SPARE TIME, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016

1. DESCRIPTION OF THE PLAN

The following description of the Spare Time, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering the employees of Spare Time, Inc. (the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration – The Sponsor is the administrator of the Plan and, as such, carries out the duties imposed under ERISA. The Sponsor has delegated certain responsibilities for the operation and administration of the Plan. Administrative and recordkeeping services are provided by Principal Life Insurance Company.

Eligibility – An employee who has completed one year (1,000 hours by their anniversary date) of service, is not part of a union or a non-resident alien earning U.S. income, and is age twenty-one or older is eligible to begin participating in the Plan in the year in which these requirements are satisfied.

Contributions – Participants may contribute up to 100% of eligible compensation, subject to IRS limitations, through salary deferrals. The Plan does not allow for matching contributions. The Sponsor may make an annual profit-sharing contribution based on each employee's salary as a percentage of the total. During 2016 there were no annual profit sharing contributions. Eligible compensation is defined as gross compensation before deferral of employee contributions, plus any taxable life insurance premiums. Contributions are subject to certain limitations.

Investment options – Upon enrollment in the Plan, a participant may direct contributions in any of twenty-five investment alternatives offered through the Principal Life Insurance Company.

Participant accounts – Individual accounts are maintained for each Plan participant to reflect the participant's contributions and profit sharing contributions. Employee and profit sharing contributions are credited to participants' accounts following each pay period. Income and loss is allocated to the participants' accounts based on the ratio of the account balance of the individual participant to the aggregate of all account balances of all participants in the fund within the Plan. The vested balance in a participant's account is the benefit to which the participant would be entitled upon termination or retirement.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting of profit sharing contributions is based on years of service in which the participant has completed at least 1,000 hours or service. The following table is the vesting schedule based on years of service:

Years of Vesting Service	Percentage of Vesting
Less than 3	0%
3 or more	100%

Payment of benefits – Upon termination of employment, a participant may elect to receive their distribution by a lump-sum payment, or by installment payments. On a lump-sum payment, the participant may elect to roll the balance to an individual retirement account or to another qualified plan.

Forfeitures – Upon termination of employment, non-vested portions of participant accounts are forfeited and used to reduce future employer contributions. At December 31, 2016 and 2015 there were no forfeitures.

Administration expenses – Expenses associated with administering the Plan are paid from the Plan net assets and therefore, are reflected in the Plan's financial statements.

Participant loans – Under the terms of the Plan, participants may borrow from their accounts up to $50,000 or 50% of their vested account balance, whichever is less. Loans are not allowed for less than $1,000. The loans are secured by the balance in the participants' accounts and bear interest at a determined rate by taking the average rate used for similar personal loan transactions used by several commercial banks in the general geographic area of the Plan. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition – The investments are stated at fair value as certified by the Plan trustee. Purchases and sales of securities are recorded on a trade-date basis. Interest income and gains are recorded on the accrual basis. Dividends and capital gain distributions are recorded on ex-dividend dates.

Notes receivable from participants are valued at the outstanding note balance, plus accrued unpaid interest, which approximates fair market value. Interest on notes receivable from participants is recognized in the period it is assessed.

Payment of benefits – Benefits are recorded when paid.

Income taxes – The Plan is based on the Prototype Non-standardized Profit Sharing Plan with CODA and trust plan document of Principal Life Insurance Co. which received a determination letter from the IRS dated March 31, 2008 stating that the prototype plan was designed in accordance with the provisions of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Related-party transactions – Certain Plan investments are in pooled separate accounts managed by the Trustee's affiliate. Consequently, these transactions qualify as party-in-interest transactions (see supplemental schedule of assets held at end of year).

Subsequent events have been evaluated through July 11, 2017, the date the financial statements were available to be issued. Management concluded that no material subsequent events have occurred since December 31, 2016, that require recognition or disclosure in the financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEES (UNAUDITED)

The Sponsor has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly as permitted under such election, the following information was certified by the Principal Life Insurance Company (the Trustee) and was not subject to any auditing procedures.

Interest and dividends as reported by the Trustee for the year ended December 31, 2016, was $7,948. Net unrealized and realized appreciation as reported by the Trustee for the year ended December 31, 2016, was $559,690.

Total investments as reported by the Trustee were $6,683,870 and $6,464,646 as of December 31, 2016 and 2015, respectively.

4. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within a fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs, and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: Valued based on quoted market prices value of the accounts underlying mutual funds.

Mutual funds: Valued at the closing price reported on the active market on which the individual funds are traded.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

Investment type	Level 1	Level 2	Level 3	Total
Pooled separate accounts		$ 6,314,064		$ 6,314,064
