NOTES TO FINANCIAL STATEMENTS

October 31, 2016 and 2015

NOTE A – DESCRIPTION OF PLAN

The following description of the Aetna Plywood, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan was adopted effective November 1, 1986. The Plan is a defined contribution plan covering all employees of Aetna Plywood, Inc. (the Company) who meet the minimum eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions

For each plan year, the Company shall make an annual employer contribution under the Plan in an amount determined by the Company's Board of Directors.

Participants may elect to contribute from 1% to 50% of their annual compensation for the year, up to $18,000 in 2016. In addition, the Company may make matching 401(k) contributions in a uniform percentage as determined by the Company. In 2016 and 2015 the Company made a matching contribution equal to $.50 for each dollar contributed by participants up to a maximum deferral rate of 6%, for a total matching contribution of $178,676 and $171,712, respectively.

3. Participant accounts

Separate accounts are maintained for all participants to reflect their interest in each investment fund. For each investment fund, a participant's account is credited by a percentage of the participant's total contribution per the participant's request. An allocation of fund earnings and realized and unrealized gains and losses is also credited based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Payment of benefits

Upon termination of service, a participant is entitled to receive a distribution equal to the vested portion of the net value of all the participant's investments and account balances. Effective February 1, 2016, the Plan also allows in-service distributions to participants who have obtained age 59½. Distributions may either be made in a lump-sum or an installment basis, if elected by the participant, as defined by the Plan.

5. Participant loans

Participants may borrow from their fund accounts. The maximum amount that a participant may borrow is the lesser of 50% of his or her vested account balance or $50,000, less the difference between the participant's highest outstanding balance during the preceding twelve-month period and the outstanding loan balance on the date the new loan is made. The maximum loan term is five years, except when the loan is used to purchase a primary residence; then the loan may be repaid over a maximum term of fifteen years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Rates currently range between 3.25% and 5.0%.

NOTE A – DESCRIPTION OF PLAN – Continued

6. Vesting

Participants are immediately 100% vested in the amounts they contribute plus any earnings and investment gains and losses thereon. Employer contributions vest based upon the following schedule:

Years of service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

7. Forfeitures

Forfeited non-vested accounts will be reallocated to participants in the same manner as employer contributions. Unallocated forfeitures are approximately $14,500 and $5,300 at October 31, 2016 and 2015, respectively. Also, in 2016 and 2015 employer contributions were reduced by approximately $14,500 and $5,300, respectively, from forfeited non-vested accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The financial statements have been prepared using the accrual method of accounting.

2. Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

3. Investment valuation and income recognition

The Plan's investments in all funds, except the BMO Employee Benefit Stable Principal Fund, are stated at fair value, based on quoted market prices of the underlying securities within each fund at October 31, 2016 and 2015. The BMO Employee Benefit Stable Principal Fund is fully-benefit responsive and is reported at contract value. Contract value represents the accumulated contributions plus accrued net earnings less distributions. Interest income is recorded on the accrual basis.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

4. Notes receivable from participants

In accordance with FASB ASU 2010-25, *Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans,* the Company has classified participant loans as notes receivable from participants. These notes are measured at their unpaid principal balance plus any accrued and unpaid interest. Interest income from notes receivable from participants is recognized when accrued based on individual agreements.

5. Payment of benefits

Benefits are recorded when paid.

6. Administrative costs

Accounting and administrative costs relating to the maintenance of participant eligibility and management of Plan asset records are absorbed by both the Plan and the Company.

7. Plan termination

Although management has not expressed any intent to do so, it has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts shall become 100% vested and nonforfeitable.

8. Adoption of new FASB accounting standard in 2015

In, July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Part II in 2015 and Parts I and III during 2016.

9. Subsequent events

Management has evaluated subsequent events through July 13, 2017. This date represents the date the financial statements are available to be issued.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

10. Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation.

NOTE C – RELATED PARTY TRANSACTIONS

The Plan invests in shares of mutual funds and a fully benefit-responsive investment contract managed by an affiliate of BMO Harris Bank N.A. (BMO). BMO acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transactions.

NOTE D – INVESTMENT AGREEMENT

The Plan has entered into an investment agreement with One America Retirement Services who maintains the contributions in various mutual fund accounts and a fully benefit-responsive investment contract. The accounts are credited with earnings on the underlying investments (see Note C) and charged for Plan withdrawals.

NOTE E – INVESTMENTS

The Plan entered into an investment agreement (see Note D) with One America Retirement Services under which contributions are deposited, at the direction of the participants, into any combination of the nineteen investment accounts.

The net investment gain as reported on the 2015 Form 5500 includes interest and dividend income of $454,539 and other income of $30,596.

The Plan provides for various investment options of mutual funds. Such investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE E – INVESTMENTS – Continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market date by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan as of the end of the plan year.

The following table sets forth the level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2016 and 2015:

	2016			
Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,519,269	$ -	$ -	$ 16,519,269

	2015			
Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,216,438	$ -	$ -	$ 14,216,438

NOTE F – INVESTMENT CONTRACT

The Plan entered into an investment contract that comprises a traditional investment contract, a portfolio of synthetic investment contracts and cash equivalents. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value in the statements of net assets available for benefits. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the disaggregation of contract value between types of investment contracts held by the Plan.

NOTE F – INVESTMENT CONTRACT - Continued

	2016	2015
Investments at contract value:		
Synthetic investment contracts	$ 3,095,482	$ 4,413,479
Traditional contracts	628,660	787,868
Cash equivalents	326,131	707,173
	$ 4,050,273	$ 5,908,520

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for that wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0 percent. Formulas are provided in each contract that adjusts renewal (monthly) crediting rates to recognize the difference between the fair value and the book value of the underlying assets. The crediting rate is based on a formula established by the contract issuer and reviewed quarterly. The average yield and crediting interest rate were approximately 2.06% and 1.90% for 2016, respectively, and 2.22% and 1.86% for 2015, respectively.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the contract issuer. The plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with plan participants is not probable.

NOTE G – TAX STATUS

The Plan obtained its latest determination letter dated September 7, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G – TAX STATUS – Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H – REPORTABLE TRANSACTIONS

The value of the Plan net assets at the beginning of the Plan period was $20,719,741. All non-participant-directed individual transactions or series of similar transactions greater than $1,035,987 (5% of beginning of year plan net assets) are considered to be reportable transactions. There were no reportable transactions in plan year 2016.
