THE FLIPPEN GROUP RETIREMENT PLAN
Notes to Financial Statements
December 31, 2016

1. Plan description

The following description of the The Flippen Group Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees, who are age 21 or older and are not covered by a collective bargaining agreement. The Plan, which was established as of January 1, 2013, is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute through deferral of their earned income, up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for participants. The employer may make a discretionary contribution to the Plan. There was a $171,011 employer contribution for the year ended December 31, 2016.

Participant accounts

Each participant's account is credited with the participant’s contribution and allocations of Plan earnings and the employer’s contribution. Allocations are based on participant earnings or account balances, as defined. Each participant is entitled to the benefit that can be provided from his or her vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon. However, the participant’s accrued benefits attributable to employer contributions and profit-sharing contributions shall vest based on years of service as defined by the Plan. Generally, participants are fully vested in employer contributions after five years of service. In addition, all participants who participated in the Plan prior to January 1, 2015 are vested 100% in all contributions.

Notes receivable from participants

Participants may borrow from their fund accounts up to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant’s account and bear interest at rates which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

1. Plan description – continued

Payments of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of his or her account, or installments over a period of time, not to exceed the participant's life expectancy.

For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, if the vested interest is less than $5,000. For vested interests greater than $5,000, the participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments over a reasonable period of time, not to exceed the participant's life expectancy.

Plan expenses

A portion of expenses incurred by the Plan have been paid for by the plan sponsor.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account. As of December 31, 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document,

2. Summary of significant accounting policies - continued

Investment valuation and income recognition

The Plan's investments are stated at fair value based on quoted market prices. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income and capital gains are recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Date of management's review

Management has evaluated subsequent events through July 27, 2017, the date the financial statements were available to be issued. No additional disclosures or modifications were deemed necessary.

3. Information certified by custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian.

	2016	2015
Investments, at fair value	$ 2,479,172	$ 1,662,190
Notes receivable from participants	61,720	5,845
Net appreciation in fair value of investments	122,373	n/a
Interest income on notes receivable from participants	2,166	n/a

4. Investments

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

4. Investments - continued

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan.

		Fair Value Measurements at Reporting Date Using		
	Fair Value	Quoted Price in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2016				
Mutual funds	$ 2,479,172	$ 2,479,172	$ -	$ -
December 31, 2015				
Mutual funds	$ 1,662,190	$ 1,662,190	$ -	$ -

5. Plan termination

Although it has not expressed any intent to do so, the employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. Tax status

The prototype plan obtained its latest determination letter on March 16, 2010, in which the Internal Revenue Service stated that the Plan, as currently designed, is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress.

7. Plan administration

Certain administrative functions are performed by officers or employees of the employer. No such officer or employee receives compensation from the Plan. Administrative expenses are paid by the employer.

8. Party-in-interest transactions

Plan assets include notes receivable from participants. These transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules under ERISA.

9. Risks and uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
