Notes to Financial Statements

December 31, 2016 and 2015

Note 1: Description of the Plan

The following description of the Tivoli Enterprises Inc. 401(k) Retirement Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a single-employer defined contribution profit sharing and 401(k) plan covering the employees of Tivoli Enterprises, Inc. (Employer) who have attained the eligibility requirements as set forth by the Employer in its plan document including attaining the age of 21 and one year (minimum 1,000 hours) of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

The Plan is funded by voluntary pre-tax and post-tax contributions of participants and discretionary matching and profit sharing contributions of the Employer as set forth in the plan document. Eligible employees can elect to contribute to the Plan pre-tax and/or Roth after-tax deferrals of their compensation, as defined by the Plan, through regular payroll deductions, subject to limitations imposed by the Internal Revenue Code. Employer matching contributions will be made in an amount equal to 25% of the participant's elective deferral not to exceed 5% of the participant's eligible compensation.

Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions.

Investment Options

Participants direct their salary deferral contributions and the Employer's contributions into a variety of investment funds made available and determined by the plan administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer's discretionary matching and, if any, an allocation of profit sharing contributions and an allocation of plan earnings. Plan earnings are allocated to participant's accounts in direct proportion to their respective account balances, based on the performance of participant's investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable From Participants

Participants are permitted to take loans from the Plan at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at the prime interest rate plus 1%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence.

Vesting

Participants are immediately vested in their 401(k) contributions, plus actual earnings thereon and Employer-matching contributions, plus actual earnings thereon. Vesting in Employer profit sharing contributions is based on continuous years of service. A participant vests 20% beginning after the second year of service and an additional 20% after each additional year of service and is 100% vested after six years of credited service.

Forfeited Accounts

Forfeitures of nonvested account balances are used to pay plan administrative expenses or reduce Company contributions. There were $417 and $1,240 of forfeitures available for future use at December 31, 2016 and 2015, respectfully. During 2016, $823 was used to offset Employer contributions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum payment equal to the value of his or her vested account balance or other distribution or annual installment as elected by the participant. The participant may also elect to roll-over the balance to an IRA or other qualified account.

Administrative Expenses

Administrative expenses incurred by the Plan for professional services are charged directly to participant accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments, consisting of registered investment companies and a money market account, are reported at fair value based quoted market prices for such investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes Plan's gains or losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Determination as to when participant loans are considered in default and reclassified as distributions is based on the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Reclassifications

Certain reclassifications have been made to the 2015 financial statement to conform to the 2016 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 3: Financial Data Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.

- Investment income (loss) and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Investment information and participant loans included in the accompanying schedule of assets (held at year end) as of December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2016 and 2015.

The fair value of registered investment companies and the money market account is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2016				
Registered investment companies	$ 3,529,270	$ 3,529,270	$ -	$ -
Money market account	151,686	151,686	-	-
Total	$ 3,680,956	$ 3,680,956	$ -	$ -
December 31, 2015				
Registered investment companies	$ 3,357,875	$ 3,357,875	$ -	$ -
Money market account	95,008	95,008	-	-
Total	$ 3,452,883	$ 3,452,883	$ -	$ -

Note 5: Risks and Uncertainties

The Plan invests in various investment options. These investment options are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment options and the level of uncertainty related to changes in the value of the investment options, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 6: Related Party Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for certain investment management services are included in the net depreciation in the fair value of the investments. During 2016, the Plan also made direct payments for administrative expenses of $74. The terms of the Plan permit

loans to participants under certain conditions. These loans, which are party-in-interest transactions, are permitted under ERISA. The Company provides certain administrative services at no cost to the Plan.

Note 7: Income Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity Workplace Services. The Internal Revenue Service has determined and informed the volume submitter plan sponsor by letter dated March 31, 2014, that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax position taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8: Plan Termination

Although it has not expressed any intention to do so, the plan administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, participants become fully vested in their entire account balance.

Note 9: Subsequent Events

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Notes to Financial Statements

December 31, 2016 and 2015

Note 1: Description of the Plan

The following description of the Tivoli Enterprises Inc. 401(k) Retirement Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a single-employer defined contribution profit sharing and 401(k) plan covering the employees of Tivoli Enterprises, Inc. (Employer) who have attained the eligibility requirements as set forth by the Employer in its plan document including attaining the age of 21 and one year (minimum 1,000 hours) of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

The Plan is funded by voluntary pre-tax and post-tax contributions of participants and discretionary matching and profit sharing contributions of the Employer as set forth in the plan document. Eligible employees can elect to contribute to the Plan pre-tax and/or Roth after-tax deferrals of their compensation, as defined by the Plan, through regular payroll deductions, subject to limitations imposed by the Internal Revenue Code. Employer matching contributions will be made in an amount equal to 25% of the participant's elective deferral not to exceed 5% of the participant's eligible compensation.

Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions.

Investment Options

Participants direct their salary deferral contributions and the Employer's contributions into a variety of investment funds made available and determined by the plan administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer's discretionary matching and, if any, an allocation of profit sharing contributions and an allocation of plan earnings. Plan earnings are allocated to participant's accounts in direct proportion to their respective account balances, based on the performance of participant's investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable From Participants

Participants are permitted to take loans from the Plan at a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at the prime interest rate plus 1%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence.

Vesting

Participants are immediately vested in their 401(k) contributions, plus actual earnings thereon and Employer-matching contributions, plus actual earnings thereon. Vesting in Employer profit sharing contributions is based on continuous years of service. A participant vests 20% beginning after the second year of service and an additional 20% after each additional year of service and is 100% vested after six years of credited service.

Forfeited Accounts

Forfeitures of nonvested account balances are used to pay plan administrative expenses or reduce Company contributions. There were $417 and $1,240 of forfeitures available for future use at December 31, 2016 and 2015, respectfully. During 2016, $823 was used to offset Employer contributions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum payment equal to the value of his or her vested account balance or other distribution or annual installment as elected by the participant. The participant may also elect to roll-over the balance to an IRA or other qualified account.

Administrative Expenses

Administrative expenses incurred by the Plan for professional services are charged directly to participant accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments, consisting of registered investment companies and a money market account, are reported at fair value based quoted market prices for such investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes Plan's gains or losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Determination as to when participant loans are considered in default and reclassified as distributions is based on the terms of the plan document.

Benefit Payments

Benefit payments are recorded when paid.

Reclassifications

Certain reclassifications have been made to the 2015 financial statement to conform to the 2016 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Note 3: Financial Data Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.

- Investment income (loss) and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Investment information and participant loans included in the accompanying schedule of assets (held at year end) as of December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2016 and 2015.

The fair value of registered investment companies and the money market account is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets/ Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2016				
Registered investment companies	$ 3,529,270	$ 3,529,270	$ -	$ -
Money market account	151,686	151,686	-	-
Total	$ 3,680,956	$ 3,680,956	$ -	$ -
December 31, 2015				
Registered investment companies	$ 3,357,875	$ 3,357,875	$ -	$ -
Money market account	95,008	95,008	-	-
Total	$ 3,452,883	$ 3,452,883	$ -	$ -

Note 5: Risks and Uncertainties

The Plan invests in various investment options. These investment options are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment options and the level of uncertainty related to changes in the value of the investment options, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 6: Related Party Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Certain plan investments are managed by the trustee; therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for certain investment management services are included in the net depreciation in the fair value of the investments. During 2016, the Plan also made direct payments for administrative expenses of $74. The terms of the Plan permit

loans to participants under certain conditions. These loans, which are party-in-interest transactions, are permitted under ERISA. The Company provides certain administrative services at no cost to the Plan.

Note 7: Income Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity Workplace Services. The Internal Revenue Service has determined and informed the volume submitter plan sponsor by letter dated March 31, 2014, that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax position taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8: Plan Termination

Although it has not expressed any intention to do so, the plan administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, participants become fully vested in their entire account balance.

Note 9: Subsequent Events

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
