There was no profit sharing contribution in 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Plan's matching and non-matching contributions, and Plan earnings on both employer and employee contributions to the various investment funds.

Upon enrollment in the Plan and anytime thereafter, a participant may select from various investment vehicles offered by the Plan to which contributions on their behalf will be directed.

Notes Receivable from Participants

Participants may borrow against the value of their accounts. The participants are allowed to have a maximum of two outstanding loans during any Plan year. The maximum amount of the borrowings shall not exceed the lesser of (a) $50,000 or (b) 50% of the participant's account.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants (Continued)

The funds required to satisfy a borrowing request are withdrawn on a pro-rata basis from the various investment funds in the participant's account. The loans generally must be fully repaid within five years. Loans for a primary residence may be repaid within a reasonable time based on the discretion of the Plan's administrator. The loans are secured by the vested balance in the participant's account and bear interest at a rate determined by the Plan administrator. At December 31, 2016 and 2015, the interest rate on outstanding loans ranged from 4.25% to 4.50%, maturing on various dates through July 2026. Principal and interest are re-paid ratably through payroll deductions.

Vesting

Participants are immediately vested in all employee contributions made to their respective accounts plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of service as follows:

Years of Service Completed	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Benefits Paid to Participants

Upon termination of service, death, disability, or normal or early retirement, participants may elect to receive a lump-sum amount equal to the vested value of their account or may request a rollover from the Plan to another eligible retirement plan. Hardship withdrawals are permitted if certain criteria are met.

Forfeitures

At December 31, 2016 and 2015, the forfeited non-vested account totaled $34,523 and $3,361, respectively. Forfeitures are first to be used to offset Plan administrative costs, second, to reduce employer contributions, and third, to be allocated to participants on a pro-rata basis. During 2016, no forfeited non-vested amounts were utilized.

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Recently Adopted Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share* ("ASU 2015-07"). This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (the "NAV") per share practical expedient. Investments that are measured at the NAV per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. The Company elected to early-adopt ASU 2015-07 as of December 31, 2015, and has applied ASU 2015-07 retrospectively, as required.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts.

Part II eliminated the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type. ASU 2015-12 further requires the disclosure of the information about fair value measurements be provided by general type of plan asset. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early adoption permitted.

The Plan elected to early-adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively, as required.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned.

If a participant fails to make a payment when the loans are due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The investment in collective trust funds is valued at the NAV per unit, as determined by the Custodian at year end. The NAV is used as the practical expedient to estimate the fair value and is based on the fair value of the underlying investment held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurement

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Benefits Paid to Participants

Benefits are recorded when paid.

Plan Expenses

Certain administrative expenses of the Plan are paid by the Plan Sponsor. Transaction fees for loan transactions, termination fees and check mailing fees are paid by the participants by reducing the account balance of those participants initiating the transactions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through July 14, 2017, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in combinations of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2016 and 2015:

Description	Fair Value at December 31, 2016	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Mutual funds	$13,543,710	$13,543,710	$ -	$ -	(a)
Total assets in fair value hierarchy	13,543,710	$13,543,710	$ -	$ -	
Investments measured at net asset value[1]	768,952				
Investments at fair value	$14,312,662				

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Description	Fair Value at December 31, 2015	Level 1	Level 2	Level 3	Valuation Technique
Assets in fair value hierarchy:					
Mutual funds	$12,287,622	$12,287,622	$ -	$ -	(a)
Total assets in fair value hierarchy	12,287,622	$12,287,622	$ -	$ -	
Investments measured at net asset value[1]	465,347				
Investments at fair value	$12,752,969				

[1] Includes a collective trust fund which is measured at NAV as a practical expedient and not classified in the fair value hierarchy. The fair value amounts presented in this table are shown for the purpose of reconciling to the statements of net assets available for benefits.

During the years ended December 31, 2016 and 2015, there were no transfers between levels of the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Collective trust - the fair value of participation units in the Federated Capital Preservation Fund is based upon the net asset values of such fund, as reported in the audited financial statements of the fund. The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirement for the purpose of funding a bona fide benefit payment, making a participant loan, honoring an employee-directed transfer of the employee's interest in the plan to another investment election, or paying trust fees. Withdrawals from the fund for any other purpose generally require 12 months' advance written notice.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value for certain financial instruments could result in a different fair value measurement at the reporting date.

5. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2016 and 2015:

	Fair Value Estimated Using Net Asset Value per Share at December 31, 2016				
Description	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Collective trust	$ 768,952	$ -	Daily	None	12 months

	Fair Value Estimated Using Net Asset Value per Share at December 31, 2015				
Description	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Collective trust	$ 465,347	$ -	Daily	None	12 months

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contribution and be entitled to the entire amount of their account balance.

7. RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, substantially all administrative expenses are paid directly by the Plan Sponsor.

8. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included in the Plan's financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by the Custodian, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that such information is complete and accurate.

8. INFORMATION CERTIFIED BY THE PLAN CUSTODIAN (CONTINUED)

	2016
Dividend and interest income	$ 939,708
Net depreciation in fair value of investments	$ (41,139)
Interest on notes receivable from participants	$ 20,243

9. TAX STATUS

The Plan adopted a prototype plan document sponsored by Merrill Lynch. Merrill Lynch received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which states that this prototype document satisfied the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the opinion letter, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of such code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
