(1) Description of Plan:

The following brief description of the Quaker Ford Inc. dba Nemer Ford 401(K) Profit Sharing Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 1996 by Quaker Ford Inc. (the "Company") as a defined contribution plan that permits participants to make elective deferrals under the Internal Revenue Code ("IRC") section 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was restated effective August 1, 2016, for the Pension Protection Act of 2006 ("PPA") and other legislative and regulatory changes.

Eligibility – Generally, all employees of the Company are eligible to participate in the Plan upon attaining the age of 21 and completing 1,000 hours of service within one year of employment. Employees covered by a collective bargaining agreement are excluded from eligibility. The Plan was amended on March 31, 2013, June 1, 2013 and August 1, 2016 to add additional affiliated companies, RNPN Management, Co., LLC, J&E Nemer, LLC dba Nemer Insurance Agency, Nemer Transportation Corp dba Nemer Chrysler Dodge, Martin Nemer Volkswagon Corp, and Nemer Chrysler Jeep Dodge Ram of Saratoga, respectively.

Contributions – Eligible employees may contribute between 1% and 75% of their annual eligible compensation on a pre-tax basis, and after-tax (Roth) basis, or a combination of both as defined by the Plan, subject to Internal Revenue Service limitations. Participants who are age 50 or older may elect to defer additional amounts called "catch-up" contributions. Rollover and transfer contributions from another qualified retirement plan or special individual retirement plan are permitted. The Company may make a matching contribution. In addition, the Company may make a discretionary profit sharing contribution based on a participant's compensation to the total eligible compensation of all participants. In order to share in the contribution, eligible participants must be employed on the last day of the plan year. The Company made no matching or discretionary profit sharing contributions in 2016 or 2015. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for the participants.

Participant Accounts – Each participant's account is credited with the participant's contributions and all allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions and earnings or losses thereon. Vesting in the Company's contribution portion of their account is based on years of service. A participant becomes 20% vested after two years of service, with vesting increasing at the rate of 20% each year until fully vested after six years.

Notes to Financial Statements, continued

(1) Description of Plan, continued:

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of their account balance. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 2%. Only one outstanding loan is permitted at a time. Interest rates ranged from 5.25% to 5.50% for the years ended December 31, 2016 and 2015. Principal and interest are paid ratably through weekly payroll deductions.

Withdrawal Privileges – Prior to termination, a participant may withdraw all or any portion of his vested account, excluding earnings on elective deferrals, in the event of undue financial hardship. The participant's request for a withdrawal shall include his statement and documentation proving that such a hardship exists and explain its nature. To qualify as a financial hardship withdrawal it must be determined that the withdrawal is to meet an immediate and financial need of the participant and the amount of the withdrawal is not reasonably available from other sources of the participant. Hardship withdrawals are limited to the following: financial needs arising on account of a college education, purchase of a principal residence, major medical expenses, prevention of eviction or foreclosure, burial or funeral expenses, and damage to a principal residence due to fire, storm or other casualty. The Plan Administrator has established uniform, nondiscriminatory guidelines to use in determining if such a condition of undue financial hardship exists. The Plan Administrator's determination shall be final. The participant has no legal or equitable right to such a withdrawal.

Withdrawal Provisions – The Plan also provides for in-service distributions for participants that have attained age 59 1/2. Such participants will be entitled to receive a distribution of all or a portion of their vested balance, rollover contributions, as well as after-tax contributions.

Payment of Benefits – Upon termination of service, disability, death or retirement, participants may elect to receive a lump sum equal to the value of their accounts. Upon termination of service, the participants may also elect to roll over the funds into an IRA or other retirement account and if the participant's account balance exceeds $5,000 (excluding any rollover contributions plus earnings) he or she may also elect to receive installments or defer receiving payments until age 70 1/2.

Administrative Services – The Plan states that costs incurred in administering the Plan may be paid by the Company, but if not paid by the Company when due, the costs shall be paid from the assets of the Plan.

Forfeitures – Forfeitures of participants' non-vested account balances shall become available to reduce payment of employer contributions or Plan expenses.

(2) Summary of Significant Accounting Policies:

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting in accordance with generally accepted accounting principles.

Notes Receivable from Participants – Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

(2) **Summary of Significant Accounting Policies, continued:**

Use of Estimates – The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Fair Value Measurements" below for discussion of fair value. Notes receivable from participants are valued at cost, which approximates fair value.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned. Security transactions are recorded on a trade-date basis. Gains or losses on sales of securities are based on average cost.

The Plan presents in the statements of changes in net assets available for plan benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Benefit Payment Recognition – Benefits are recorded when paid.

Fair Value Measurements – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;
b. Quoted prices for identical or similar assets or liabilities in inactive markets;
c. Inputs other than quoted prices that are observable for the asset or liability;
d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(2) Summary of Significant Accounting Policies, continued:

Fair Value Measurements, continued – The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price The mutual funds held by the Plan are deemed to be actively traded.

(1) Description of Plan:

The following brief description of the Quaker Ford Inc. dba Nemer Ford 401(K) Profit Sharing Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General – The Plan was established on January 1, 1996 by Quaker Ford Inc. (the "Company") as a defined contribution plan that permits participants to make elective deferrals under the Internal Revenue Code ("IRC") section 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was restated effective August 1, 2016, for the Pension Protection Act of 2006 ("PPA") and other legislative and regulatory changes.

Eligibility – Generally, all employees of the Company are eligible to participate in the Plan upon attaining the age of 21 and completing 1,000 hours of service within one year of employment. Employees covered by a collective bargaining agreement are excluded from eligibility. The Plan was amended on March 31, 2013, June 1, 2013 and August 1, 2016 to add additional affiliated companies, RNPN Management, Co., LLC, J&E Nemer, LLC dba Nemer Insurance Agency, Nemer Transportation Corp dba Nemer Chrysler Dodge, Martin Nemer Volkswagon Corp, and Nemer Chrysler Jeep Dodge Ram of Saratoga, respectively.

Contributions – Eligible employees may contribute between 1% and 75% of their annual eligible compensation on a pre-tax basis, and after-tax (Roth) basis, or a combination of both as defined by the Plan, subject to Internal Revenue Service limitations. Participants who are age 50 or older may elect to defer additional amounts called "catch-up" contributions. Rollover and transfer contributions from another qualified retirement plan or special individual retirement plan are permitted. The Company may make a matching contribution. In addition, the Company may make a discretionary profit sharing contribution based on a participant's compensation to the total eligible compensation of all participants. In order to share in the contribution, eligible participants must be employed on the last day of the plan year. The Company made no matching or discretionary profit sharing contributions in 2016 or 2015. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for the participants.

Participant Accounts – Each participant's account is credited with the participant's contributions and all allocations of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions and earnings or losses thereon. Vesting in the Company's contribution portion of their account is based on years of service. A participant becomes 20% vested after two years of service, with vesting increasing at the rate of 20% each year until fully vested after six years.

Notes to Financial Statements, continued

(1) Description of Plan, continued:

Notes Receivable from Participants – Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of (a) $50,000 or (b) 50% of their account balance. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 2%. Only one outstanding loan is permitted at a time. Interest rates ranged from 5.25% to 5.50% for the years ended December 31, 2016 and 2015. Principal and interest are paid ratably through weekly payroll deductions.

Withdrawal Privileges – Prior to termination, a participant may withdraw all or any portion of his vested account, excluding earnings on elective deferrals, in the event of undue financial hardship. The participant's request for a withdrawal shall include his statement and documentation proving that such a hardship exists and explain its nature. To qualify as a financial hardship withdrawal it must be determined that the withdrawal is to meet an immediate and financial need of the participant and the amount of the withdrawal is not reasonably available from other sources of the participant. Hardship withdrawals are limited to the following: financial needs arising on account of a college education, purchase of a principal residence, major medical expenses, prevention of eviction or foreclosure, burial or funeral expenses, and damage to a principal residence due to fire, storm or other casualty. The Plan Administrator has established uniform, nondiscriminatory guidelines to use in determining if such a condition of undue financial hardship exists. The Plan Administrator's determination shall be final. The participant has no legal or equitable right to such a withdrawal.

Withdrawal Provisions – The Plan also provides for in-service distributions for participants that have attained age 59 1/2. Such participants will be entitled to receive a distribution of all or a portion of their vested balance, rollover contributions, as well as after-tax contributions.

Payment of Benefits – Upon termination of service, disability, death or retirement, participants may elect to receive a lump sum equal to the value of their accounts. Upon termination of service, the participants may also elect to roll over the funds into an IRA or other retirement account and if the participant's account balance exceeds $5,000 (excluding any rollover contributions plus earnings) he or she may also elect to receive installments or defer receiving payments until age 70 1/2.

Administrative Services – The Plan states that costs incurred in administering the Plan may be paid by the Company, but if not paid by the Company when due, the costs shall be paid from the assets of the Plan.

Forfeitures – Forfeitures of participants' non-vested account balances shall become available to reduce payment of employer contributions or Plan expenses.

(2) Summary of Significant Accounting Policies:

Basis of Accounting – The financial statements of the Plan are prepared under the accrual method of accounting in accordance with generally accepted accounting principles.

Notes Receivable from Participants – Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

(2) **Summary of Significant Accounting Policies, continued:**

Use of Estimates – The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Fair Value Measurements" below for discussion of fair value. Notes receivable from participants are valued at cost, which approximates fair value.

Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned. Security transactions are recorded on a trade-date basis. Gains or losses on sales of securities are based on average cost.

The Plan presents in the statements of changes in net assets available for plan benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Benefit Payment Recognition – Benefits are recorded when paid.

Fair Value Measurements – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;
b. Quoted prices for identical or similar assets or liabilities in inactive markets;
c. Inputs other than quoted prices that are observable for the asset or liability;
d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(2) Summary of Significant Accounting Policies, continued:

Fair Value Measurements, continued – The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price The mutual funds held by the Plan are deemed to be actively traded.

The employer shall direct the Trustee to make or commence distribution to, or on behalf of, each participant the value of his or her account balance in the Plan.

(5) Tax Status:

The IRS has determined and informed the Plan sponsor by a letter dated July 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).
