Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Five Star Custom Foods, Ltd. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was a defined contribution plan whereby eligible employees of Five Star Custom Foods, Ltd. (the Company) were permitted to make pretax contributions that were tax-deferred under Section 401(k) of the Internal Revenue Code (the Code). The Plan was subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company appointed Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) as the custodians of the Plan, and authorized Principal to invest and manage the assets of the Plan and to provide administrative services.

Eligibility: Employees became eligible for participation at the age of 21 and upon completing one year of service, as defined by the Plan. Employees were eligible to enter the Plan on the first day of each month immediately after meeting the eligibility requirements described above. Employees excluded from the Plan included employees covered by a collective bargaining agreement, nonresident aliens or leased employees.

Contributions: Under the Plan, employees were permitted to contribute up to 100% of their pretax compensation to the Plan, subject to certain maximum limitations imposed by the IRC. Employees who were eligible to make elective deferrals under the Plan and who had attained the age of fifty before the close of the plan year were also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC. Employees contributed each period through authorized payroll deductions.

The Plan required a safe harbor matching contribution equal to 100% of participant's contributions that did not exceed 3% of the compensation plus 50% of the salary deferrals between 3% and 5% of the participant contribution. This safe harbor matching contribution was 100% vested.

The Company may have elected to make additional discretionary matching contributions and discretionary profit sharing contributions. These contributions were determined annually by the Employer. There were no additional discretionary contributions for the period of January 1, 2016 to September 30, 2016.

Participants may have also contributed amounts representing distributions from other qualified benefit plans.

Vesting: Participant contributions plus actual earnings were immediately fully vested and nonforfeitable. The participant was 100% vested in accounts attributable to rollover contributions and safe harbor matching contributions. Participants became 20% vested for discretionary profit sharing contributions and discretionary matching contributions and earnings thereon after two years of service and vest an additional 20% for each year of service thereafter until they were fully vested after completion of six years of service. In addition, a participant was 100% vested, regardless of years of service, upon disability, death or attaining normal retirement age.

Participant accounts: Each participant's account was credited with the participant's contribution and allocation of (a) the Company's safe harbor matching contributions and discretionary contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Investment options: Participants were allowed to invest in a variety of investment choices as were more fully described in the Plan's literature. Participants could change their investment options any time throughout the year via internet or direct phone access to Principal.

Earnings derived from investment funds were reinvested in the fund to which they relate. Participants may have elected to transfer all or any portion of the value of their individual accounts among investment funds.

Forfeitures: Forfeitures represented the portion of nonvested employer discretionary contributions remaining in the Plan for terminated employees. The balance of forfeited employer contributions was used first to reduce administrative expenses and then to reduce employer contributions. As of September 30, 2016 and December 31, 2015, there were no unallocated forfeitures in Plan assets. No forfeitures were used to pay administrative expenses or reduce employer contributions for the period from January 1, 2016 to September 30, 2016.

Benefits paid to participants: Upon termination of service due to death, disability or retirement, a participant or a designated beneficiary may have received their vested account balance in one lump-sum payment or, in certain cases, the participant may have deferred withdrawals. For termination of service due to other reasons, a participant may have received their vested account balance in one lump sum payment. If a participant's vested balance was \$5,000 or less, the participant received a single distribution of their entire vested account balance. In-service distributions were permitted for participants that attained age 59 ½, or in situations of hardship or disability.

Notes receivable from participants: Participants were allowed to borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans were required to be repaid within five years unless for the purchase of a primary residence, in which case a longer repayment term may have been permitted. Loans were secured by the vested balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest were collected through payroll deductions. A participant was allowed only one note outstanding at a time. On September 30, 2016, approximately \$272,000 of notes receivable from participants were transferred to the Cargill Partnership Plan.

Note 2. Plan Merger and Transfer of Assets From Plan

On July 1, 2016, the Five Star Custom Foods, Ltd. was acquired by Cargill, Incorporated. Effective July 1, 2016, the Five Star Plan was frozen to any new contributions and participants and participants became eligible to participate in the Cargill Partnership Plan. On August 15, 2016, the Board of Directors of the Plan Sponsor voted to merge the Plan into the Cargill Partnership Plan effective September 30, 2016. As a result the net assets of approximately \$4,878,000 were transferred to the control of the Cargill Partnership Plan at September 30, 2016. The merger does not impact participant benefits as the benefit provisions were incorporated in the Cargill Partnership Plan.

Note 3. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 3. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments were reported at fair value (except for fully benefit-responsive investment contracts, which were reported at contract value). Fair value is the price that would have been received to sell an asset or would have been paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions from mutual funds that were reinvested are included in dividends and interest on the statement of changes in net assets available for benefits.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses had been recorded as of December 31, 2015. If a participant ceased to make loan repayments and the Plan Administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Benefits paid to participants: Benefits paid to participants were recorded when paid.

Risks and uncertainties: The Plan provided for various investment options in any combination of collective investment trusts, investment contract, mutual funds and pooled separate accounts offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 13, 2017, the date on which the financial statements were available to be issued.

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 4. Information Certified or Provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company

The following is a summary of the Plan's asset information as of September 30, 2016 and December 31, 2015, and for the period from January 1, 2016 to September 30, 2016, included throughout the Plan's financial statements that were prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements related to the assets listed in the table below:

	2016	2015
Investments, at fair value:		
Collective investment trusts	\$ -	\$ 3,398,280
Mutual funds	-	313,333
Pooled separate accounts	-	71,283
	<u>\$ -</u>	<u>\$ 3,782,896</u>
Investments, at contract value:		
Investment contract	\$ -	\$ 489,403

The custodians also certified to the completeness and accuracy of \$261,925 of net appreciation in fair value of investments, \$1,922 of dividends and interest income and \$6,538 of interest income on notes receivable from participants for the period from January 1, 2016 to September 30, 2016.

Note 5. Fair Value Measurements

The Fair Value Measurement and Disclosures Topic of the FASB Accounting Standards Codification, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

Five Star Custom Foods, Ltd. 401(k) Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated from by observable market data by correlation or other means

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2016 and December 31, 2015.

- Collective investment trusts:** Valued based on the net asset value (NAV) of shares held by the Plan as a practical expedient based on the market value of its underlying investments as determined by the custodians.
- Mutual funds:** Valued based upon quoted market prices in the active market in which they are traded.
- Pooled separate accounts:** Valued based on the NAV of shares held by the Plan as a practical expedient based on the market value of its underlying investments as determined by the custodians.

The methods described above may have produced a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value is estimated using NAV per share as of December 31, 2015.

Note 5. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the period from January 1, 2016 to September 30, 2016, there were no transfers between levels.

The following table sets forth additional disclosures of the Plan's investments, whose fair value is estimated using NAV per share as of December 31, 2015:
