REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator, Ashland Global Holdings, Inc.
Pension Plan for Hourly Employees of Ashland Chemical Company

We were engaged to audit the accompanying financial statements of the Pension Plan for Hourly Employees of Ashland Chemical Company (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended September 30, 2016 and 2015, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

(\$ in thousands, except participant data)

1. Description of the Plan

The following description of the Pension Plan for Hourly Employees of Ashland Chemical Company (the Plan) provides only general information. The information in this Note is not a Summary Plan Description or Plan document, as these terms are defined under the Employee Retirement Income Security Act of 1974 (ERISA). Instead, this information merely summarizes selected aspects of the Plan. Read the Summary Plan Description or the Plan document for more information about the Plan. The Plan document controls the terms of the Plan and supersedes any inconsistencies contained herein or in the Summary Plan Description. Ashland Global Holdings Inc. (Ashland or the Company), as Plan Administrator, retains all rights to determine, interpret and apply the Plan's terms to factual matters and matters of law. This retained discretionary authority is more particularly described in the Summary Plan Description and in the Plan document.

General

The Plan is a non-contributory defined benefit plan that covers eligible hourly wage employees at certain plants of Ashland Specialty Chemical Company (a division of Ashland). The Plan is subject to the current provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company and maintained by The Bank of New York Mellon (the Trustee). Benefits under the Plan are based on an employee's years of service. The Plan provides for 100 percent vesting of such benefits after an employee completes five years of service or satisfies the early retirement requirements.

On September 22, 2015, Ashland announced that the Board of Directors approved proceeding with a plan to separate Ashland into two independent, publicly traded companies comprising of the Valvoline business and the specialty chemicals business (the Separation). Following a series of restructuring steps, Valvoline was incorporated in May 2016, and prior to the completion of the Company's initial public offering on September 28, 2016, substantially all of the historical Valvoline business reported by Ashland, as well as certain other legacy Ashland assets and liabilities, were transferred to Valvoline, including the Ashland Hercules Pension Plan liabilities and assets which transferred on September 1, 2016. As a result of this transfer, certain union participants' asset and liability balances of the Ashland Hercules Pension Plan were transferred to the Plan. This transfer of \$28,057 is included in the Transfers from Ashland Hercules Pension Plan caption within the Statements of Change in Net Assets Available for Benefits.

Due to the Separation and the resulting reorganization of Ashland, Ashland Global Holdings Inc. replaced Ashland Inc. as the publicly held corporation. As such, the Plan Administrator changed from Ashland Inc. to Ashland Global Holdings Inc.

During 2015, Ashland informed approximately 20,000 former employees, who were included in the approximately 53,000 participants within the primary pension plans within the Trust, that Ashland was offering these participants the option of receiving a lump sum payment on their vested retirement benefit or a reduced annuity now, in lieu of receiving monthly annuity payments deferred until retirement eligibility or when the participant may choose to initiate payment. During August 2015, approximately 12,000 participants elected to participate in the settlement program which resulted in approximately \$475 million in settlement payments made from the affected pension plans within the Trust during September 2015. The payments relating to the Plan are included in the Benefits Paid to Participants caption within the Statement of Change in Net Assets Available for Benefits. Settlement payments were funded with pension plan assets, which included a \$500 million contribution made to the Trust during June 2015. The contribution relating to the Plan is included in the Employer Contributions caption with the Statement of Change in Net Assets Available for Benefits.

1. Description of Plan (continued)

Fees

Fees for administration, investment advice, actuarial and other third party services are paid by the Ashland Inc. Pension Trust (the Trust). The Trust is not charged for administrative services performed on its behalf by Ashland.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Master Trust

As of September 30, 2016 and 2015, the Plan's investments were held in the Master Trust, which resulted in the commingling of funds and thus, the Master Trust Presentation. The Trustee allocates the earnings from Trust investments to participating plans based on each plan's participation in separate investment pools within the Trust. Accordingly, the Plan's investment gain or loss, upon commingling, represents its allocable share of the Trust's investment income and appreciation (depreciation) in fair value of investments.

Prior to September 1, 2016, the investments of the Plan were pooled with the investments of the Ashland Hercules Pension Plan and the Retirement Plan for Hourly Paid Employees of International Specialty Products Inc. in a master trust pursuant to an agreement between The Bank of New York Mellon, the Trustee, and Ashland. On September 1, 2016, in connection with the transfer of the Ashland Hercules Pension Plan to Valvoline Inc. as previously discussed in Note 1, a majority of the pension plan assets were transferred from the Ashland Inc. Pension Trust to the Valvoline LLC Defined Benefit Trust. The remaining investments, comprised of solely cash and cash equivalents as of September 30, 2016, were pooled with the investments of the Retirement Plan for Hourly Paid Employees of International Specialty Products Inc.

Investment Valuation

The Plan's investment in the Trust is reported at fair value. The fair value of the Plan's interest in the Trust is based on the beginning of the year value of its interest in the Trust plus actual contributions, transfers and allocated investment income less actual distributions and allocated administrative expenses (see Note 3). Investments in the Trust include cash and cash equivalents, government securities and obligations, debt instruments, corporate stocks, private equity and hedge funds. See Note 4 for a discussion of fair value measurements within the Trust.

Purchases and sales of securities are reflected on a trade date basis. Gains or losses on sales of securities are based on average cost. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the Plan's interest in the Ashland Inc. Pension Trust investment income.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions for services rendered by the employees to the valuation date.

Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of deceased employees, and active employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of these accumulated plan benefits, as determined by the Plan's actuary, is the result from applying actuarial assumptions to reflect the time value of money (through discounts

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

Date of Management's Review

The Plan evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through July 14, 2017, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In February 2017, the FASB issued accounting Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965)*, that requires an employee benefit plan to report an interest in a master trust and the change in the value of that interest as separate line items on the statement of net assets available for benefits and the statement of changes in net assets available for benefits, respectively. Additionally, an employee benefit plan is required to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. This guidance must be applied retrospectively and will become effective for the Plan on October 1, 2019. Early adoption is permitted. Plan management is currently evaluating the impact of adopting this guidance on the financial statements.

During 2016, the Plan adopted ASU 2015-12, *Plan Accounting, Part II* which simplified accounting for certain investments and eliminated previously required disclosure requirements. Part II eliminated certain disclosure requirements for the Plan. Specifically, investments are now disaggregated by general type (mutual funds, common stocks, bonds) whereas previously they were disaggregated in much greater detail such as by investment objective or industry. In addition, the disclosure of individual investments with a value equal to or greater than 5% of net assets available for benefits has been removed. And finally, the Plan presents the net appreciation (depreciation) in the aggregate whereas previously it was detailed by the general type of the investment. The Notes to the Financial Statements have been retroactively restated as required by the standard.

In May 2015, the FASB issued accounting ASU 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments

Ashland Chemical Company

2. Summary of Significant Accounting Policies (continued)

in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. This guidance also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The Plan should apply the amendments retrospectively to all periods presented. Earlier application is permitted. Plan management is currently evaluating the impact of adopting this guidance on the financial statements.

3. Investments

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Bank of New York Mellon, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of September 30, 2016 and 2015, and the related investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended September 30, 2016 and 2015, respectively.

At September 30, 2016 and 2015, the Plan's interest in the net assets of the Trust was approximately 63.0% and 0.8%, respectively. Due to the transfer of the Ashland Hercules Pension Plan assets and liabilities previously discussed in Notes 1 and 2, the only remaining investments held by the Trust at September 30, 2016 were certain cash and cash equivalents. The following table presents the assets including investments and liabilities of the Trust at September 30:

3. Investments (continued)

The Trust, through the activities of certain of its investment managers, uses derivative financial instruments in connection with its normal trading activities in an effort to improve investment return or control risk. Derivative financial instruments generally are viewed as a more cost effective and efficient means of providing liquidity than owning the underlying security. They can also provide unique risk/return structures for the Trust. The derivative financial instruments used in the Trust include futures contracts, options, and interest rate and credit default swaps which expose the Trust to favorable and unfavorable effects of market risk. The Trust does not take on any leverage at the Trust level, and futures positions are covered by short- term marketable securities.

Futures contracts provide for the delivery or purchase of financial instruments on a specified future date at a specified price or yield. The Trust purchases futures contracts principally for exposure to fixed income securities, which generally are settled in the market prior to delivery of the underlying securities. Additionally, the Trust issues options which obligate the Trust to either buy or sell the underlying fixed income instruments at a specific price if the options are exercised. The Trust receives a premium upon issuance of the options.

The Trust is exposed to risks from unfavorable changes in interest rates or market values of the securities underlying the futures and option contracts. Changes in interest rates on outstanding futures contracts are settled on a daily basis thereby minimizing the Trust's exposure to credit loss. The Trust is also exposed to credit risk in the event of nonperformance by the counterparties to the futures and options contracts. The Trust does not anticipate nonperformance by the counterparties and generally does not require counterparty collateral.

The fair value of these derivative contracts and related appreciation (depreciation), as noted below, are included in Government securities and obligations or Debt instruments in the tables above. Due to the transfer of the Ashland Hercules Pension Plan assets and liabilities previously discussed in Notes 1 and 2, there were no derivative assets or liabilities held by the Trust at September 30, 2016. The following table presents a summary of the open derivative contracts as of September 30, 2015:

	2015	
	Contracts	Fair Value
Derivative assets		
Government securities and obligations:		
U.S. Treasury futures	7	\$ 1,076
Debt instruments:		
Interest rate swaps	45	2,204
Credit default swaps	86	2,572
Derivative liabilities

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). An instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the instrument's fair value measurement. The three levels within the fair value hierarchy are described as follows:

Level 1 - Observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs, other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3 - Unobservable inputs for the asset or liability for which there is little, if any, market activity at the measurement date.

Following is a description of the valuation methodologies used for investments measured at fair value:

Cash and cash equivalents - The carrying value of cash approximates fair value and is classified within Level 1 of the fair value hierarchy.

Government securities and obligations, debt instruments and corporate stocks - U.S. Treasury, U.S. Government securities, certain debt instruments, and corporate stocks are valued based on quoted market prices that are readily and regularly available and are classified within Level 1 of the fair value hierarchy. Others are valued based on quoted prices in markets that are not active or for which significant inputs are observable either directly or indirectly and are classified within Level 2 of the fair value hierarchy. Certain investments have values that are determined using the net asset value per share or equivalent and are classified within Level 3 of the fair value hierarchy.

Private equity and hedge funds - The fair value of the investments in this class have been estimated using the net asset value per share or its equivalent of the investments.

Other investments - For those investments which are not traded on an open exchange, values are based on quoted prices in markets that are not active or for which significant inputs are observable either directly or indirectly and are classified within Level 2 of the fair value hierarchy. Certain investments have values that are determined using the discounted cash flows method and are classified within Level 3 of the fair value hierarchy.

As of September 30, 2016 and 2015, the Plan held no investments outside its interest in the Trust. The Plan's policy is to recognize transfers between levels as of the end of the reporting period. During the years ended September 30, 2016 and 2015, there were no transfers of investments between Levels.

In developing an investment strategy for the Plan, Ashland has considered the following factors: the nature of the Plan's liabilities, the allocation of liabilities between active, deferred, and retired members, the funded status of the Plan, the applicable investment horizon, the respective size of the Plan, and historical and expected capital market returns. The Plan's assets are managed by outside investment managers, which are monitored against investment return benchmarks and Ashland's established investment strategy. Investment managers are selected based on an analysis of, among other things, their investment process, historical investment results, frequency of management turnover, cost structure and assets under management. Assets are periodically reallocated between investment managers to maintain an appropriate asset mix, diversification of investments and to optimize returns.

Investment decisions and review of investment performance for the Plan are made by the Investment and Administrative Oversight Committee (IAOC), which includes members of Ashland senior management. The IAOC meets on a quarterly basis.

5. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is shown below as of the beginning of each plan year.

	October 1	
	2015	2014
Vested benefits:		
Participants currently receiving benefits	\$ 14,443	\$ 13,729
Other participants	16,560	18,033
	<u>31,003</u>	<u>31,762</u>
Nonvested benefits	<u>302</u>	<u>745</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 31,305</u>	<u>\$ 32,507</u>

The changes in the actuarial present value of accumulated plan benefits from the previous valuation date were as follows:

Actuarial present value of accumulated plan benefits at October 1, 2014	\$ 32,507
Increase (decrease) during the plan year attributable to:	
Benefits accumulated and (gains) losses	267
Interest due to decrease in discount period	1,324
Benefits paid to participants	(3,735)
Change in actuarial assumptions	868
Change in plan provisions	74
Actuarial present value of accumulated plan benefits at October 1, 2015	<u>\$ 31,305</u>

6. Funding Policy and Plan Termination

The Plan meets the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements. Ashland seeks a long run funding level of 100% on a projected benefit obligation basis, but recognizes that year-to-year funding levels may vary widely.

The Company has the right to discontinue its contributions and to terminate the Plan at any time. In the event of termination, the net assets of the Plan shall be first used to pay expenses of administration, and then to provide benefits to participants in accordance with Section 4044 of ERISA, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a United States government agency) up to the applicable limitations (discussed below).

Pension Plan for Hourly Employees of
Ashland Chemical Company
Notes to Financial Statements (continued)

6. Funding Policy and Plan Termination (continued)

3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Any residual assets remaining after all liabilities are satisfied would be returned to the Company.

If the Plan's net assets are inadequate, the PBGC generally guarantees the payment of vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations during 2016 and 2015 that ceiling was \$5,011 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether a particular participant's accumulated plan benefits will be paid should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

7. Tax Status of Plan

On October 5, 2011, the United States Treasury Department advised the Company that the Plan as amended through January 27, 2011, is tax exempt under 401(a) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC. Accordingly, no provision for Federal income taxes is required.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the plan years prior to 2013.

8. Risks and Uncertainties

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on

8. Risks and Uncertainties (continued)

certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Commitments

As of September 30, 2015, the Trust had subscription agreements to invest in various private equity funds of \$35,000. Capital calls as of September 30, 2015 totaled \$29,050. As of September 30, 2016, there were no subscription agreements or capital calls due to the transfer of the Ashland Hercules Pension Plan assets and liabilities as discussed in Notes 1 and 2. There were no capital calls during the years ended September 30, 2016 and 2015.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods*****Asset Methods***

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions***Benefits Included or Excluded***

Unless noted below, all benefits provided by the plan, as restated as of January 1, 2011 and amended through Amendment #3, are included in this valuation.

- **Most recent plan amendments included:** Amendment No.3, signed October 14, 2013.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 65. This valuation assumes that actuarial increases for current participants over age 65 are immaterial and are not valued.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Sections 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to there being no key employees in the plan; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
