KESTREL FIELD SERVICES, INC. 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

NOTE 1 – DESCRIPTION OF THE PLAN

Effective April 21, 2016, Kestrel Engineering, Inc. 401(k) Plan was amended to change the name to Kestrel Field Services, Inc. 401(k) Plan (the "Plan") and the Plan Sponsor changed its name from Kestrel Engineering, Inc. to Kestrel Field Services, Inc. (the "Company"). The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan document is controlling at all times. The Plan's trustees are Gary Clarke, David Clarke and Robin Schimank (the "Trustees"). The Plan's custodian is Voya Retirement Insurance and Annuity Company (the "Custodian").

GENERAL

The Plan is a defined contribution plan covering all employees of the Company who have attained the minimum age requirement of 21. The Plan is subject to the provision of the Employment Retirement and Income Security Act of 1974 ("ERISA").

CONTRIBUTIONS

Each year, participants may elect to contribute up to 100% of their eligible compensation, pre-tax or post-tax (not to exceed the maximum dollar limit allowable under current regulations). Catch-up contributions of up to $6,000 are allowed for participants who have attained age 50. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company contributes 100% of the participant's contribution up to 3% of such participant's employee compensation, plus 50% of the participant's contribution that exceeds 3% up to a maximum of 5% of the participant's employee compensation. For the year ended December 31, 2016, the Company made matching contributions of $572,409.

PARTICIPANT ACCOUNTS

Separate accounts are maintained for each participant. Participant accounts are credited with participant contributions, rollover contributions, allocations of Company contributions and investment earnings and losses and are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit which can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

INVESTMENT OPTIONS

Upon enrollment in the Plan, participants may direct the investment of their individual accounts among alternative investment funds provided under the Plan. Participants may change their investment elections at any time, as well as transfer existing balances between investment funds. At December 31, 2016, the Plan offered 35 mutual funds and one fully benefit-responsive investment contract.

NOTES RECEIVABLE FROM PARTICIPANTS

The Plan does not permit notes receivable from participants.

PAYMENT OF BENEFITS

Upon termination of service, death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount, a series of equal payments or in the form of an annuity. In-service distributions are allowed for participants who have reached the age of 59 ½ or normal retirement age. Hardship withdrawals are permitted from participant deferrals and rollovers, within limitations and conditions as defined by the Plan.

VESTING

Participants are always fully (100%) vested in the Elective Deferral Account, Rollover Contribution Account, Qualified Non-Elective Contribution Account, Safe Harbor Matching Contribution Account, Discretionary Non-Safe Harbor Matching Contribution Account and Profit Sharing Contribution Account.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements are prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions which affect the amounts reported in the financial statements and accompanying notes and schedules. Accordingly, actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value, as determined by the Custodian. Fair value is the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The net change in the fair value of investments is reported in the statement of changes in net assets available for benefits in the period of change.

Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the Plan's investment contract is representative of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Expenses related to the purchase or sale of investments are added to cost or deducted from proceeds. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

PLAN EXPENSES

Certain fees for services charged by the Custodian may be directly charged to a participant. Investment management and advisory fees are charged to the Plan. Other administrative costs of the Plan charged by the Custodian are generally paid by the Company.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan measures and reports certain assets and liabilities at fair value within a hierarchal disclosure framework which prioritized and ranks the level of observable inputs used in measuring fair value. Level one inputs include inputs which are unadjusted, quoted prices for identical assets or liabilities in active markets. Level two measurements include inputs which are either observable prices for identical assets or liabilities in inactive markets, observable prices for similar assets or liabilities, or other inputs derived principally from, or corroborated by, observable market data at the measurement date. Level three inputs are unobservable inputs which are significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of the fully benefit-responsive investment contract is based on the present value of future guaranteed account values and participant benefit withdrawals, assuming a certain annual benefit withdrawal rate, as determined by the Custodian. There have been no changes in the methodologies used at December 31, 2016.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Quoted Market Prices in Active Markets (Level One)	Other Observable Inputs (Level Two)	Unobservable Inputs (Level Three)
Mutual Funds	$ 8,729,377	$ -	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Quoted Market Prices in Active Markets (Level One)	Other Observable Inputs (Level Two)	Unobservable Inputs (Level Three)
Mutual Funds	$ 7,717,452	$ -	$ -

NOTE 4 – INFORMATION CERTIFIED BY THE CUSTODIAN

At December 31, 2016 and 2015, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information included in the financial statements and supplemental schedule based on the information certified by the Custodian as complete and accurate in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

During the year ended December 31, 2016, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual Funds	$ 620,884
Fully Benefit-Responsive Investment Contract	-
Total Appreciation	$ 620,884

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan offers a fully benefit responsive investment contract. Funds allocated to this contract are placed in the Custodian's general account where they are invested in accordance with the Custodian's investment policy. The objective of the investment policy is to maximize long-term, risk-adjusted returns. The Custodian's general account assets are predominately fixed-income investments (bonds, mortgages and private placements). The average maturity for these assets is approximately 10 years and the average duration is between 5 and 6 years.

Interest rates are established and declared for new contributions which will be received in a calendar quarter. The rate is based on the return the Custodian expects on new investments made by it and held within the Custodian's general account and it will always equal or exceed the contractually guaranteed rate (3.00%). All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. Each quarter's contributions and the corresponding interest rate are tracked together in a separate quarterly interest rate pocket. At the end of the calendar year next following the current year, the quarterly interest rate pockets are converted to an annual interest rate pocket.

At the beginning of each year, a new interest rate is established and declared for each annual pocket. This rate is based on past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. All benefit payments made prior to contract liquidation are made at contract value.

NOTE 6 – INCOME TAXES

The prototype plan and trust agreement established by the Custodian to hold the Plan's assets is qualified pursuant to section 501(c)(3) of the Internal Revenue Code by a letter dated March 31, 2008; and accordingly, the Plan's net investment income is exempt from income taxes. The prototype has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 – ADMINISTRATION OF PLAN ASSETS

The Plan's assets are held and certain administrative functions are performed by the Custodian of the Plan. The Company provides certain administrative functions and absorbs certain administrative costs on behalf of the Plan.

NOTE 8 – PARTY-IN-INTEREST

Net assets available for benefits include investments managed by the Custodian at December 31, 2016 and 2015. As a result, these assets and all transactions relating to these assets qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA. Fees paid directly by the Plan to the Custodian amounted to $8,891 for the year ended December 31, 2016.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible change in values of investment securities will occur in the near term and such change could materially affect participant's account balances and the amount reported in the statement of net assets available for benefits.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of Plan termination, the Custodian will distribute all assets remaining after payment of any expenses chargeable to the Plan to participants or their beneficiaries in accordance with the Plan's provisions.

NOTE 11 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through the date of the independent auditors' report, the date which the financial statements were available to be issued. No matters affecting the accompanying financial statements were noted.

The Plan's investments are stated at fair value, as determined by the Custodian. Fair value is the price which would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The net change in the fair value of investments is reported in the statement of changes in net assets available for benefits in the period of change.

Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the Plan's investment contract is representative of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Expenses related to the purchase or sale of investments are added to cost or deducted from proceeds. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

PLAN EXPENSES

Certain fees for services charged by the Custodian may be directly charged to a participant. Investment management and advisory fees are charged to the Plan. Other administrative costs of the Plan charged by the Custodian are generally paid by the Company.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan measures and reports certain assets and liabilities at fair value within a hierarchal disclosure framework which prioritized and ranks the level of observable inputs used in measuring fair value. Level one inputs include inputs which are unadjusted, quoted prices for identical assets or liabilities in active markets. Level two measurements include inputs which are either observable prices for identical assets or liabilities in inactive markets, observable prices for similar assets or liabilities, or other inputs derived principally from, or corroborated by, observable market data at the measurement date. Level three inputs are unobservable inputs which are significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of the fully benefit-responsive investment contract is based on the present value of future guaranteed account values and participant benefit withdrawals, assuming a certain annual benefit withdrawal rate, as determined by the Custodian. There have been no changes in the methodologies used at December 31, 2016.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Quoted Market Prices in Active Markets (Level One)	Other Observable Inputs (Level Two)	Unobservable Inputs (Level Three)
Mutual Funds	$ 8,729,377	$ -	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Quoted Market Prices in Active Markets (Level One)	Other Observable Inputs (Level Two)	Unobservable Inputs (Level Three)
Mutual Funds	$ 7,717,452	$ -	$ -

NOTE 4 – INFORMATION CERTIFIED BY THE CUSTODIAN

At December 31, 2016 and 2015, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information included in the financial statements and supplemental schedule based on the information certified by the Custodian as complete and accurate in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

During the year ended December 31, 2016, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual Funds	$ 620,884
Fully Benefit-Responsive Investment Contract	-
Total Appreciation	$ 620,884

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan offers a fully benefit responsive investment contract. Funds allocated to this contract are placed in the Custodian's general account where they are invested in accordance with the Custodian's investment policy. The objective of the investment policy is to maximize long-term, risk-adjusted returns. The Custodian's general account assets are predominately fixed-income investments (bonds, mortgages and private placements). The average maturity for these assets is approximately 10 years and the average duration is between 5 and 6 years.

Interest rates are established and declared for new contributions which will be received in a calendar quarter. The rate is based on the return the Custodian expects on new investments made by it and held within the Custodian's general account and it will always equal or exceed the contractually guaranteed rate (3.00%). All contributions received during the quarter will earn that declared interest rate until the end of the calendar year next following the current year. Each quarter's contributions and the corresponding interest rate are tracked together in a separate quarterly interest rate pocket. At the end of the calendar year next following the current year, the quarterly interest rate pockets are converted to an annual interest rate pocket.

At the beginning of each year, a new interest rate is established and declared for each annual pocket. This rate is based on past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. All benefit payments made prior to contract liquidation are made at contract value.

NOTE 6 – INCOME TAXES

The prototype plan and trust agreement established by the Custodian to hold the Plan's assets is qualified pursuant to section 501(c)(3) of the Internal Revenue Code by a letter dated March 31, 2008; and accordingly, the Plan's net investment income is exempt from income taxes. The prototype has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 – ADMINISTRATION OF PLAN ASSETS

The Plan's assets are held and certain administrative functions are performed by the Custodian of the Plan. The Company provides certain administrative functions and absorbs certain administrative costs on behalf of the Plan.

NOTE 8 – PARTY-IN-INTEREST

Net assets available for benefits include investments managed by the Custodian at December 31, 2016 and 2015. As a result, these assets and all transactions relating to these assets qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA. Fees paid directly by the Plan to the Custodian amounted to $8,891 for the year ended December 31, 2016.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible change in values of investment securities will occur in the near term and such change could materially affect participant's account balances and the amount reported in the statement of net assets available for benefits.

NOTE 10 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in whole or in part subject to the provisions of ERISA. In the event of Plan termination, the Custodian will distribute all assets remaining after payment of any expenses chargeable to the Plan to participants or their beneficiaries in accordance with the Plan's provisions.

NOTE 11 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through the date of the independent auditors' report, the date which the financial statements were available to be issued. No matters affecting the accompanying financial statements were noted.
