Note 1. Description of the Plan

The following description of the TrueNet Communications Corp (the "Company") 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of the Company who have completed at least three consecutive months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants are permitted to designate all or a portion of their contributions as Roth contributions. Participants who have attained the age of 50 before the end of the plan year are eligible to make catchup contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes 10 percent of the first 5 percent of base compensation that a participant contributes to the Plan. During the years ended December 31, 2016 and 2015, the Company made $59,573 and $39,210 in contributions to the Plan, respectively.

Profit sharing contributions may be contributed at the option of the Company's Board of Directors. The profit sharing contribution is determined as a stated percentage of total qualifying compensation of participants for each allocation group as defined in the Plan document and is allocated to participants' accounts in proportion to their compensation. Participants must be employed at the end of the Plan year to be eligible to participate in profit sharing contributions. No discretionary profit sharing contributions were made to the Plan for 2016 or 2015.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of the Plan, Continued

Vesting:

Effective April 8, 2015, participants' accounts shall be fully vested at all times. Prior to April 8, 2015, participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100 percent vested after 3 years of credited service.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, 95 percent of one-half their vested account balance, or 95 percent of the total vested account balance excluding the Roth elective deferral balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined by the Plan's trustees, is one percent above prime rate, as defined. Principal and interest is paid ratably through bi-monthly payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts:

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $0 and $33, respectively. These accounts will be used to pay Plan administrative expenses or reduce Company contributions. In 2016 and 2015, administrative expenses paid from forfeited nonvested accounts totaled $374 and $450, respectively. In 2016 and 2015, Company contributions were reduced by $0 and $59, respectively.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other distributions to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Reclassifications:

Certain amounts in the prior year financial statements have been reclassified in order to conform to the current year presentation.

Subsequent events:

The Plan Administrator has evaluated subsequent events through July 27, 2017, the date the financial statements were available to be issued, as disclosed in Note 9.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Recently issued accounting pronouncements:

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. With certain exceptions, early adoption is not permitted. Plan management is currently evaluating the impact that ASU 2016-01 will have on its financial statements.

Note 3. Trustee Certifications

The following is a summary of the Plan's asset information as of and for the years ended December 31, 2016 and 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and related income:

	2016	2015
Money market fund	$ 317,558	$ 311,468
Mutual funds	2,066,620	1,529,555
	$ 2,384,178	$ 1,841,023

The trustee also certified to the completeness and accuracy of $71,510 and $(60,375) net appreciation (depreciation) in the fair value of investments and $68,806 and $25,279 of interest and dividends for the years ended December 31, 2016 and 2015, respectively. Pending trades of $30,482 and $20,850 are excluded from the certified assets for the years ended December 31, 2016 and 2015, respectively.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market fund: The money market fund is invested in the Vanguard Federal Money Market Fund and the Vanguard Prime Money Market Fund as of December 31, 2016 and 2015, respectively. The Plan invests in the money market fund to provide daily liquidity. Fair value is based on net asset value ("NAV") that can be validated with a significant level of observable activity (i.e. purchases and sales at NAV).

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements, Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2016 and 2015:

	December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 2,066,620	$ -	$ -	$ 2,066,620
Money market fund	-	317,558	-	317,558
Investments at fair value	$ 2,066,620	$ 317,558	$ -	$ 2,384,178

	December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 1,529,555	$ -	$ -	$ 1,529,555
Money market fund	-	311,468	-	311,468
Investments at fair value	$ 1,529,555	$ 311,468	$ -	$ 1,841,023

Note 5. Related-Party and Party in Interest Transactions

Mid Atlantic Trust Company is the trustee as defined by the Plan and, therefore, the administrative fees paid to Mid Atlantic Trust Company by the Plan qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to third party administrators totaling $15,018 and $11,509 for 2016 and 2015, respectively, which were not covered by revenue sharing.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by Paychex, Inc. Paychex, Inc. has received an opinion letter from the IRS dated April 10, 2014, that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The Plan Administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7. Tax Status, Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Subsequent Events

Effective January 1, 2017, the Plan was amended to increase the Company contribution from 10 percent of the first 5 percent of base compensation that a participant contributes to the Plan to 20 percent of the first 5 percent of base compensation that a participant contributes to the Plan.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

Note 1. Description of the Plan

The following description of the TrueNet Communications Corp (the "Company") 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of the Company who have completed at least three consecutive months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants are permitted to designate all or a portion of their contributions as Roth contributions. Participants who have attained the age of 50 before the end of the plan year are eligible to make catchup contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes 10 percent of the first 5 percent of base compensation that a participant contributes to the Plan. During the years ended December 31, 2016 and 2015, the Company made $59,573 and $39,210 in contributions to the Plan, respectively.

Profit sharing contributions may be contributed at the option of the Company's Board of Directors. The profit sharing contribution is determined as a stated percentage of total qualifying compensation of participants for each allocation group as defined in the Plan document and is allocated to participants' accounts in proportion to their compensation. Participants must be employed at the end of the Plan year to be eligible to participate in profit sharing contributions. No discretionary profit sharing contributions were made to the Plan for 2016 or 2015.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of the Plan, Continued

Vesting:

Effective April 8, 2015, participants' accounts shall be fully vested at all times. Prior to April 8, 2015, participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100 percent vested after 3 years of credited service.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, 95 percent of one-half their vested account balance, or 95 percent of the total vested account balance excluding the Roth elective deferral balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined by the Plan's trustees, is one percent above prime rate, as defined. Principal and interest is paid ratably through bi-monthly payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts:

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $0 and $33, respectively. These accounts will be used to pay Plan administrative expenses or reduce Company contributions. In 2016 and 2015, administrative expenses paid from forfeited nonvested accounts totaled $374 and $450, respectively. In 2016 and 2015, Company contributions were reduced by $0 and $59, respectively.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other distributions to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Reclassifications:

Certain amounts in the prior year financial statements have been reclassified in order to conform to the current year presentation.

Subsequent events:

The Plan Administrator has evaluated subsequent events through July 27, 2017, the date the financial statements were available to be issued, as disclosed in Note 9.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Recently issued accounting pronouncements:

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. With certain exceptions, early adoption is not permitted. Plan management is currently evaluating the impact that ASU 2016-01 will have on its financial statements.

Note 3. Trustee Certifications

The following is a summary of the Plan's asset information as of and for the years ended December 31, 2016 and 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and related income:

	2016	2015
Money market fund	$ 317,558	$ 311,468
Mutual funds	2,066,620	1,529,555
	$ 2,384,178	$ 1,841,023

The trustee also certified to the completeness and accuracy of $71,510 and $(60,375) net appreciation (depreciation) in the fair value of investments and $68,806 and $25,279 of interest and dividends for the years ended December 31, 2016 and 2015, respectively. Pending trades of $30,482 and $20,850 are excluded from the certified assets for the years ended December 31, 2016 and 2015, respectively.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market fund: The money market fund is invested in the Vanguard Federal Money Market Fund and the Vanguard Prime Money Market Fund as of December 31, 2016 and 2015, respectively. The Plan invests in the money market fund to provide daily liquidity. Fair value is based on net asset value ("NAV") that can be validated with a significant level of observable activity (i.e. purchases and sales at NAV).

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements, Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2016 and 2015:

	December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 2,066,620	$ -	$ -	$ 2,066,620
Money market fund	-	317,558	-	317,558
Investments at fair value	$ 2,066,620	$ 317,558	$ -	$ 2,384,178

	December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 1,529,555	$ -	$ -	$ 1,529,555
Money market fund	-	311,468	-	311,468
Investments at fair value	$ 1,529,555	$ 311,468	$ -	$ 1,841,023

Note 5. Related-Party and Party in Interest Transactions

Mid Atlantic Trust Company is the trustee as defined by the Plan and, therefore, the administrative fees paid to Mid Atlantic Trust Company by the Plan qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to third party administrators totaling $15,018 and $11,509 for 2016 and 2015, respectively, which were not covered by revenue sharing.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by Paychex, Inc. Paychex, Inc. has received an opinion letter from the IRS dated April 10, 2014, that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The Plan Administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7. Tax Status, Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Subsequent Events

Effective January 1, 2017, the Plan was amended to increase the Company contribution from 10 percent of the first 5 percent of base compensation that a participant contributes to the Plan to 20 percent of the first 5 percent of base compensation that a participant contributes to the Plan.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	$ 2,463,515	$ 1,874,243
