NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the River City Bank 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution retirement plan established on August 1, 1985. The Plan is sponsored by River City Bank (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

The Company pays the majority of the expenses incurred in the administration of the Plan. Certain fees such as origination fees for the notes receivable from participants, terminated employees' annual administrative fees and distribution fees are paid for from the particular participant's account.

Eligibility: All regular employees of the Company, except certain on-call or temporary employees, who are age twenty-one or older and complete one month of service are eligible to participate in the Plan, as defined. Employees are auto-enrolled into the Plan on the first day of the quarter after meeting eligibility requirements at an initial deferral rate of 4%, if the employee does not make an election.

Contributions: Participants may elect to contribute their pretax annual compensation subject to the statutory limitations. For the years ended December 31, 2016 and 2015, the Company made nondiscretionary matching contributions in an amount equal to 50% of each participant's elective deferrals, up to a maximum of 10% of each participant's plan compensation contributed. Additionally, the Plan allows rollover contributions of participants from other qualifying plans.

Participant Accounts: Each participant's account is credited with the participant's contributions, the allocation of the Company's contributions and Plan earnings or loss and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on the compensation or account balances of the participants, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The Company's contributions and earnings thereon become vested at a rate of 20% per year beginning with the first year of credited service and are fully vested after five years. To earn a year of service, an employee must be credited with 1,000 hours of service during the Plan year.

Forfeitures: In the event participants terminate employment for reasons other than death, disability, or retirement, the participants shall forfeit the unvested portion of their account balances. These forfeitures are used to reduce the Company's contributions. As of December 31, 2016 and 2015, $4,847 and $30,654 of forfeited employer matching contributions were available to be used to offset future employer contributions. Accordingly, these were used to reduce the subsequent employer matches paid in February 2017 and January 2016, respectively.

Payment of Benefits: On termination of service due to death, disability, or retirement, but in no event later than attainment of age 70 ½, or for other reasons, a participant or beneficiary may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Partial withdrawals or installments are only permitted for required minimum distributions and certain in-service distributions.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Revenue Recognition: The Plan's investments are reported at fair value. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments is recognized in the year in which the fair value change occurs and includes any realized gains or losses and investment management fees. Purchases and sales of securities are recorded on a trade-date basis.

Benefit Payments: Benefit payments are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

NOTE 3 - NOTES RECEIVABLE FROM PARTICIPANTS

Under the terms of the Plan, participants may borrow from their accounts subject to limitations set forth in the Plan document and the Internal Revenue Code. Participants may borrow from their accounts up to the lesser of 50% of their vested account balance or $50,000. These transactions are treated as a transfer to (from) the investment funds from (to) the notes receivable fund. General-purpose notes receivable must be repaid within five years and notes receivable to purchase a primary residence must be repaid within fifteen years. Interest rates on notes receivable ranged from 5.25% to 5.50% as of December 31, 2016. At December 31, 2016 and 2015, notes receivable amounted to $81,590 and $120,280, respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2016			
Mutual funds	$12,378,354	$ -	$ -

	Fair Value Measurements Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2015			
Mutual funds	$10,567,300	$ -	$ -

There were no significant transfers between Level 1 and Level 2 during 2016 and 2015.

(Continued)

NOTE 5 - CERTIFIED INVESTMENTS - UNAUDITED INFORMATION

Substantially all investment information included in the financial statements, including interest and dividend income and net appreciation in the fair value of investments was certified by the Plan trustee, TD Ameritrade Trust Company, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. This information has not been audited by independent accountants.

NOTE 6 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed Newport Group (formerly known as Verisight), the Plan's record keeper, by a letter dated March 31, 2014, indicating that the prototype adopted by the Plan, as then designed, was in accordance with applicable sections of the Code. The Plan has been amended since the determination letter date; however, the Plan's administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan were to terminate, all participants would become 100% vested in their account balances.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds notes receivables from participants which also qualify as a party-in-interest investment. The Plan also invests in a mutual fund that is issued by an affiliate of the trustee. Fees paid by the Plan to the trustee or record keeper for administrative expenses qualify as party-in-interest transactions. The fees amounted to $9,604 and $15,724 for the years ended December 31, 2016 and 2015, respectively.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through July 24, 2017, which is the date the financial statements were available to be issued.
