Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

1. Plan Description

The following description of the Vantage Oncology LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a tax qualified defined contribution plan covering substantially all employees of Vantage Oncology LLC and Vantage Oncology Holdings LLC, (collectively the “Plan Sponsor,” the “Company” or “Vantage”). The Plan allows eligible employees to be automatically enrolled to contribute 3% of their pretax annual compensation, unless the participant affirmatively elects otherwise. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Custodial and recordkeeping functions are performed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (“Principal”, “Custodian”). The Plan is administered by the Benefits Committee and the Plan Administrator. A member of management serves as the Plan Trustee.

Transfer of Assets

During the year ended December 31, 2016, the Company was fully acquired by McKesson Corporation (“McKesson”). In conjunction with the acquisition, McKesson resolved to merge the Company’s Plan into the McKesson Corporation Profit-Sharing Investment Plan and into the plan of its subsidiary, US Oncology, Inc. 401(k) Plan, (the “McKesson Plans”) during the 2017 plan year. Effective December 31, 2016, employee and employer contributions to the Plan ceased, with all employer contributions through that date becoming 100% vested. On February 1, 2017, all assets of the Plan were transferred to the McKesson Plans, at which point the Plan ceased to exist.

Contributions

Participants may contribute up to 80% of pretax annual compensation subject to statutory limitations (as defined by the Internal Revenue Code (“IRC”) and subject to annual cost-of-living adjustment). The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans, which are reflected as participants’ rollover contributions in the Statements of Changes in Net Assets Available for Plan Benefits.

Employer match contributions are discretionary; the amount of the contribution, if any, is determined by the Benefits Committee of the Company and for 2016 was 33%. Effective December 31, 2016, employee and employer contributions to the Plan ceased. The Plan does not allocate any match contributions on elective deferrals in excess of 6% of the participant’s eligible compensation. This limit is applied on a cumulative basis each year and a true-up of a participant’s share of the matching contribution occurs as of the last day of the Plan Year.

Participants direct the investments of their contributions and the employer match contributions into various investment options offered by the Plan.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer match contributions, if any, and allocations of the Plan's earnings and charged with allocations of the Plan's gains/losses and with administrative fees associated with loan requests and/or other participant requests. Allocations are based on participant earnings or losses based on the specific investment options selected. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are 100% vested immediately in the amount of their contributions and actual earnings thereon. Vesting in the employer match contribution portion of their accounts, if any, is based on years of continuous service. A participant is 20% vested after two years, 40% vested after three years, 60% vested after four years, 80% vested after five years and 100% vested after six years of credited service. Effective December 31, 2016, employee and employer contributions to the Plan ceased, with all employer contributions through that date becoming 100% vested.

Notes Receivable from Participants

Notes receivable from participants consist of participant loans that are secured by the balance in the participant's account. Participants are permitted to borrow from their fund accounts a maximum amount, equal to the lesser of 50% of the participant's vested account balance or \$50,000, reduced by the highest outstanding loan balance during the previous twelve month period. Participant loans are to be repaid within 5 years, unless the loan is for a principal residence, in which the repayment period must be a reasonable period of time, as determined on the date the loan is made. Participants are allowed to have two outstanding loans at any one time. Participant loans bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Sponsor at the time of the loan. Principal and interest are paid ratably through payroll deductions. As of December 31, 2016, participant loans mature on various dates through October 2026 with interest rates ranging from 4.25% to 8.25%. Effective February 1, 2017, all loans were transferred to the McKesson Plans. Initial loan fees of \$50 and quarterly loan fees of \$12 are deducted from participant accounts for each loan.

Distribution of Benefits

On termination of service due to death, permanent disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in equal installments over a period of time. For termination of service for other reasons, a participant may elect to receive the value of their vested account balance from the Plan. In addition, participants are allowed to take in-service withdrawals upon attainment of age 59 ½. Hardship distributions are also permitted if certain criteria are met.

Participants with an account value of \$1,000 or less who do not elect a distribution will receive a lump-sum distribution of the participant's vested account balance as soon as practicable following termination.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

Following termination, if the participant's vested account balance is greater than \$1,000 but does not exceed \$5,000, the Plan may notify the participant of its intent to automatically rollover the entire balance to a qualified Individual Retirement Account ("IRA"), unless specific distribution instructions are received from the participant within the time frame stated in the notice. The Plan has entered into an agreement with an IRA provider to establish IRAs to receive mandatory distributions from the Plan. For participants with account balances in excess of \$5,000, no distribution will occur until a withdrawal request form is completed. A participant may elect to leave his or her account balance in the Plan, receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or rollover the account to another qualified plan or an IRA. The Plan has a \$350 qualified domestic relations order processing fee and a \$40 fee for all other distributions deducted from participant accounts for each distribution.

Forfeitures

Forfeitures are retained in the Plan and will first be used to pay administrative expenses under the Plan and then to reduce future employer contributions payable under the Plan. As of February 1, 2017 and December 31, 2016 and 2015, forfeitures available were \$0, \$4,085 and \$171, respectively. For the period from January 1, 2017 to February 1, 2017, \$2,960 of forfeiture were used to offset the prior year employer contribution receivable. Forfeitures used to offset employer contributions for the year ended December 31, 2016 were \$66,042. Forfeitures used to offset administrative expenses for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016 were \$1,000 and \$28,477, respectively. Unapplied forfeitures totaling \$9,615 were transferred to the McKesson Plans.

Administrative Expenses

The Plan's expenses are generally paid by the Plan Sponsor as noted in the Plan document, except for charges relating to the processing of loans, and transfers made between funds, which are directly paid by the Plan from each respective participant's account. Total fees paid by the Plan for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016 were \$2,164 and \$46,885, respectively. There is no guarantee that the Plan Sponsor will continue to pay the Plan's expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could materially differ from those estimates.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

Risks and Uncertainties

The Plan provides for various investment options. Such investment options are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan invests in various funds that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid, and their prices more volatile than securities of comparable U.S. companies.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-response investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Management determines the collectability of notes receivable from participants on a periodic basis. This determination is made based on the terms of the Plan document and the related Plan policies and procedures. If notes receivable from participants are deemed to be uncollectible, they are written off and included as benefits paid to participants in the financial statements and deemed distributions in the Form 5500 for financial reporting purposes in the year the determination is made.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized gains and losses, and on the last day of the year with respect to unrealized gains and losses. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Plan Benefits as net appreciation in investments.

**Vantage Oncology LLC
401(k) Plan**

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through July 26, 2017, the date the financial statements were available to be filed and has determined that there were no material events requiring recognition or disclosure.

3. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs to minimize the use of unobservable inputs. The three levels of the fair value hierarchy under ASC 820, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices (unadjusted) active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices include within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 1, 2017 and December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015. There were no investments held as of February 1, 2017.

4. Guaranteed Interest Account with Principal Life Insurance Company

The Principal Life Insurance Company Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company (the "Issuer"). Under the terms of the existing contract, the Composite Crediting Rate is currently reset on a semiannual basis and will never be less than the guaranteed minimum interest rate or 1%.

The Principal Life Insurance Company Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. The average yield earned by the plan is the yield earned (i.e. interest credited) on the group annuity contract. The contract meets the fully benefit-response investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals.

Certain events limit the ability of the Plan to transact at contract value with the Issuer. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

5. Information Certified by the Custodian

The Plan Administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

- Fair value of investments and the contract value of the guaranteed interest account, as reflected in the Statements of Net Assets Available for Plan Benefits as of February 1, 2017 and December 31, 2016 and 2015;
- Notes receivable from participants, as reflected in the Statements of Net Assets Available for Plan Benefits as of February 1, 2017 and December 31, 2016, and 2015;
- Net investment gain and interest income on notes receivable from participants, as reflected in the Statements of Changes in Net Assets Available for Plan Benefits for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016;
- Investment values as disclosed in Note 3.
- Investments and notes receivable from participants, as reflected in Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016.

The Plan sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Tax Status

The Plan adopted the Dataair Employee Benefit Systems Inc., Volume Submitter Profit Sharing Plan with CODA, a prototype plan, on August 21, 2012, which became effective as of September 4, 2012. This prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which stated that the prototype plan is in compliance with applicable sections of the IRC. The Plan has been amended and the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal or state income taxes has been included in the accompanying financial statements.

7. Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its employer match contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, affected participants will become 100% vested in all of their accounts. The Plan Sponsor will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with Plan provisions until all assets have been distributed by the Custodian. On February 1, 2017, all assets of the Plan were transferred to the McKesson Plans, at which point the Plan ceased to exist. See Note 1, for discussion of Plan transfer to the McKesson Plans.

8. Related Party Transactions

Certain Plan investments are managed by the Custodian of the Plan and or affiliates of the Custodian and therefore, these transactions qualify as exempt party-in-interest transactions as defined by ERISA. There were certain transaction fees paid by the Plan to the Custodian for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016. Additionally, notes receivable from participants are considered exempt party-in-interest transactions.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

1. Plan Description

The following description of the Vantage Oncology LLC 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a tax qualified defined contribution plan covering substantially all employees of Vantage Oncology LLC and Vantage Oncology Holdings LLC, (collectively the “Plan Sponsor,” the “Company” or “Vantage”). The Plan allows eligible employees to be automatically enrolled to contribute 3% of their pretax annual compensation, unless the participant affirmatively elects otherwise. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Custodial and recordkeeping functions are performed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (“Principal”, “Custodian”). The Plan is administered by the Benefits Committee and the Plan Administrator. A member of management serves as the Plan Trustee.

Transfer of Assets

During the year ended December 31, 2016, the Company was fully acquired by McKesson Corporation (“McKesson”). In conjunction with the acquisition, McKesson resolved to merge the Company’s Plan into the McKesson Corporation Profit-Sharing Investment Plan and into the plan of its subsidiary, US Oncology, Inc. 401(k) Plan, (the “McKesson Plans”) during the 2017 plan year. Effective December 31, 2016, employee and employer contributions to the Plan ceased, with all employer contributions through that date becoming 100% vested. On February 1, 2017, all assets of the Plan were transferred to the McKesson Plans, at which point the Plan ceased to exist.

Contributions

Participants may contribute up to 80% of pretax annual compensation subject to statutory limitations (as defined by the Internal Revenue Code (“IRC”) and subject to annual cost-of-living adjustment). The Plan allows participants age 50 and older to make additional salary deferrals (referred to as employee catch-up contributions), subject to legal limits. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans, which are reflected as participants’ rollover contributions in the Statements of Changes in Net Assets Available for Plan Benefits.

Employer match contributions are discretionary; the amount of the contribution, if any, is determined by the Benefits Committee of the Company and for 2016 was 33%. Effective December 31, 2016, employee and employer contributions to the Plan ceased. The Plan does not allocate any match contributions on elective deferrals in excess of 6% of the participant’s eligible compensation. This limit is applied on a cumulative basis each year and a true-up of a participant’s share of the matching contribution occurs as of the last day of the Plan Year.

Participants direct the investments of their contributions and the employer match contributions into various investment options offered by the Plan.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contributions, the employer match contributions, if any, and allocations of the Plan's earnings and charged with allocations of the Plan's gains/losses and with administrative fees associated with loan requests and/or other participant requests. Allocations are based on participant earnings or losses based on the specific investment options selected. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are 100% vested immediately in the amount of their contributions and actual earnings thereon. Vesting in the employer match contribution portion of their accounts, if any, is based on years of continuous service. A participant is 20% vested after two years, 40% vested after three years, 60% vested after four years, 80% vested after five years and 100% vested after six years of credited service. Effective December 31, 2016, employee and employer contributions to the Plan ceased, with all employer contributions through that date becoming 100% vested.

Notes Receivable from Participants

Notes receivable from participants consist of participant loans that are secured by the balance in the participant's account. Participants are permitted to borrow from their fund accounts a maximum amount, equal to the lesser of 50% of the participant's vested account balance or \$50,000, reduced by the highest outstanding loan balance during the previous twelve month period. Participant loans are to be repaid within 5 years, unless the loan is for a principal residence, in which the repayment period must be a reasonable period of time, as determined on the date the loan is made. Participants are allowed to have two outstanding loans at any one time. Participant loans bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Sponsor at the time of the loan. Principal and interest are paid ratably through payroll deductions. As of December 31, 2016, participant loans mature on various dates through October 2026 with interest rates ranging from 4.25% to 8.25%. Effective February 1, 2017, all loans were transferred to the McKesson Plans. Initial loan fees of \$50 and quarterly loan fees of \$12 are deducted from participant accounts for each loan.

Distribution of Benefits

On termination of service due to death, permanent disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in equal installments over a period of time. For termination of service for other reasons, a participant may elect to receive the value of their vested account balance from the Plan. In addition, participants are allowed to take in-service withdrawals upon attainment of age 59 ½. Hardship distributions are also permitted if certain criteria are met.

Participants with an account value of \$1,000 or less who do not elect a distribution will receive a lump-sum distribution of the participant's vested account balance as soon as practicable following termination.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

Following termination, if the participant's vested account balance is greater than \$1,000 but does not exceed \$5,000, the Plan may notify the participant of its intent to automatically rollover the entire balance to a qualified Individual Retirement Account ("IRA"), unless specific distribution instructions are received from the participant within the time frame stated in the notice. The Plan has entered into an agreement with an IRA provider to establish IRAs to receive mandatory distributions from the Plan. For participants with account balances in excess of \$5,000, no distribution will occur until a withdrawal request form is completed. A participant may elect to leave his or her account balance in the Plan, receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or rollover the account to another qualified plan or an IRA. The Plan has a \$350 qualified domestic relations order processing fee and a \$40 fee for all other distributions deducted from participant accounts for each distribution.

Forfeitures

Forfeitures are retained in the Plan and will first be used to pay administrative expenses under the Plan and then to reduce future employer contributions payable under the Plan. As of February 1, 2017 and December 31, 2016 and 2015, forfeitures available were \$0, \$4,085 and \$171, respectively. For the period from January 1, 2017 to February 1, 2017, \$2,960 of forfeiture were used to offset the prior year employer contribution receivable. Forfeitures used to offset employer contributions for the year ended December 31, 2016 were \$66,042. Forfeitures used to offset administrative expenses for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016 were \$1,000 and \$28,477, respectively. Unapplied forfeitures totaling \$9,615 were transferred to the McKesson Plans.

Administrative Expenses

The Plan's expenses are generally paid by the Plan Sponsor as noted in the Plan document, except for charges relating to the processing of loans, and transfers made between funds, which are directly paid by the Plan from each respective participant's account. Total fees paid by the Plan for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016 were \$2,164 and \$46,885, respectively. There is no guarantee that the Plan Sponsor will continue to pay the Plan's expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could materially differ from those estimates.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

Risks and Uncertainties

The Plan provides for various investment options. Such investment options are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan invests in various funds that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid, and their prices more volatile than securities of comparable U.S. companies.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-response investment contract which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Management determines the collectability of notes receivable from participants on a periodic basis. This determination is made based on the terms of the Plan document and the related Plan policies and procedures. If notes receivable from participants are deemed to be uncollectible, they are written off and included as benefits paid to participants in the financial statements and deemed distributions in the Form 5500 for financial reporting purposes in the year the determination is made.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized gains and losses, and on the last day of the year with respect to unrealized gains and losses. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Plan Benefits as net appreciation in investments.

**Vantage Oncology LLC
401(k) Plan**

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through July 26, 2017, the date the financial statements were available to be filed and has determined that there were no material events requiring recognition or disclosure.

3. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). Valuation techniques maximize the use of relevant observable inputs to minimize the use of unobservable inputs. The three levels of the fair value hierarchy under ASC 820, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices (unadjusted) active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices include within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at February 1, 2017 and December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015. There were no investments held as of February 1, 2017.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Plan Benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016, and 2015, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan. There were no investments held as of February 1, 2017.

4. Guaranteed Interest Account with Principal Life Insurance Company

The Principal Life Insurance Company Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company (the "Issuer"). Under the terms of the existing contract, the Composite Crediting Rate is currently reset on a semiannual basis and will never be less than the guaranteed minimum interest rate or 1%.

The Principal Life Insurance Company Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. The average yield earned by the plan is the yield earned (i.e. interest credited) on the group annuity contract. The contract meets the fully benefit-response investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals.

Certain events limit the ability of the Plan to transact at contract value with the Issuer. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

5. Information Certified by the Custodian

The Plan Administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

Vantage Oncology LLC 401(k) Plan

Notes to Financial Statements

- Fair value of investments and the contract value of the guaranteed interest account, as reflected in the Statements of Net Assets Available for Plan Benefits as of February 1, 2017 and December 31, 2016 and 2015;
- Notes receivable from participants, as reflected in the Statements of Net Assets Available for Plan Benefits as of February 1, 2017 and December 31, 2016, and 2015;
- Net investment gain and interest income on notes receivable from participants, as reflected in the Statements of Changes in Net Assets Available for Plan Benefits for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016;
- Investment values as disclosed in Note 3.
- Investments and notes receivable from participants, as reflected in Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016.

The Plan sponsor instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Tax Status

The Plan adopted the Dataair Employee Benefit Systems Inc., Volume Submitter Profit Sharing Plan with CODA, a prototype plan, on August 21, 2012, which became effective as of September 4, 2012. This prototype plan received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, which stated that the prototype plan is in compliance with applicable sections of the IRC. The Plan has been amended and the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for federal or state income taxes has been included in the accompanying financial statements.

7. Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its employer match contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, affected participants will become 100% vested in all of their accounts. The Plan Sponsor will facilitate the distribution of account balances in single lump sum payments to each participant in accordance with Plan provisions until all assets have been distributed by the Custodian. On February 1, 2017, all assets of the Plan were transferred to the McKesson Plans, at which point the Plan ceased to exist. See Note 1, for discussion of Plan transfer to the McKesson Plans.

8. Related Party Transactions

Certain Plan investments are managed by the Custodian of the Plan and or affiliates of the Custodian and therefore, these transactions qualify as exempt party-in-interest transactions as defined by ERISA. There were certain transaction fees paid by the Plan to the Custodian for the period from January 1, 2017 to February 1, 2017 and for the year ended December 31, 2016. Additionally, notes receivable from participants are considered exempt party-in-interest transactions.
