NOTES TO FINANCIAL STATEMENTS

Great Lakes Cheese Co., Inc. 401(k) Plan and Trust

1 Description of Plan, Continued

Notes Receivable from Participants:

Loans are permitted under certain circumstances and are subject to limitations. Participants may borrow from their fund with a minimum of \$1,000, to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loans are repaid over a period not to exceed five years with exceptions for the purchase of a primary residence.

Loans are measured at their unpaid principal balance plus any accrued unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3% to 6%. Principal and interest are paid ratably through payroll deductions.

Other Plan Provisions:

Normal retirement age is 60. The Plan also provides for early payment of benefits after reaching age 59-1/2.

Payment of Benefits:

A participant is entitled to receive the balance held in his/her account upon reaching normal retirement age (and after incurring a break in service as defined by the Plan). Such participants will receive an amount equal to the vested interest in the account. All payments of benefits shall be paid in a cash lump sum. Upon termination of service, the participant is entitled to their account balance as soon as administratively feasible.

Investment Options:

Upon enrollment in the Plan, a participant may direct his or her contributions in any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS

Great Lakes Cheese Co., Inc.
401(k) Plan and Trust

2 Summary of Significant Accounting Policies, Continued

Investment Valuation:

Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. Investment in the guaranteed investment contract is valued based on a Net Asset Value (NAV). The NAV per unit is computed by dividing the total contract value of the assets of the Fund, less its liabilities, by the total number of units outstanding at the time of such computation. Investment income earned is reinvested in the Fund and included in the determination of unit values. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTES TO FINANCIAL STATEMENTS

Great Lakes Cheese Co., Inc.

2 Summary of Significant Accounting Policies, Continued

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and guaranteed investment contracts with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 19, 2017, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in FASB ASC 820, fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- * Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- * Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund:

The fair value of the money market fund is valued at \$1 and is classified in the Level 1 category.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices and are classified in the Level 1 category.

3 Fair Value Measurements, Continued

Guaranteed Investment Contract:

The fair value of the guaranteed investment contract is based on the fair value of the underlying assets of the contract, which are valued based on commercial quotation services. The fair value is expressed in units. The guaranteed investment contract is classified in the Level 2 category of the valuation hierarchy. Participant transactions may occur daily, there are no liquidity provisions and there are no restrictions on redemptions.

The following tables present the financial instruments carried at fair value, on a recurring basis, by ASC 820 valuation hierarchy (as described above). There were no assets that fell within Level 3 of the valuation hierarchy.

	<u>Assets at Fair Value as of December 31, 2016</u>

4 Tax Status

The U.S. Department of Treasury made a determination on August 24, 2012, that the Plan constitutes a qualified trust under Section 401 (b) of the Internal Revenue Code and is, therefore, exempt from federal income tax. The current determination letter expires January 31, 2016. There are amendments to the Plan effective January 1, 2016 and an application for a new determination letter has been submitted to the IRS.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2016, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

5 Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Custodian:

	<u>2016</u>	<u>2015</u>

6 Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. The Plan pays National Associates for administrative services and the Plan auditors for audit fees. These transactions qualify as party-in-interest transactions.

7 Subsequent Events

On January 1, 2017, an amendment to the plan went into effect for automatic enrollment. If no contribution election is made, employees will be automatically enrolled at a contribution rate of 6% the first payroll of March of their eligible year. This is an increase from the current automatic enrollment rate of 3%.

In April 2017, the Plan transferred its assets to a new custodian, Voya Retirement Insurance and Annuity Company.
