Notes to Financial Statements

Note 1. Description of the Plan

The following description of the SoBran, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees (other than union employees and nonresident employees) of SoBran, Inc. (the Employer or Plan Sponsor) who have completed six months of service and are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Participants may contribute up to 30% of their compensation, as defined in the Summary Plan Description. Contributions are subject to certain limitations. Catch-up contributions are also permitted by the Plan. The Employer makes a discretionary matching contribution which is equal to 50% of the first 8% deferred by a participant. The Employer match is available to employees who have completed six months of service and are at least 21 years of age.

Participant accounts: Each participant's account is credited with the participant's contributions, the Employer's discretionary matching contribution and an allocation of Plan earnings. Allocations are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Employer's discretionary matching contributions plus earnings thereon is based on years of continuous service. Participants vest 25% per year of service, starting after two years of credited service and are 100% vested after five years of credited service. Earlier vesting may occur upon death or disability.

Investment options: The participant directs the investment of their contributions and the Employer's discretionary matching contributions into various investment options offered by the Plan.

Payment of benefits: Upon termination of service due to disability or death, a participant will become fully vested. Upon retirement or termination of service, a participant receives a lump-sum payment equal to the value of the participant's vested interest in their account. Vested balances of \$1,000 or less will automatically be paid in a lump-sum payment.

Forfeited accounts: Forfeited, non-vested accounts totaled \$51,335 and \$101,390 at December 31, 2016 and 2015, respectively. Forfeited amounts can be used to pay administrative expenses or to offset future employer contributions. During 2016 forfeited, non-vested accounts were used to reduce employer contributions and pay administrative expenses in the amount of \$52,900 and \$8,440, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) as more explicitly described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Contributions: Participant contributions are recognized when withheld. Employer contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: A significant portion of the Plan's administrative expenses are paid by the Employer.

SoBran, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan's investments in mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.

The Anchor Account II is a pooled separate account made available to participating plans through a group annuity contract. The group annuity contract is an investment contract that is benefit responsive, meaning it provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers to other investment options offered to the participant by the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in interest and dividend income.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events: The Plan has evaluated the effect of all subsequent events occurring through July 17, 2017 the date the financial statements were available to be issued.

Note 3. Information Prepared and Certified by the Plan's Trustee

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2016 and 2015 and for the year ended December 31, 2016, was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that information provided to the Plan administrator by the trustee related to these investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 8 and the supplemental schedule related to the Plan's investments.

State Street Bank and Trust Company also certified to the completeness and accuracy of \$354,468 of net appreciation in fair value of investments and \$361,843 of interest and dividends for the year ended December 31, 2016.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

SoBran, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 5. Income Tax Status

For the Plan year ended December 31, 2016, the Plan adopted a standardized form of a prototype plan sponsored by DST Retirement Solutions, LLC. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter will be relied upon by this Plan.

The Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2013.

Note 6. Related-Party Transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid for the investment management services during the year totaled \$8,440. All fees paid by the Plan for the investment management services for the year ended December 31, 2016, were paid from forfeited non-vested funds.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 8. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

SoBran, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 8. Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate account: Valued at the net asset value (NAV) per share of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2016			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 8,464,426	\$ 8,464,426	\$ -	\$ -
Investments measured at NAV (a)	1,954,004	-	-	-
Total investments, at fair value	\$ 10,418,430	\$ 8,464,426	\$ -	\$ -
	2015			
	Total	Level 1	Level 2	Level 3
Mutual funds	\$ 7,813,165	\$ 7,813,165	\$ -	\$ -
Investments measured at NAV (a)	1,711,718	-	-	-
Total investments, at fair value	\$ 9,524,883	\$ 7,813,165	\$ -	\$ -

(a) certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Notes to Financial Statements

Note 8. Fair Value Measurements (Continued)

Investments in Entities that Calculate Net Asset Value Per Share

The New York Life Anchor Account II (the Stable Value Fund) is invested in high-quality fixed income securities. It seeks to provide a low-risk stable investment, offering competitive yields and limited volatility, with guarantee of principal and accumulated interest. There were no unfunded commitments related to the Anchor Account II.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals and transfers resulting from certain events, including employer initiated events may limit the ability of the fund to transact at contract value. These events may cause liquidation of all or a portion of a contract at market value. The Plan Administrator believes that the occurrence of any event which would limit the Plan's ability to transact at contract value is not probable. Further the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:
