(1) DESCRIPTION OF THE PLAN

The following summarized description of the Kolmar Laboratories, Inc. (the "Company"), Savings Incentive Plan (the "Plan") is intended only to highlight some of the features of the Plan. During the year ended December 31, 2015 the Plan changed its name from Kolmar Labs Group, LLC Savings Incentive Plan to Kolmar Laboratories, Inc. Savings Incentive Plan. Participants should refer to the plan document for a more complete description of the Plan's provisions.

- General

  The Plan is a defined contribution plan covering all employees of the Company who are age 21 and have at least three months of service within a twelve month period. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

- Contributions

  Participating employees may contribute, through payroll deductions, up to 75% of eligible compensation, as defined, or $18,000 (plus an extra $6,000 for age 50 or older), to be invested, at their discretion, in one or more of the eligible funds maintained by the Plan trustee. The Company, at the discretion of the Board of Directors, may make matching contributions based on a percentage of employees' pretax contributions to the Plan.

  Forfeitures of participants' non-vested Company contributions will be used to pay administrative expenses. Any remaining amounts will be used to reduce future Company contributions payable under the Plan.

- Participant Accounts

  Each participant's account is credited with their respective contributions, any rollover contributions, employer matching contributions, and an allocation of the Company's discretionary contribution and Plan earnings, net of investment management fees. Allocations are based on participant earnings or account balances.

- Vesting

  Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service completed. A participant is 100 percent vested after three years of credited service.

  During the year ended December 31, 2007, the Plan was amended so that participants of certain affiliates of Kolmar Labs Group became 100% vested in their accounts as of the closing of the sale of assets of those affiliates to KIK International LLC.

(1) DESCRIPTION OF THE PLAN – (Continued)

- Participant Loans

  Participants may borrow up to 50% of their vested account balance, up to a maximum of $50,000, the minimum loan being $1,000. A participant is allowed to have one loan outstanding at any given time. Loan transactions are treated as a transfer between the investment fund and the loan fund. Loan terms must be no more than five years or ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prevailing interest rates. Principal and interest is paid ratably through payroll deductions, made no less frequently than quarterly.

- Payment of Benefits

  On termination or retirement, participants may elect to receive a lump-sum payment equal to the value of their vested account, or to defer receipt of distributions if their vested account balance is greater than $5,000.

  The Plan provides payment of benefits at an early retirement age of 55 with at least three years of vesting service.

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATION

This summary of significant accounting policies and information of Kolmar Laboratories, Inc. Savings Incentive Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's trustees, who are responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of these financial statements.

- Basis of Accounting

  The financial statements of the Plan are prepared under the accrual method of accounting. Benefit payments are recognized as reductions of Plan assets upon disbursement.

- Tax Status

  The Internal Revenue Service has determined and informed the Company by letter dated March 2005 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

- Subsequent Events

  Plan management has evaluated subsequent events through July 14, 2017, the date the financial statements were available to be issued.

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATIO – (Continued)

- Valuation of Investments and Income Recognition

  The Plan's investments are stated at fair market value as determined by the Fidelity Management Trust Company, the trustee of the Plan, except that the FA Stable Value Fund is stated at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Also see Note 10 for a discussion of fair value measurements.

  Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- Use of Estimates

  The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

- Administrative Expenses

  Substantially all administrative expenses are paid by the Plan. The balance of such expenses, if any, is paid by the Company. The company provides certain administrative services and use of facilities to the Plan at no cost to the Plan.

- Accounting for Uncertainty in Income Taxes

  In accordance with guidance issued by the Financial Accounting Standards Board (FASB) on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Management believes that the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2013.

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATION – (Continued)

- New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).*

Under the amendments in this update, investments for which fair value is measured at net asset value ("NAV") per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy.

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The ASU is to be applied retrospectively. The Plan has elected to adopt the ASU effective January 1, 2016. The adoption of this pronouncement did not have any effect on the Plan's financial position or results of operations.

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*.

Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. Part I is not applicable to the Plan.

The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III is to be applied prospectively. The Fund has elected to adopt Parts I, II and III effective January 1, 2016. The adoption of this pronouncement did not have any effect on the Plan's financial position or results of operations.

In August 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-15, *Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern.*

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATION – (Continued)

- New Accounting Pronouncements

  ASU 2014-15 requires management to evaluate whether conditions or events exist that, when considered together, raise substantial doubt about the entity's ability to continue as a going concern within a one year period after the date the financial statements are available to be issued.

  The ASU is effective for the fiscal years ending after December 15, 2016, and for annual periods and interim periods thereafter. Early adoption is permitted. The Plan has elected to adopt the ASU effective January 1, 2016. The adoption of this pronouncement did not have any effect on the Plan's financial position or results of operations.

(3) RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(4) PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets include investments in funds managed by Fidelity Investments. Fidelity Investments Institutional Operations Company is the transfer agent that performs processing, recordkeeping and shareholder servicing functions for institutional investors that invest in Fidelity mutual funds, and Fidelity Management Trust Company is the trustee of the Plan. As such, transactions with Fidelity qualify as exempt party-in-interest transactions. Usual and customary transaction fees are charged against the investment accounts by Fidelity for investment management and recordkeeping services.

Kolmar Laboratories, Inc. provides certain administrative services to the Plan for which no fees are charged.

(5) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

(6) LEGAL MATTERS

According to the Plan's Trustees and legal counsel, the Fund is not a party to any litigation the outcome of which would have a material effect on these financial statements.

(7) INVESTMENT INFORMATION CERTIFIED BY TRUSTEES – (UNAUDITED)

The Plan's assets are held by a trust fund administered by the trustees. The following is a summary of assets and changes in net assets certified as complete and accurate by the trustees as of and for the years ended December 31, 2016 and 2015.

	2016	2015

The following is a reconciliation of the increase in net assets available for benefits per the financial statements to the Form 5500.

	2016
Increase in Net Assets Available for Benefits per the Financial Statements	$ 880,104
Adjustment of FA Stable Value Fund	
Beginning of Year	(33,125)
End of Year	16,467
Increase in Net Assets per the Form 5500	$ 863,446

(9) STABLE VALUE FUND

The plan maintains an investment in the Fidelity Advisor Stable Value Fund which is a fully benefit-responsive investment contract sponsored by Fidelity Management Trust Company ('Fidelity"). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals. The interest in the Stable Value Fund for a particular participant is equal to the sum of the participant's invested capital and all accrued interest.

As described in Note 2, because the Fidelity Advisor Stable Value Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to that investment contract. Contract value, as reported to the plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals (sum of all of the benefits owed to participants of the fund). Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2016 and 2015 was $3,669,354 and $3,493,449, respectively.

The yield credited to participants of the Stable Value Fund was 1.19% and 1.15% for 2016 and 2015, respectively. The yield based on actual earnings of the Stable Value Fund was 2.00% and 1.92% in 2016 and 2015, respectively.

(10) FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices of identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(10) FAIR VALUE MEASUREMENTS – (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money Market Funds:
Valued using cost which approximates fair value.

Mutual Funds:
Valued at the net asset value of shares held by the Plan, based on the closing price reported in the active market in which the fund is traded.

Stable Value Fund:
Valued at contact value, as discussed in Note 9.

The following table sets forth by level, within the fair value hierarchy, of the Plan's investment assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total

(10) FAIR VALUE MEASUREMENTS – (Continued)

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.
