerson's historical compensation increase experience, considered future expectations of inflation, as well as merit and promotional processes, and changing demographics of the U.S. plans.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Assumed termination rates differ by age and service because of observed differences in termination rates by service.</p>
Retirement	<p>Retirement rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.</p> <p>Retirement rates differ by eligibility for enhanced early retirement benefits because of the observed effects the availability of these benefits has on retirement rates.</p>
Commencement Dates	Commencement dates were based on an annual high-level review of experience, including considerations of whether any conditions have changed that would be expected to produce different results in the future.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law," as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430 (including the impact of the Highway and Transportation Funding Act of 2014).

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

The assumed plan-related expenses added to the target normal cost were updated to reflect the amounts expected to be paid from the trust.

Change in methods since prior valuation

There have been no significant changes in methods from the prior valuation.
