1) DESCRIPTION OF THE PLAN

The following description of the DGN Technologies Inc. 401K Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and the Plan Document for a complete description of the Plan's provisions.

General

The Plan was established on January 1, 2006 as a defined contribution profit sharing plan. The Plan covers all employees of DGN Technologies Inc. (the Company). In order to participate in the plan, employees must be at least 21 years of age. Employees are entered into the Plan on the first day of the month following the completion of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants, through an election to defer compensation, may contribute to their individual accounts from 1% to 85% of eligible earning and not to exceed the limits established by Internal Revenue Code, subject to certain limitations as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified benefit plans. The Company may elect to make a matching contribution to the Plan although the Company is not required to make this contribution. Participants must make elective deferrals to the Plan to receive the matching contribution. In addition, the Company may elect to make non elective contribution. However, the Company did not make any matching or non elective contributions during the year 2016 and 2015.

Vesting

Participants are always fully vested in their elective deferral and rollovers, if any. For the purpose of matching contributions and non-elective contributions account, the following vesting schedule is used:

Years of Service	Vested %
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

1) DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Participants may elect to invest in any combination of the funds offered by the Plan and may change their elective deferral percentage any time. Each participant's account is credited with the participant's contributions and accumulated earnings thereon and will be tax-deferred until participants receive the distribution. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's earnings, account balances, or specific participant transactions, as defined.

Distributions

The Plan generally provides that upon reaching the normal retirement age of 65, death, disability or termination, participants are entitled to receive the value of their account in one lump sum payment of cash if the individual account is less than $5,000. If the value of the individual account exceeds this amount the participants may elect to keep it in the Plan, however the benefit must begin to be distributed no later than April 1st of the calendar year following the later of the participant attaining the age of 70 ½ or the calendar year in which the participant retires. The participant may rollover their entire vested balance to individual retirement account or to another employer's tax qualified plan. In the event of financial hardship, participants may withdraw from their account.

Notes Receivables from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years and longer repayment terms are permitted for the purchase of a principal residence. The loans are secured by the balance in the participant's account. The interest rate for a loan will be the rate in effect in the month the loan is effective. The interest rate is the prime rate as published in the Wall Street Journal on the 14th of each month plus two percentage points. Principal and interest is paid ratably through payroll deductions.

Forfeitures

At December 31, 2016 and 2015, there were no forfeited non-vested account balances.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or modify the Plan and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2) SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

New Accounting Pronouncements:

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) ("the Update"). The Update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. The Update is effective for public entities for fiscal years beginning after December 31, 2015. For all other entities the Update is effective for fiscal years beginning after December 15, 2016. Early adoption is allowed and it is to be applied retrospectively. Management has elected to early adopt the provisions of new standard. Accordingly, the standard was retrospectively applied and had no material effect on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Data Practical Expedient. This Update is required for fiscal years beginning after December 15, 2015.

Part I - eliminates the requirement to measure fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract is the only required measure for fully benefit-responsive investment contracts.

Part II - eliminates the requirement to disclose investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans are no longer required to disaggregate investments by nature, characteristics and risks.

Part III - of the Update applies only to entities that have a fiscal year-end that does not coincide with a month-end and follow the requirements in Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965).

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements (Continued):

Management adopted the provisions of Part II of the new standard. Part I and III of this standard is not applicable to the Plan.

Change in Presentation – The presentation of the Common Collective Trust for 2015 has been changed to be consistent with the 2016 presentation. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board and had no effect on total net assets available for benefits on the change in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Notes Receivable from Participants as of December 31, 2016 and December 31, 2015 are $8,127 and $9,927 respectively.

Risks and Uncertainties

The Plan provides for various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, trustee and insurance company.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and investment related expenses are charged directly to the participants account and are included in administrative expenses.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments for such investments.

Payment of Benefits

Benefits are recorded when paid.

Excess Contribution Payable

Amounts payable to participants in excess of amounts allowed by IRS are recorded as a liability with a corresponding reduction to the contribution. The Plan had excess contribution/payable of $33,146 and $0 as of December 31, 2016 and 2015 respectively.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standard Codification (ASC) 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurements (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is the description of the valuation methodologies used for assets measured at fair value:

Mutual Funds (Registered Investment Companies) – Valued at daily closing prices as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust – Valued at the NAV of units held by the Plan at year end, which is considered by Plan management to be the best approximation of fair value.

3) INVESTMENTS

All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2016 and 2015 and net realized and unrealized appreciation/depreciation in fair value of investments in Registered Companies, Mutual Fund and Common Collective Trust and interest income for the years ended December 31, 2016 and 2015 were obtained or derived from information supplied to the Plan administrator and certified as "complete and accurate" by Reliance Bank & Trust Company and State Street Bank and Trust Company.

Investment information for the Plan, which was certified by the Trustees of the Plan, has not been audited by independent auditors.

The Plan's investments (including investments purchased, sold as well as held during the year) appreciated/(depreciated) in fair value by $74,329 and $(51,006) as determined by quoted market prices for assets and similar assets in active markets for the year ended December 31, 2016 and 2015 respectively.

4) FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy (as described in Note 1), the Plan's assets at fair value as of December 31, 2016 and December 31, 2015:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2016			
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual Funds	$ 682,651	$ 682,651	$ -	$ -
	682,651	$ 682,651	$ -	$ -
Common Collective Trust (a)	734,566			
Total Investments	$ 1,417,217			

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2015			
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual Funds	$ 424,669	$ 424,669	$ -	$ -
	424,669	$ 424,669	$ -	$ -
Common Collective Trust (a)	585,654			
Total Investments	$ 1,010,323			

4) FAIR VALUE MEASUREMENTS (Continued)

(a) Certain investments measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy but are presented to permit reconciliation to the investment line item to statement of net assets available for benefits.

Investments measured using NAV per share practical expedient

The following table summarizes investments per which fair value is measured using NAV per share practical expedient as of December 31, 2016 and 2015, respectively. There is no participant redemption reconciliation for these investments.

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust	$ 734,566	None	Daily	None

	December 31, 2015			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust	$ 585,654	None	Daily	None

There were no significant transfers between levels of the fair value hierarchy during 2016 and 2015.

5) INCOME TAX STATUS

The Plan has received an opinion letter from the Internal Revenue Service stating that the written form of the underlying Prototype Standardized Profit Sharing with CODA plan document is qualified under Section 401 of the Internal Revenue Code (the Code), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401 of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

5) INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, currently there are no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6) RELATED PARTY TRANSACTIONS AND PARTIES-IN-INTEREST TRANSACTIONS

Effective July 1, 2016 Reliance Trust Company is the Trustee of the Plan and manages investments. Prior to July 1, 2016 State Street Bank and Trust Company was the Trustee of the Plan. Transactions with Reliance Trust Company and State Street Bank and Trust Company as Trustees of the Plan are party-in-interest transactions, as defined by ERISA. Fees paid by the Plan for trustees services were $200 and $425 for 2016 and 2015, respectively.

7) ERISA BOND REQUIREMENTS

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2016 and 2015, the Plan's sponsor maintained the required bond coverage.

8) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

1) DESCRIPTION OF THE PLAN

The following description of the DGN Technologies Inc. 401K Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and the Plan Document for a complete description of the Plan's provisions.

General

The Plan was established on January 1, 2006 as a defined contribution profit sharing plan. The Plan covers all employees of DGN Technologies Inc. (the Company). In order to participate in the plan, employees must be at least 21 years of age. Employees are entered into the Plan on the first day of the month following the completion of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants, through an election to defer compensation, may contribute to their individual accounts from 1% to 85% of eligible earning and not to exceed the limits established by Internal Revenue Code, subject to certain limitations as defined in the Plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified benefit plans. The Company may elect to make a matching contribution to the Plan although the Company is not required to make this contribution. Participants must make elective deferrals to the Plan to receive the matching contribution. In addition, the Company may elect to make non elective contribution. However, the Company did not make any matching or non elective contributions during the year 2016 and 2015.

Vesting

Participants are always fully vested in their elective deferral and rollovers, if any. For the purpose of matching contributions and non-elective contributions account, the following vesting schedule is used:

Years of Service	Vested %
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

1) DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Participants may elect to invest in any combination of the funds offered by the Plan and may change their elective deferral percentage any time. Each participant's account is credited with the participant's contributions and accumulated earnings thereon and will be tax-deferred until participants receive the distribution. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on the participant's earnings, account balances, or specific participant transactions, as defined.

Distributions

The Plan generally provides that upon reaching the normal retirement age of 65, death, disability or termination, participants are entitled to receive the value of their account in one lump sum payment of cash if the individual account is less than $5,000. If the value of the individual account exceeds this amount the participants may elect to keep it in the Plan, however the benefit must begin to be distributed no later than April 1st of the calendar year following the later of the participant attaining the age of 70 ½ or the calendar year in which the participant retires. The participant may rollover their entire vested balance to individual retirement account or to another employer's tax qualified plan. In the event of financial hardship, participants may withdraw from their account.

Notes Receivables from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years and longer repayment terms are permitted for the purchase of a principal residence. The loans are secured by the balance in the participant's account. The interest rate for a loan will be the rate in effect in the month the loan is effective. The interest rate is the prime rate as published in the Wall Street Journal on the 14th of each month plus two percentage points. Principal and interest is paid ratably through payroll deductions.

Forfeitures

At December 31, 2016 and 2015, there were no forfeited non-vested account balances.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or modify the Plan and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2) SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

New Accounting Pronouncements:

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) ("the Update"). The Update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The reporting entity should continue to disclose information on investments for which fair value is measured at net asset value (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from net asset value. The Update is effective for public entities for fiscal years beginning after December 31, 2015. For all other entities the Update is effective for fiscal years beginning after December 15, 2016. Early adoption is allowed and it is to be applied retrospectively. Management has elected to early adopt the provisions of new standard. Accordingly, the standard was retrospectively applied and had no material effect on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Data Practical Expedient. This Update is required for fiscal years beginning after December 15, 2015.

Part I - eliminates the requirement to measure fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract is the only required measure for fully benefit-responsive investment contracts.

Part II - eliminates the requirement to disclose investments that represent 5 percent or more of net assets available for benefits and net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans are no longer required to disaggregate investments by nature, characteristics and risks.

Part III - of the Update applies only to entities that have a fiscal year-end that does not coincide with a month-end and follow the requirements in Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965).

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements (Continued):

Management adopted the provisions of Part II of the new standard. Part I and III of this standard is not applicable to the Plan.

Change in Presentation – The presentation of the Common Collective Trust for 2015 has been changed to be consistent with the 2016 presentation. This change in presentation resulted from a recent clarification from the Financial Accounting Standards Board and had no effect on total net assets available for benefits on the change in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Notes Receivable from Participants as of December 31, 2016 and December 31, 2015 are $8,127 and $9,927 respectively.

Risks and Uncertainties

The Plan provides for various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, trustee and insurance company.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and investment related expenses are charged directly to the participants account and are included in administrative expenses.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments for such investments.

Payment of Benefits

Benefits are recorded when paid.

Excess Contribution Payable

Amounts payable to participants in excess of amounts allowed by IRS are recorded as a liability with a corresponding reduction to the contribution. The Plan had excess contribution/payable of $33,146 and $0 as of December 31, 2016 and 2015 respectively.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standard Codification (ASC) 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurements (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is the description of the valuation methodologies used for assets measured at fair value:

Mutual Funds (Registered Investment Companies) – Valued at daily closing prices as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust – Valued at the NAV of units held by the Plan at year end, which is considered by Plan management to be the best approximation of fair value.

3) INVESTMENTS

All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2016 and 2015 and net realized and unrealized appreciation/depreciation in fair value of investments in Registered Companies, Mutual Fund and Common Collective Trust and interest income for the years ended December 31, 2016 and 2015 were obtained or derived from information supplied to the Plan administrator and certified as "complete and accurate" by Reliance Bank & Trust Company and State Street Bank and Trust Company.

Investment information for the Plan, which was certified by the Trustees of the Plan, has not been audited by independent auditors.

The Plan's investments (including investments purchased, sold as well as held during the year) appreciated/(depreciated) in fair value by $74,329 and $(51,006) as determined by quoted market prices for assets and similar assets in active markets for the year ended December 31, 2016 and 2015 respectively.

4) FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy (as described in Note 1), the Plan's assets at fair value as of December 31, 2016 and December 31, 2015:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2016			
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual Funds	$ 682,651	$ 682,651	$ -	$ -
	682,651	$ 682,651	$ -	$ -
Common Collective Trust (a)	734,566			
Total Investments	$ 1,417,217			

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2015			
	Investments (at Fair Value)	Level 1	Level 2	Level 3
Mutual Funds	$ 424,669	$ 424,669	$ -	$ -
	424,669	$ 424,669	$ -	$ -
Common Collective Trust (a)	585,654			
Total Investments	$ 1,010,323			

4) FAIR VALUE MEASUREMENTS (Continued)

(a) Certain investments measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy but are presented to permit reconciliation to the investment line item to statement of net assets available for benefits.

Investments measured using NAV per share practical expedient

The following table summarizes investments per which fair value is measured using NAV per share practical expedient as of December 31, 2016 and 2015, respectively. There is no participant redemption reconciliation for these investments.

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust	$ 734,566	None	Daily	None

	December 31, 2015			
	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common Collective Trust	$ 585,654	None	Daily	None

There were no significant transfers between levels of the fair value hierarchy during 2016 and 2015.

5) INCOME TAX STATUS

The Plan has received an opinion letter from the Internal Revenue Service stating that the written form of the underlying Prototype Standardized Profit Sharing with CODA plan document is qualified under Section 401 of the Internal Revenue Code (the Code), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401 of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

5) INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, currently there are no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6) RELATED PARTY TRANSACTIONS AND PARTIES-IN-INTEREST TRANSACTIONS

Effective July 1, 2016 Reliance Trust Company is the Trustee of the Plan and manages investments. Prior to July 1, 2016 State Street Bank and Trust Company was the Trustee of the Plan. Transactions with Reliance Trust Company and State Street Bank and Trust Company as Trustees of the Plan are party-in-interest transactions, as defined by ERISA. Fees paid by the Plan for trustees services were $200 and $425 for 2016 and 2015, respectively.

7) ERISA BOND REQUIREMENTS

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2016 and 2015, the Plan's sponsor maintained the required bond coverage.

8) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
