Tax Deferred Annuity Plan**

Notes to Financial Statements
December 31, 2016

1. Description of Plan

The following description of The Foundation Center Tax Deferred Annuity Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan description for a more complete description of the Plan's provisions.

General

The Plan is a tax deferred annuity plan which is available to all the employees of the Foundation Center (the "Center" or "Employer"). Participation is voluntary and employees may enroll in the Plan at any time during their employment with the Center. There is no special age or service requirements that need to be satisfied. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each calendar year, a plan participant may contribute an amount equal to or less than the Internal Revenue Code ("IRC") Section 402(g)(1) elective deferral limit. A plan participant who has attained age 50 or greater by December 31 may contribute an additional amount equal to or less than the IRC Section 414(v)(2) limit. No after-tax contributions may be made to this Plan. Compensation is defined as a participant's base annual salary and excludes all or any portion of irregular or additional compensation including, but not limited to, any type of additional work performed outside their regular tour of duty, overtime, bonuses, and stipends. Compensation also excludes reimbursements, deferred compensation and welfare benefits. In no event, however, will compensation in excess of a maximum set by the Internal Revenue Service each year be considered under the Plan.

Vesting

Participants are always fully and immediately vested in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Plan earnings on his or her specific investments. Allocations of plan earnings are based on each participant's account balance. The benefit to which a participant is entitled is the amount accumulated in the participant's account.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reason, a participant is entitled to receive a distribution in the amount equal to the value of the participant's interest in his or her account.

1. Description of Plan (*continued*)

Loans to a Participant/Collateralized Assets

A participant may elect to take out a loan subject to the rules and limitations of the Plan and the terms of the applicable contract. Loans are limited to voluntary and rollover contributions, and only one loan may be made in any twelve consecutive month period. Defaults in loans are treated as distributions at the time of default against the participant's account.

The Plan offers a loan feature whereby a participant (borrower) enrolled in the Plan may borrow a minimum of \$1,000 up to a maximum of 50% of his/her vested balance or \$50,000 (whichever is less). Loans to the participant are made directly from Teacher's Insurance and Annuity Association of America and College Retirement Equities Fund ("TIAA-CREF"). The participant's account is not reduced by the loan amount, but is security for the loan. The loan amount is moved into a fixed income collateral account within the borrower's account. The loan must be repaid directly to TIAA-CREF within a five year period in substantially equal payments (not less frequently than quarterly). The five year repayment period will not apply to a loan that is used to acquire a principal residence of the borrower. If the borrower does not repay the loan and related interest due in accordance with the schedule set forth in the promissory note or other writing permitted by applicable law representing the loan, their loan will be deemed in default.

At both December 31, 2016 and 2015, there were 19 and 21 loans outstanding with total principal balances due of \$83,735 and \$112,137, which also represents a collateralization of participant accounts. Of these loan balances, \$8,267 and \$7,917 were deemed distributed as of December 31, 2016 and 2015. Interest rates on these loans ranged from 4.00% to 5.68% with maturities through March 2021.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

Tax Deferred Annuity Plan**

2. Summary of Significant Accounting Policies (*continued*)

Investment Valuation and Income Recognition

The TIAA Traditional Annuity Account is an unallocated contract. Contract value for the TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers in (if any), less any withdrawals and transfers out (if any). The fair value is derived from a discounted cash flow analysis and other factors. Investments in registered investment companies are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the plan at year end. Investments in pooled separate accounts are reported at the value reported to the Plan by TIAA-CREF, which represents the fair value of the underlying investments comprising the accounts. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of the Plan are deducted from the value of the participants' assets and certain expenses are paid by the Employer on behalf of the Plan. Expenses relating to investment management are paid directly by the representative investment vehicle and are included as a reduction to net appreciation in fair value of investments.

Accounting for Uncertainty in Income Taxes

The Plan recognizes the effect of income tax positions only if these positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to December 31, 2013.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is July 24, 2017.

3. Information Certified (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, TIAA-CREF, has certified to the completeness and accuracy of all the investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016 and the supplemental Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016.

The table below sets forth the summary of changes in fair value of the Plan's level 3 assets for 2016:

Balance, beginning of the year	\$ 310,309
Contributions	-
Interest income	14,780
Benefit payments	(11,685)
Transfers in from other Plan investments	10,362
Transfers out to other Plan investments	-
Balance at end of year	<u>\$ 323,766</u>

The TIAA Traditional Annuity is comprised of six types of contracts. The fully benefit responsive contracts are: the Group Supplemental Retirement Annuity ("GSRA"), the Supplemental Retirement Annuity ("SRA"), and the Retirement Choice Plus contracts. The non benefit responsive contracts are: the Group Retirement Annuity, Retirement Annuity ("RA") and Retirement Choice contracts. The Plan utilizes the GSRA and SRA contracts which are reported at contract value and the RA contract which is reported at fair value. Unobservable inputs include the risk-adjusted discount rate applied and the range of significant input values are as follows: GSRA – 3.00% - 4.25%; SRA – 3.00% - 4.25%; and RA – 3.50%-5.00%.

**The Foundation Center
Tax Deferred Annuity Plan**

Notes to Financial Statements
December 31, 2016

4. Investments (*continued*)

Under GSRA and SRA contracts, lump-sum withdrawals and transfers can be done at any time without any restrictions or charges. Under the RA contract, lump-sum cash withdrawals are not allowed and transfers must be paid in ten annual installments.

The contracts use the vintage method to credit interest to the TIAA Traditional Annuity Account. Vintages are time periods that represent when money was initially invested in the TIAA Traditional Annuity Account and corresponding interest rate during that distinct time period. The Vintage method recognizes the fact that the level of prevailing interest rates available on new long-term investments will vary over time and that as the long-term investments in a specific vintage mature, they will be reinvested at different rates. When funds flow into the TIAA Traditional Annuity Account, they are immediately invested at the prevailing pay-in rate for new money. The funds earn interest at the prevailing vintage rates. The vintage will always consist of two parts: the guaranteed portion and the discretionary portion. The guaranteed portion represents the minimum amount of interest that will be credited to an account, regardless of the economic environment. The discretionary portion represents interest earned over and above the guaranteed rate.

The TIAA Traditional Annuity Account represents approximately 31% and 30% of the Plan's net assets available for benefits, as of December 31, 2016 and 2015, and represents an obligation of TIAA-CREF to repay as amounts come due. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (Aa1 as of February 2017), Standard and Poor's (AA+ as of November 2016), A.M. Best Company (A++ as of August 2016), and Fitch (AAA as of February 2017). The plan administrator does not believe that any events would limit the Plan's ability to transact at contract value.

5. Plan Termination

Although it has not expressed any interest to do so, the Center has the right under the Plan to terminate the Plan subject to the provision of ERISA.

6. Tax Status

The Plan has been amended since its original effective date to satisfy the Internal Revenue Service's final 403(b) regulations. The plan administrator believes that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code") and is currently being operated in compliance with the applicable requirements of the Code.

7. Party-in-Interest

All investments are managed by TIAA-CREF, the Plan's record-keeper. Accordingly, these transactions are considered party-in-interest transactions.

Certain employees of the Center may also participate in the Plan or perform administrative services to the Plan at no cost to the Plan.

**The Foundation Center
Tax Deferred Annuity Plan**

Notes to Financial Statements
December 31, 2016

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

A plan participant who has attained age 50 or greater by December 31 may contribute an additional amount equal to or less than the IRC Section 414(v)(2) limit. No after-tax contributions may be made to this Plan. Compensation is defined as a participant's base annual salary and excludes all or any portion of irregular or additional compensation including, but not limited to, any type of additional work performed outside their regular tour of duty, overtime, bonuses, and stipends. Compensation also excludes reimbursements, deferred compensation and welfare benefits. In no event, however, will compensation in excess of a maximum set by the Internal Revenue Service each year be considered under the Plan.

Vesting

Participants are always fully and immediately vested in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Plan earnings on his or her specific investments. Allocations of plan earnings are based on each participant's account balance. The benefit to which a participant is entitled is the amount accumulated in the participant's account.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reason, a participant is entitled to receive a distribution in the amount equal to the value of the participant's interest in his or her account.

1. Description of Plan (*continued*)

Loans to a Participant/Collateralized Assets

A participant may elect to take out a loan subject to the rules and limitations of the Plan and the terms of the applicable contract. Loans are limited to voluntary and rollover contributions, and only one loan may be made in any twelve consecutive month period. Defaults in loans are treated as distributions at the time of default against the participant's account.

The Plan offers a loan feature whereby a participant (borrower) enrolled in the Plan may borrow a minimum of \$1,000 up to a maximum of 50% of his/her vested balance or \$50,000 (whichever is less). Loans to the participant are made directly from Teacher's Insurance and Annuity Association of America and College Retirement Equities Fund ("TIAA-CREF"). The participant's account is not reduced by the loan amount, but is security for the loan. The loan amount is moved into a fixed income collateral account within the borrower's account. The loan must be repaid directly to TIAA-CREF within a five year period in substantially equal payments (not less frequently than quarterly). The five year repayment period will not apply to a loan that is used to acquire a principal residence of the borrower. If the borrower does not repay the loan and related interest due in accordance with the schedule set forth in the promissory note or other writing permitted by applicable law representing the loan, their loan will be deemed in default.

At both December 31, 2016 and 2015, there were 19 and 21 loans outstanding with total principal balances due of \$83,735 and \$112,137, which also represents a collateralization of participant accounts. Of these loan balances, \$8,267 and \$7,917 were deemed distributed as of December 31, 2016 and 2015. Interest rates on these loans ranged from 4.00% to 5.68% with maturities through March 2021.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"), which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on *Fair Value Measurements* which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 inputs have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

2. Summary of Significant Accounting Policies (*continued*)

Investment Valuation and Income Recognition

The TIAA Traditional Annuity Account is an unallocated contract. Contract value for the TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers in (if any), less any withdrawals and transfers out (if any). The fair value is derived from a discounted cash flow analysis and other factors. Investments in registered investment companies are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the plan at year end. Investments in pooled separate accounts are reported at the value reported to the Plan by TIAA-CREF, which represents the fair value of the underlying investments comprising the accounts. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of the Plan are deducted from the value of the participants' assets and certain expenses are paid by the Employer on behalf of the Plan. Expenses relating to investment management are paid directly by the representative investment vehicle and are included as a reduction to net appreciation in fair value of investments.

Accounting for Uncertainty in Income Taxes

The Plan recognizes the effect of income tax positions only if these positions are more likely than not to be sustained. Management has determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan is no longer subject to examinations by the applicable taxing jurisdictions for periods prior to December 31, 2013.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is July 24, 2017.

3. Information Certified (Unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, TIAA-CREF, has certified to the completeness and accuracy of all the investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016 and the supplemental Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016.

The TIAA Traditional Annuity is comprised of six types of contracts. The fully benefit responsive contracts are: the Group Supplemental Retirement Annuity ("GSRA"), the Supplemental Retirement Annuity ("SRA"), and the Retirement Choice Plus contracts. The non benefit responsive contracts are: the Group Retirement Annuity, Retirement Annuity ("RA") and Retirement Choice contracts. The Plan utilizes the GSRA and SRA contracts which are reported at contract value and the RA contract which is reported at fair value. Unobservable inputs include the risk-adjusted discount rate applied and the range of significant input values are as follows: GSRA – 3.00% - 4.25%; SRA – 3.00% - 4.25%; and RA – 3.50%-5.00%.

4. Investments (*continued*)

Under GSRA and SRA contracts, lump-sum withdrawals and transfers can be done at any time without any restrictions or charges. Under the RA contract, lump-sum cash withdrawals are not allowed and transfers must be paid in ten annual installments.

The contracts use the vintage method to credit interest to the TIAA Traditional Annuity Account. Vintages are time periods that represent when money was initially invested in the TIAA Traditional Annuity Account and corresponding interest rate during that distinct time period. The Vintage method recognizes the fact that the level of prevailing interest rates available on new long-term investments will vary over time and that as the long-term investments in a specific vintage mature, they will be reinvested at different rates. When funds flow into the TIAA Traditional Annuity Account, they are immediately invested at the prevailing pay-in rate for new money. The funds earn interest at the prevailing vintage rates. The vintage will always consist of two parts: the guaranteed portion and the discretionary portion. The guaranteed portion represents the minimum amount of interest that will be credited to an account, regardless of the economic environment. The discretionary portion represents interest earned over and above the guaranteed rate.

The TIAA Traditional Annuity Account represents approximately 31% and 30% of the Plan's net assets available for benefits, as of December 31, 2016 and 2015, and represents an obligation of TIAA-CREF to repay as amounts come due. The credit risk of the issuer was evaluated by nationally recognized statistical rating agencies as follows: Moody's Investors Service (Aa1 as of February 2017), Standard and Poor's (AA+ as of November 2016), A.M. Best Company (A++ as of August 2016), and Fitch (AAA as of February 2017). The plan administrator does not believe that any events would limit the Plan's ability to transact at contract value.

5. Plan Termination

Although it has not expressed any interest to do so, the Center has the right under the Plan to terminate the Plan subject to the provision of ERISA.

6. Tax Status

The Plan has been amended since its original effective date to satisfy the Internal Revenue Service's final 403(b) regulations. The plan administrator believes that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the "Code") and is currently being operated in compliance with the applicable requirements of the Code.

7. Party-in-Interest

All investments are managed by TIAA-CREF, the Plan's record-keeper. Accordingly, these transactions are considered party-in-interest transactions.

Certain employees of the Center may also participate in the Plan or perform administrative services to the Plan at no cost to the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
