AUTOMATIC FIRE PROTECTION, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

Note 1 - Description of Plan

The following description of the Automatic Fire Protection, Inc. (Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to all employees of the Company who have 180 days of service and have attained age eighteen or older. Participation of the Plan is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's trustee and representative determine the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

Contributions

Each year, participants may contribute to the Plan up to 100% of annual eligible compensation, as defined by the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The Company matching contributions are made at 100% of the amount deferred by the participant up to 4% of the participant's eligible compensation. Additionally, the Company may contribute a discretionary profit sharing contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contribution and, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in contributions plus actual earnings thereon, and are also immediately vested in the Company's contribution portion of their accounts.

Note 1 - Description of Plan - Continued

Payment of Benefits

The full value of a participant's account becomes available upon retirement, permanent disability or death. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account. If the total vested interest is $5,000 or less when employment is terminated, and the participant does not consent to a distribution of the vested balance, then the vested benefit is automatically rolled over to an IRA selected by the plan administrator. If the total vested interest is greater than $5,000, no distribution is made without the consent of the participant. Distributions are paid in lump sums or partial withdrawals.

Participant Loans

Participant loans are not permitted under the Plan.

Plan Administration

Plan assets were held by Massachusetts Mutual Life Insurance Company for the years beginning January 1, 2013, and by The Hartford Retirement Solutions for the year ended December 31, 2012. Effective January 1, 2013, Massachusetts Mutual Life Insurance Company ("MassMutual") acquired The Hartford's Retirement Plans Group ("RPG") business. MassMutual has no affiliation, and the RPG business no longer has any affiliation, with The Hartford Financial Services Group, Inc. or any of its subsidiaries. MassMutual was appointed by Hartford Life Insurance Company to provide all administrative services necessary to support the insurance contracts issued by Hartford Life Insurance Company in connection with the RPG business. Certain Plan administrative duties such as Form 5500 preparation, compliance testing, preparation of participant statements, and enrollment and transaction processing are performed by a third party administrator, July Business Services.

Certain other administrative functions are performed by employees of the Company. However, such employees receive no compensation from the Plan.

Forfeitures

At December 31, 2016 and 2015, there were no forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for that portion of the net assets available for benefits of a defined contribution plan attributable to fully

Basis of Accounting - Continued

benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Operating Expenses

Expenses of the Plan, to the extent not paid by the Company, may be paid from the assets of the Plan. For the years ending December 31, 2016 and 2015, administrative expenses of $3,145 and $3,520, respectively, were paid by the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. At December 31, 2016 and 2015, account balances of participants who terminated during the year were $37,988 and $40,559, respectively.

Date of Management's Review

Subsequent events were evaluated through July 14, 2017, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The Plan invests in variable investment options, through Pooled Separate Accounts incorporated in a group annuity contract. These unregistered Pooled Separate Accounts are subdivided into investments divisions called "Sub-Accounts". Each Sub-Account invests in shares of an underlying mutual fund. The shares of the underlying mutual funds are based on the observable net asset value of the shares held by the Plan at year-end.

Level 3 Fair Value Measurements

The Plan invests in a group annuity contract through an insurance company, which includes a fixed income/guaranteed investment contract offering called The Fixed Income Account. This account is part of the insurance company's general account and is subject to the claims of the insurance company's general creditors. Interest is credited on contributions made to The Fixed Income Account at a rate declared for a period of time, with a guaranteed minimum rate of interest. This contract is not actively traded and significant other observable inputs are not available. Thus, the fair value of the contract is measured using an income approach based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Note 3 - Fair Value Measurements – Continued

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Plan's trustee/custodian. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016 and 2015:

Note 5 - Investment Contract with Insurance Company

As of December 31, 2016 and 2015, the Plan was entered into a benefit-responsive investment contract with The Hartford Life Insurance Company ("Hartford"). Effective January 1, 2013 Massachusetts Mutual Life Insurance Company ("MassMutual") acquired the Retirement Plans Group business of The Hartford Financial Services Group, Inc. MassMutual was appointed by Hartford Life Insurance Company to provide all administrative services necessary to support contracts issued by Hartford in connection with the Retirement Plans Group business. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 and 2015 was $579,990 and $475,324, respectively. The crediting interest rate is determined by MassMutual and may be changed periodically but may not be less than 3%.

Note 5 - Investment Contract with Insurance Company - Continued

Certain events limit the Plan's ability to transact at contract value with MassMutual. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition in competing investment options, (c) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

	2016	2015
Average yields:		
Based on actual earnings	3.00%	3.00%
Based on interest rate credited to participants	3.00%	3.00%

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 7 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC and are exempt from the tax under Section 401(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

Note 8 - Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to

Note 8 - Termination of Plan - Continued

discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 9 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by MassMutual, who is the custodian of the Plan. Various other Plan administration functions are performed by July Business Services, Inc., the third party administrator. Because of this, the transactions with these parties qualify as party-in-interest transactions. Fees paid by the Plan from Plan assets for services these parties provided amounted to $3,145 and $3,520, respectively, for the years ended December 31, 2016 and 2015.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
