1. DESCRIPTION OF PLAN

The following description of HOP Energy, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1996, and restated effective January 1, 2013. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by HOP Energy, LLC (the "Plan Sponsor"). Vanguard Fiduciary Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Nonunion employees of the Plan Sponsor are eligible to participate in the Plan on the first day of the month following their date of hire. Also, certain union employees are eligible to participate in the Plan as defined in the Plan agreement.

Contributions

Participants may contribute an amount not less than 1% but no more than 75% of their compensation, as defined in the Plan agreement, subject to Internal Revenue Service ("IRS") limitations. The Plan provides for an automatic deferral election equal to 2% of compensation for new employees as they become eligible. Participants may elect a different percentage or elect not to make deferral contributions into the Plan. In addition, each year the automatic elective deferral will increase by 1%, up to a maximum of 6% of compensation. Participants may also make rollover contributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a money market fund, and various mutual funds as investment options for participants.

The Plan Sponsor's matching contributions are in an amount equal to 50% of the first 6% of compensation that a participant contributes to the Plan. Plan Sponsor contributions are invested directly in the investment options as directed by the participant. Participants are eligible for matching contributions if they are credited with at least 1,000 hours of service (a "year of service") within the Plan year.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's contributions, the Plan Sponsor's matching contribution, and Plan income or loss. Income and losses are allocated by funds based on the ratio of a participant's account invested in a particular fund to all participants' investment in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. The loans are secured by the balance in the participant's accounts and bear interest at a rate commensurate with market rates for similar loans. For the years ended December 31, 2016 and 2015, interest rates on outstanding loans ranged from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions over a period of five years or less, unless the withdrawal was for the purchase of a primary residence, in which case the period can be extended to 15 years. A participant cannot have more than two loans outstanding at any time.

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Vesting in the Plan Sponsor's matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Years of Service Completed	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Participants who attain the age of 65 while still employed with the Plan Sponsor are 100% vested in the Plan Sponsor's matching contributions.

Payments of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant or participant's beneficiary will be entitled to receive a lump-sum amount equal to the value of the vested interest in the participant's account balance. Participants with a vested account balance of greater than $1,000 who had a severance of employment not due to death may elect to receive their distribution prior to the time they attain age 65. Otherwise, those benefits shall be held by the Trustee and distributed once the participant attains the age of 65. Distributions are subject to the applicable provisions of the Plan agreement.

Forfeited Accounts

Forfeitures of nonvested accounts are available to be used by the Plan Sponsor to reduce future employer matching contributions or to pay for the Plan's administrative expenses.

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $54,399 and $39,343, respectively. Also, in 2016 and 2015, administrative expenses were reduced by $18,050 and $25,335, respectively, from forfeited nonvested accounts.

Administrative Expenses

The Plan is responsible for the payment of administrative expenses. Transaction fees for loan transactions are paid by the participants by reducing the account balances of those participants initiating the transactions. For the years ended December 31, 2016 and 2015, administrative expenses totaled $46,049 and $56,765, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Delinquent participant loans are considered to be deemed distributions and are reclassified as distributions based upon the terms of the plan document. Cumulative deemed distributions amounted to $38,596 and $26,771 as of December 31, 2016 and 2015, respectively.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurement

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Recently Adopted Accounting Pronouncement

In May 2015, FASB issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820) Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share* ("ASU 2015-07"). This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. Investments that are measured at NAV per share (or its equivalent) but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with related required disclosures. The Company elected to early adopt ASU 2015-07 as of December 31, 2015, and has applied ASU 2015-07 retrospectively, as required.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"), which simplifies the required disclosures related to employee benefit plans. Part I eliminated the requirement to measure and disclose the fair value of fully benefit-responsive contracts, including common collective trust assets and pooled separate accounts. Contract value is the only required measure for fully benefit-responsive investment contracts.

Part II eliminated the requirement to disclose individual investments that comprise 5% or more of total net assets available for benefits, as well as the net appreciation or depreciation of fair values by type. Part II also requires plans to continue to disaggregate investments that are measured using fair value by general type. ASU 2015-12 further requires the disclosure of the information about fair value measurements be provided by general type of plan asset. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early adoption permitted.

The Plan elected to early adopt ASU 2015-12 as of December 31, 2015, and has applied the provisions retrospectively, as required.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through July 11, 2017, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in combinations of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the related statements of changes in net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

Assets measured at fair value are based on one or more of the three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by US GAAP's valuation hierarchy as of December 31, 2016 and 2015:

Description	Fair Value at December 31, 2016	Level 1	Level 2	Level 3	Valuation Technique
Investments in fair value hierarchy:					
Mutual funds	$ 32,800,394	$32,800,394	$ -	$ -	(a)
Money market fund	1,406,023	1,406,023	-	-	(a)
Total investments in fair value hierarchy	$ 34,206,417	$34,206,417	$ -	$ -	

Description	Fair Value at December 31, 2015	Level 1	Level 2	Level 3	Valuation Technique
Investments in fair value hierarchy:					
Mutual funds	$ 31,424,502	$31,424,502	$ -	$ -	(a)
Money market fund	1,045,756	1,045,756	-	-	(a)
Total investments in fair value hierarchy	$ 32,470,258	$32,470,258	$ -	$ -	

4. FAIR VALUE MEASUREMENTS (CONTINUED)

In determining fair value, the fair value hierarchy prioritizes the inputs to valuation methods and techniques used to measure fair value. Valuation techniques should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used for the years ended December 31, 2016 and 2015.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2016 and 2015:

Mutual funds - are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Money market fund - shares in the short-term money market fund are valued at cost plus accrued interest, which approximates fair value. Units of this fund can be redeemed on a daily basis at their net asset value and have no redemption restrictions. This fund seeks to invest primarily in short-term U.S. Treasury securities, including repurchase agreements collateralized by U.S. Treasury securities.

5. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2016 and 2015, and for the years then ended, included in the Plan's financial statements and supplementary schedule, that was prepared by, or derived from, information prepared by the Trustee, and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

6. TAX STATUS

The Plan obtained its latest determination letter, dated April 2, 2014, in which the IRS stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC").

6. TAX STATUS (CONTINUED)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

8. RELATED-PARTY TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Plan Sponsor.

Certain investments options consist of shares managed by an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions. Fees paid to such party amounted to $29,609 and $33,860 for the years ended December 31, 2016 and 2015, respectively.
