NOTE 1 – DESCRIPTION OF THE PLAN

The following description of Storm Industries, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General
The Plan was established on October 1, 2004 and is a qualified, defined contribution plan established under the provision of Section 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is a sponsored by Storm Industries, Inc. and Affiliated Companies (the "Company"). John Hancock Life Insurance Company serves as the custodian of the Plan, and is responsible for the custody and management of the Plan's assets. Actuarial Benefits Corp. serves as the record keeper and the third-party administrator.

Eligibility
An employee is eligible for participation in the Plan upon completion of one (1) month of employment.

Contributions
Each year, participants may contribute up to the maximum allowed by law of pre-tax annual compensation, as defined in the Plan documents. For 2016, the contribution limit was $18,000. Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up" contributions. For 2016, the maximum "catch-up" contribution limit was $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans as long as they meet the requirements for rollover. Participants direct the investment of their contributions and employer matching into various investment options offered by the Plan.

On January 1, 2014, the Company modified the plan to employ a safe harbor provision. Under the agreement, the Company matched 100% of the employee contribution up to 3% of compensation and 50% of the employee contributions up to 5% of compensation. However, the annual Matching Contribution for Highly Compensated Employees (earning over $120,000 in 2016) will not exceed $4,200. The Company may also make discretionary profit sharing contributions. No such contributions were made during 2016 and 2015.

Participant Accounts
Each participant's account is credited with the participant's contribution; the Company's matching contribution, and the participant's share of the Plan earnings or losses, net of certain investment management fees. Participants may direct their elective deferral contributions into various investment options offered by the Plan, and may change their investment options on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Investment Options
Participants direct the investment of their contributions and employer's contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and guaranteed investment contracts as investment options for the participants.

Vesting
Employee Contributions are always 100% vested. Company safe harbor matching contributions are also 100% vested immediately after they are credited to their account. Company contributions made prior to January 1, 2014 are considered non safe harbor Company contributions and are subject to the following vesting schedule:

Years of Service	Vesting Percentage
After 1 year	20%
After 2 years	40%
After 3 years	60%
After 4 years	80%
After 5 years	100%

Notes from Participants
Participants may borrow from their account a minimum of $1,000 up to a maximum of fifty percent (50%) of their vested account balance, not to exceed $50,000. A participant may have no more than one loan outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of prime plus 2%. Interest rates range from five and one-quarter percent (5.25%) to five and one-half percent (5.50%) for all loans outstanding at December 31, 2016. A loan shall be repaid within five years, unless it is used for the purchase of a primary residence. Principal and interest are paid ratably through biweekly payroll deductions. Loans are due and payable upon termination of the participant.

Benefit Payments
On termination of service due to death, permanent disability or retirement, a participant may elect to receive either a lump sum distribution or to rollover his or her vested account balance to another qualified plan. Account withdrawals are permitted by participants who suffer certain financial hardships and meet criteria established by the Internal Revenue Service ("IRS").

Administrative Expenses
Certain administrative fees associated with the Plan are deducted from the Plan's assets as the Company does not pay these expenses. These expenses are allocated proportionally based on the value of the participant's account balances. The company pays for or utilizes forfeitures to cover other administrative costs on behalf of the Plan.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Forfeitures

Forfeitures of discretionary, Company contributions may be used to pay for the Plan expenses or to reduce future Company contributions. During the year ended December 31, 2016, forfeitures of $18,093 were applied against employer contributions and forfeitures of $6,562 were applied against administrative expenses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual method of accounting and include only the assets, liabilities, and changes in net assets of the Plan, in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Contributions by the participants are recognized in the period the participants' wages are earned; withdrawals from the Plan for participant distributions are recognized when the amounts are paid to the participants, except for cases where refunds are due to the participants in order for the Plan to conform to IRC provisions. In addition, investment income is recorded at the time the distribution is made to the Plan's custodian. Plan expenses are recorded when incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)
Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Certain management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes from Participants
Notes from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefit payments to participants are recorded upon distribution. As of December 31, 2016, there were no benefits payable to participants who elected to withdraw from the Plan.

Recently Adopted Accounting Pronouncements
In May 2015, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 850): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also limits certain disclosures to investments for which the entity has elected to measure the fair value using the practical expedient. The amendments in ASU 2015-07 are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. This ASU will be effective for the Company for fiscal years beginning after December 15, 2016. Early adoption is permitted and the amendments in ASU 2015-07 should be applied retrospectively to all periods presented. Management elected to adopt this guidance for the Plan's year ended December 31, 2016. The adoption of these rules did have a material effect on the disclosures in the Plan's financial statements. Prior year information has been adjusted to conform to the adoption of this guidance.

In June 2015, the FASB issued ASU No. 2015-10, *Technical Corrections and Improvements* ("ASU 2015-10"). The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards. The amendments in ASU 2015-10 will generally be effective for fiscal periods beginning after December 15, 2015. The adoption of this guidance did not have a material impact on the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Adopted Accounting Pronouncements (Continued)
In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefits Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures; and III. Measurement Date Practical Expedient* ("ASU 2015-12"). This three-part ASU simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in ASU 2015-12 eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value ("NAV") per share using the practical expedient in the FASB ASC Topic 820. Part III of the ASU provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures. The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The Plan's management elected to adopt this guidance for the Plan's year ended December 31, 2016. The adoption of these rules did have a material effect on the disclosures in the Plan's financial statements. Prior year information has been adjusted to conform to the adoption of this guidance.

Recently Issued Accounting Pronouncements
In February 2017, the FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) Employee Benefit Plan Master Trust Reporting.* This update improves the usefulness of the information reported to users of employee benefit plan financial statements and to provide clarity to preparers and auditors. The update primarily relates to the reporting by an employee benefit plan for its interest in a master trust. The amendment of this update clarifies presentation requirements for a plan's interest in a master trust and requires more detailed disclosures of the plan's interest in the master trust. The amendments also eliminate a redundancy relating to 401(h) account disclosures. The amendments of this update are effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. Management does not believe the adoption of this guidance will have a material effect on the Plan's financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification Topic No. 820 ("ASC 820") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts:	Valued at the net asset value ("NAV") of shares/units held by the Plan at year end.
Guaranteed investment contracts:	Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 924,305	$ 924,305
Pooled separate accounts (a)	-	-	-	12,603,378
Total	**$ -**	**$ -**	**$ 924,305**	**$13,527,683**

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contracts	$ -	$ -	$ 1,085,547	$ 1,085,547
Pooled separate accounts (a)	-	-	-	11,387,456
Total	**$ -**	**$ -**	**$ 1,085,547**	**$12,473,003**

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2016.

	Guaranteed investment contracts
Balance, beginning of year	$ 1,085,547
Interest	6,319
Purchases	69,112
Sales	(230,961)
Transfers in and/or out of level 3	(6,997)
Fees	(2,921)
Other	4,206
Balance, end of year	**$ 924,305**

The following table sets forth the basic assumption used in arriving at fair value and the range of value for unobservable inputs as of December 31, 2016:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contracts	$ 924,305	Market approach	- Composite rate	0.10– 4.02%
			- New money interest rate	0.54 – 1.04%

The following table sets forth the basic assumption used in arriving at fair value and the range of value for unobservable inputs as of December 31, 2015:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contracts	$ 1,085,547	Market approach	- Composite rate	0.10 – 4.09%
			- New money interest rate	0.34 – 1.16%

NOTE 4 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of funds managed by the custodian. The custodian of the Plan is considered a party-in-interest. The Company, Plan Administrator and the Plan's third party administrator are also considered parties-in-interest with respect to the Plan. As a result, these transactions qualify as "party-in-interest" transactions permitted by the United States Department of Labor's Rules and Regulations. Fees paid to the custodian and third party administrator amounted to $20,053 and $9,632 for the year ended December 31, 2016, respectively. Notes from participants and the related interest income of $13,241 for the year ended December 31, 2016 are also considered related party transactions.

NOTE 5 – RISKS AND UNCERTAINTIES

The Plan invests in various securities. Investment securities, in general, are normally exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 6 – FEDERAL INCOME TAX STATUS

Effective January 1, 2016, the Plan adopted a volume submitter form of a prototype plan sponsored by John Hancock Life Insurance Company. The prototype volume submitter plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the custodian believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's administration believes the amendments to the original Plan document will not adversely impact the Plan's compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

NOTE 7 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan's investments in the three-year, five-year and ten-year insurance general accounts have underlying investments in guaranteed investment contracts ("GICs"), which are presented at contract value as contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined-contribution plan attributable to fully benefit responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE 8 – PLAN TERMINATION

Although the Company has not expressed such intent, the Company reserves the right, at any time, to amend or terminate the Plan. Upon termination of the Plan, further contributions to the Plan shall cease and all participants who are affected by such termination shall become 100% vested. Thus, net assets available for benefits would be distributed to the participants based on each participant's interest in the Plan.

NOTE 9 – SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through July 31, 2017, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to financial statements.
