NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the *PGI International, Ltd. 401(k) Retirement Plan* (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of the Plan

General

PGI International, Ltd. (the “Company”) adopted the Plan to provide retirement benefits for all eligible employees of the Company. The Company acquired Drilling Production and Resources, Inc. (“DPR”) in September 2011. Employees of DPR were eligible for the Plan effective January 1, 2012. The Plan was a defined contribution plan covering all full-time employees of the Company who had six months of service and were age 21 or older. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

On November 1, 2012 the Company was acquired by Parker Hannifin Corporation (“Parker Hannifin”). As part of the acquisition, Parker Hannifin became sponsor of the Plan effective with the purchase date. The Plan was merged into the Parker Hannifin defined contribution plan effective January 1, 2013 and all participants became 100% vested on that date. Assets from the Plan were transferred into the Parker Hannifin plan on April 11, 2013.

Contributions

Through December 31, 2012, the Plan allowed for pre-tax employee contributions up to 60% of compensation, as defined in the Plan agreement. The Plan allowed discretionary employer matching contributions and discretionary nonelective employer contributions. Nonelective employer contributions were allocated to participants’ accounts based on the ratio the participant’s compensation to the total compensation of all participants. Only participants who were employed on the last day of the Plan year and who had completed 1,000 hours of service or who died, retired or became disabled during the Plan year were eligible to receive an allocation of nonelective employer contributions. No contributions were made to the Plan in 2013 as participant and employer contributions for the Plan’s participants were made to accounts in the Parker Hannifin plan.

Participant Accounts

Each participant’s account was credited with the participant’s contributions, an allocation of the employer contributions and an allocation of the Plan’s earnings and losses. Plan earnings and losses were allocated to the participants’ accounts based on the investment options selected by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested balance.

NOTES TO FINANCIAL STATEMENTS

Vesting

Participants were fully vested in all employee contributions and earnings thereon. Prior to the Plan merger, the Company's contributions vested at 20% after two years of service and vested at 20% each year thereafter, becoming fully vested after six years of service. Participants also became fully vested in their account balances upon disability, death, termination of the Plan or attainment of age 65.

Notes Receivable from Participants

Participants were allowed to borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The duration of the loan could not exceed five years (ten years if for the purchase of a primary residence). A participant could not have more than one loan outstanding at a time. The loans were secured by the balance in the participant's account and bore interest (ranging from 4.25% to 11.50%), at a rate that was commensurate with commercially reasonable rates at the inception of the loans, as determined by the Plan administrator (4.25% at April 11, 2013). Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

Participants were eligible to receive the vested portion of their account balance as a lump-sum distribution upon retirement, termination of employment, disability, or attainment of age 59 1/2. Employee contributions were allowed to be withdrawn at any time. Hardship distributions were allowed from a participant's elective contributions in certain circumstances, subject to a minimum of \$500.

Forfeitures

Forfeitures were used to reduce employer contributions and then used to pay administrative fees. There were \$5,230 in forfeitures during 2013. Forfeiture balances of \$17,804 were transferred to the Parker Hannifin plan. Balances totalling \$24,570 were available at December 31, 2012 to reduce future employer contributions or to pay administrative fees.

Plan Expenses

The Plan's administrative expenses were paid either by the Plan or the Company, as provided by the Plan document. Certain administrative expenses, including an allocation of salaries related to Plan administration, and audit and legal costs, were paid by the Company and qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Expenses that were paid directly by the Company are excluded from these financial statements. Fees for custodial and record keeping services were paid by the Plan. Participants were charged directly for loan fees and fees related to certain distribution types.

Administration

The Plan was administered by Fidelity Management Trust Company ("Fidelity"), who served as the asset custodian and recordkeeper of the Plan.

NOTES TO FINANCIAL STATEMENTS

Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contracts. The 2012 statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to use estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determined the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the period.

Management fees and operating expenses charged to the Plan for investments in mutual funds were deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation in fair value of such investments.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Payment of Benefits

Benefits are recorded when paid.

PGI INTERNATIONAL, LTD 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of April 11, 2013 or December 31, 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to April 11, 2013, the most recent statement of net assets available for benefits presented herein, through July 17, 2017, the date these financial statements were available to be issued. No significant such events or transactions of this nature were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, as custodian, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of April 11, 2013 and December 31, 2012, (2) the related investment activity reflected in the statement of changes in net assets available for benefits during 2013 and (3) the information presented in Note 4. Fidelity has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of April 11, 2013 and December 31, 2012 and for the period from January 1, 2013 to April 11, 2013.

Investments representing 5% or more of the Plan's net assets available for benefits are as follows at December 31, 2012:

Investments at fair value

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy of each of the Plan's assets or liabilities is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodology used at April 11, 2013 and December 31, 2012.

Common/collective trust: Valued at the net asset value ("NAV") of units of a collective trust and are classified as Level 2. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The investment objective of this fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit responsive payments.

PGI INTERNATIONAL, LTD 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the NAV of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012:

	Level 1	Level 2	Level 3	Total
Common/collective trust				
Fixed income	\$ -	\$ 2,269,213	\$ -	\$ 2,269,213

Total assets at fair value	\$ 6,573,567	\$ 2,269,213	\$ -	\$ 8,842,780

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	Fair Value		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2013	2012			
Common collective trust	\$ -	\$ 2,269,213	\$ -	Daily	30 days

4. COMMON/COLLECTIVE TRUST

The Plan maintained a fully benefit-responsive investment contract with the asset custodian. The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds. The account was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. The contract was included in the financial statements at fair value as reported to the Plan by the asset custodian. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

PGI INTERNATIONAL, LTD 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield was approximately 1.39% and 1.69% for 2013 and 2012, respectively. At December 31, 2012, the crediting interest rate was 1.11%.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in funds managed by Fidelity. Transactions in such mutual funds and the common/collective trust qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees paid by the Plan for the custodial and record keeping services amounted to \$625 for 2013. Fees paid by the Plan for investment management services are included as reductions of net appreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payments.

6. INCOME TAX STATUS

The Company adopted the Fidelity Volume Submitter Plan, a master prototype plan, which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan was amended subsequent to the date of the opinion letter and did not apply for a separate determination letter. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of April 11, 2013, there are no uncertain income tax positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in these financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.
