NOTE 1 - PLAN DESCRIPTION

The Sargent & Lundy, L.L.C. Savings Investment Plan ("the Plan") is a defined contribution plan covering all eligible employees, as defined, of Sargent & Lundy, L.L.C.; S&L Engineers, Ltd.; Sargent & Lundy Illinois, Incorporated (dissolved as of December 31, 2016); Sargent & Lundy Enterprises, L.L.C. (dissolved as of December 31, 2016) ; Sargent & Lundy Texas, L.L.C. (dissolved as of December 31, 2016) ; Sargent & Lundy International, Incorporated; Sargent & Lundy Canada Company; S&L Powers Projects, L.L.C. (dissolved as of December 31, 2015); and Sargent & Lundy Pacific, Limited (dissolved as of December 31, 2013) (collectively, "the Company"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. A further description of the Plan can be obtained from the plan document.

Contributions: Participants may make pretax and after-tax contributions subject to a combined maximum of the limits as defined in the plan document. Contributions are subject to the contribution limitations of the Internal Revenue Code ("IRC"). Absent an election in the first 60 days of employment, newly hired full-time employees will be automatically enrolled in the Plan at a pretax contribution rate of 6% of eligible compensation. The Plan has also adopted a contribution escalation clause which provides that, unless declined, each impacted participant who is contributing less than 10% of compensation to the Plan shall be deemed to have elected to increase his or her contribution percentage by 1% on each April 1, until the rate reaches 10% of compensation.

The Company contributes 50% of the first 6% of base compensation that an eligible participant contributes to the Plan. Additionally, the Company may make a discretionary contribution (non-matching contributions) to active eligible employees participating in the Plan. During 2016, the Company made a discretionary contribution of 3% of base compensation.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of the Company's contribution (if eligible), investment earnings, and charged with his or her withdrawals and any applicable transaction fees. The benefit to which a participant is entitled is the participant's vested account balances.

Notes Receivable from Participants: Participants may obtain loans from plan assets based on individual account balances not to exceed the lesser of $50,000 or one half of their vested balance. Interest is charged at the U.S. prime rate, as quoted by the *Reuters News Service* as of the first day of the month in which the note is requested, plus 1 percentage point. The rate is fixed for the term of the note. Principal and interest payments over a period from 12 to 60 months are due semi-monthly for active full-time employees and monthly for terminated and temporary employees.

Vesting: Participants are immediately fully vested in participant contributions and fully vested in all employer contributions after one year of service.

Forfeited Accounts: The non-vested portion of terminated participant accounts are forfeited and may be used to reduce future company contributions, reduce plan expenses, or pay for new services.

Investment Options: Employees can choose any investment fund option offered or individual security investments (through a brokerage account option) to allocate their account balances. The Stable Value Fund, arranged through Fidelity Management Trust Company ("Fidelity") specifically for the Company, is composed of fixed income-type investments, such as individual and commingled guaranteed investment contracts, which are structured to yield a stable positive rate of return. The contributions made by each participant, as well as Company contributions, are allocated to investments based on elections made by the participant or to a default fund if no election is made.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Payment of Benefits: On termination of service, a participant may elect to remain in the Plan or choose from a number of distribution or loan options (some restrictions may apply). These options also apply to the beneficiary of a deceased participant.

Administration of the Plan and Trust: The Plan is administered by the Sargent & Lundy, L.L.C. Savings Investment Plan Committee. The trust created by the Plan is administered by the trustee, Fidelity. Trustee fees, legal expenses, and various other costs incurred in connection with the administration of the Plan may be paid by the Company or from the trust fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are stated at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount plan participants generally receive when executing transactions under the terms of the contract and plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility risks. Due to the level of risk and uncertainty associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the participants' individual account balances.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes: Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized upon examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and common stocks: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

*Collective trusts***:** The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share with no advance notice requirements.

*Self-directed brokerage accounts***:** These primarily consist of mutual funds, common stocks, and interest-bearing cash, measured at fair value as described for these general investment types within this note.

Interest-bearing cash: Fair values of money market accounts and savings deposit accounts are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

basis are summarized below:

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds fully benefit-responsive investment contracts that are reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of the Plan's fully benefit-responsive investment contracts, by general type, are presented below:

	2016	2015
Synthetic investment contracts	$ 161,456,775	$ 158,677,413
Total investments at contract value	$ 161,456,775	$ 158,677,413

The synthetic investment contracts held by the Plan include wrap contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets.

The contracts specify certain conditions under which distributions from the contracts would be payable at amounts below contract value. Such circumstances include, but are not limited to, plan termination, plan merger, premature contract termination initiated by the employer, and certain other employer-initiated events, such as a sale of a division, office closure, or layoff that results in distributions exceeding a set amount. The contracts limit the circumstances under which the Issuers may terminate the contracts.

(Continued)

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (Continued)

Examples of circumstances which would allow the Issuer to terminate the contracts include: the Plan's loss of its qualified status, uncured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuers could terminate the contracts at amounts less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 19, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with requirement of the IRC.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

Certain plan investments are managed by Fidelity Management Trust Company, the Plan's trustee, or are shares of mutual funds offered by Fidelity Investments, an affiliate of the Plan's trustee. Accordingly, these investments qualify as party-in-interest investments. Investment management and trustee fees are paid by the Plan and these expenses are reflected in the financial statements as a reduction of the return on the Plan's investments.

Participants in the Plan are permitted to borrow funds from their vested balance as described in Note 1. These assets qualify as party-in-interest transactions. Notes receivable from participants were $7,435,520 and $7,759,075 at December 31, 2016 and 2015, respectively.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants continue to be 100% vested in their accounts.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through July 27, 2017, which is the date the financial statements were available to be issued.

NOTE 1 - PLAN DESCRIPTION

The Sargent & Lundy, L.L.C. Savings Investment Plan ("the Plan") is a defined contribution plan covering all eligible employees, as defined, of Sargent & Lundy, L.L.C.; S&L Engineers, Ltd.; Sargent & Lundy Illinois, Incorporated (dissolved as of December 31, 2016); Sargent & Lundy Enterprises, L.L.C. (dissolved as of December 31, 2016) ; Sargent & Lundy Texas, L.L.C. (dissolved as of December 31, 2016) ; Sargent & Lundy International, Incorporated; Sargent & Lundy Canada Company; S&L Powers Projects, L.L.C. (dissolved as of December 31, 2015); and Sargent & Lundy Pacific, Limited (dissolved as of December 31, 2013) (collectively, "the Company"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. A further description of the Plan can be obtained from the plan document.

Contributions: Participants may make pretax and after-tax contributions subject to a combined maximum of the limits as defined in the plan document. Contributions are subject to the contribution limitations of the Internal Revenue Code ("IRC"). Absent an election in the first 60 days of employment, newly hired full-time employees will be automatically enrolled in the Plan at a pretax contribution rate of 6% of eligible compensation. The Plan has also adopted a contribution escalation clause which provides that, unless declined, each impacted participant who is contributing less than 10% of compensation to the Plan shall be deemed to have elected to increase his or her contribution percentage by 1% on each April 1, until the rate reaches 10% of compensation.

The Company contributes 50% of the first 6% of base compensation that an eligible participant contributes to the Plan. Additionally, the Company may make a discretionary contribution (non-matching contributions) to active eligible employees participating in the Plan. During 2016, the Company made a discretionary contribution of 3% of base compensation.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of the Company's contribution (if eligible), investment earnings, and charged with his or her withdrawals and any applicable transaction fees. The benefit to which a participant is entitled is the participant's vested account balances.

Notes Receivable from Participants: Participants may obtain loans from plan assets based on individual account balances not to exceed the lesser of $50,000 or one half of their vested balance. Interest is charged at the U.S. prime rate, as quoted by the *Reuters News Service* as of the first day of the month in which the note is requested, plus 1 percentage point. The rate is fixed for the term of the note. Principal and interest payments over a period from 12 to 60 months are due semi-monthly for active full-time employees and monthly for terminated and temporary employees.

Vesting: Participants are immediately fully vested in participant contributions and fully vested in all employer contributions after one year of service.

Forfeited Accounts: The non-vested portion of terminated participant accounts are forfeited and may be used to reduce future company contributions, reduce plan expenses, or pay for new services.

Investment Options: Employees can choose any investment fund option offered or individual security investments (through a brokerage account option) to allocate their account balances. The Stable Value Fund, arranged through Fidelity Management Trust Company ("Fidelity") specifically for the Company, is composed of fixed income-type investments, such as individual and commingled guaranteed investment contracts, which are structured to yield a stable positive rate of return. The contributions made by each participant, as well as Company contributions, are allocated to investments based on elections made by the participant or to a default fund if no election is made.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Payment of Benefits: On termination of service, a participant may elect to remain in the Plan or choose from a number of distribution or loan options (some restrictions may apply). These options also apply to the beneficiary of a deceased participant.

Administration of the Plan and Trust: The Plan is administered by the Sargent & Lundy, L.L.C. Savings Investment Plan Committee. The trust created by the Plan is administered by the trustee, Fidelity. Trustee fees, legal expenses, and various other costs incurred in connection with the administration of the Plan may be paid by the Company or from the trust fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments, other than fully benefit-responsive investment contracts, are stated at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount plan participants generally receive when executing transactions under the terms of the contract and plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, liquidity and overall market volatility risks. Due to the level of risk and uncertainty associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the participants' individual account balances.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes: Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. A tax position is recognized as a benefit only if it is "more likely than not" that the tax position would be sustained in a tax examination, with a tax examination presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized upon examination. For tax positions not meeting the "more likely than not" test, no tax benefit is recorded.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and common stocks: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

*Collective trusts***:** The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share with no advance notice requirements.

*Self-directed brokerage accounts***:** These primarily consist of mutual funds, common stocks, and interest-bearing cash, measured at fair value as described for these general investment types within this note.

Interest-bearing cash: Fair values of money market accounts and savings deposit accounts are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

basis are summarized below:

	Fair Value Measurements at December 31, 2016, Using

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan holds fully benefit-responsive investment contracts that are reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of the Plan's fully benefit-responsive investment contracts, by general type, are presented below:

	2016	2015
Synthetic investment contracts	$ 161,456,775	$ 158,677,413
Total investments at contract value	$ 161,456,775	$ 158,677,413

The synthetic investment contracts held by the Plan include wrap contracts that provide a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets.

The contracts specify certain conditions under which distributions from the contracts would be payable at amounts below contract value. Such circumstances include, but are not limited to, plan termination, plan merger, premature contract termination initiated by the employer, and certain other employer-initiated events, such as a sale of a division, office closure, or layoff that results in distributions exceeding a set amount. The contracts limit the circumstances under which the Issuers may terminate the contracts.

(Continued)

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (Continued)

Examples of circumstances which would allow the Issuer to terminate the contracts include: the Plan's loss of its qualified status, uncured material breaches of responsibilities or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuers could terminate the contracts at amounts less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 19, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with requirement of the IRC.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others.

Certain plan investments are managed by Fidelity Management Trust Company, the Plan's trustee, or are shares of mutual funds offered by Fidelity Investments, an affiliate of the Plan's trustee. Accordingly, these investments qualify as party-in-interest investments. Investment management and trustee fees are paid by the Plan and these expenses are reflected in the financial statements as a reduction of the return on the Plan's investments.

Participants in the Plan are permitted to borrow funds from their vested balance as described in Note 1. These assets qualify as party-in-interest transactions. Notes receivable from participants were $7,435,520 and $7,759,075 at December 31, 2016 and 2015, respectively.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants continue to be 100% vested in their accounts.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through July 27, 2017, which is the date the financial statements were available to be issued.
