NOTE 1 - DESCRIPTION OF PLAN

The following description of the Keymark - Kasson & Keller, Inc. Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees. It is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has been amended to comply with the provision of ERISA.

Contributions

Participants may contribute up to 50 percent of their annual wages up to the annual dollar limit established by the federal government. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investments of their contributions into various investment options offered by the plan. The Company may make matching contributions equal to a discretionary percentage, to be determined by the company, of the participant's salary reductions. Additional amounts may be contributed, based on current profits, at the option of the Company.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings, and forfeitures of terminated participants' non-vested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are eligible after one year of service and have reached the age of eighteen. A year of eligibility service is completing 1,000 hours of service during your first twelve months of employment. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants are vested 20 percent per year of service after two years of service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participant

Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account. The interest rate for a loan will be the rate in effect in the month your loan is effective. The interest rate is equal to the current prime rate plus two percentage points. Principal and interest is paid ratably through monthly payroll deductions. Loans must be fully repaid within five years, unless the loan is used to purchase a primary residence. Loans used to purchase a primary residence may be repaid within thirty years.

Payment of Benefits

Under the Plan, benefits are payable to participants after they leave the Company for any reason. Participants can receive their retirement benefit in a lump sum payment or have it rolled over into an individual retirement account.

Forfeited Accounts

At December 31, 2016 and December 31, 2015, forfeited nonvested accounts totaled $598.01 and $0.00, respectively. These accounts were reallocated to participants in the same manner as employer contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note Receivable from Participants

Notes Receivable from participants is measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and Dividend Income is recorded on the accrual basis. Investment income recognized by the Plan includes current earnings from investments, net gains or losses realized from the sale of investments by the funds of the system, and the net change in the unrealized appreciation or depreciation in assets.

Expenses

The Plan pays directly for administrative expenses. These payments for administrative expenses are therefore charges against the Plan's assets.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - SCHEDULE OF INVESTMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may be indicative of net realizable value or reflective of future fair values. Furthermore, the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of other observable inputs and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The following are the major categories of assets measured at fair value on a recurring basis during the year ended December 31, 2016 and December 31, 2015, using quoted prices in active markets for identical assets (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3).

Level 1 Fair Value Measurements

The fair value of mutual funds is based on the quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The following information regarding Common/Collective Trusts included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Custodian, State Street Corporation.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the plan, participants will become 100% vested in their accounts.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated July 24, 1995 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified.

The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

NOTE 7 - RECONCILIATION OF STATEMENTS TO SCHEDULE H OF FORM 5500

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - SUBSEQUENT EVENTS

The Companies' management has evaluated subsequent events through July 12, 2017, which is the date these Financial Statements were available to be issued.
