1. Description Of The Plan

The following description of the Bodine Electric Company Employee's Savings And Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing and 401(k) plan covering all employees of Bodine Electric Company (the "Employer") who have completed three months of service and attained age 18. For purposes of receiving matching contributions, participants must complete one year and 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Once eligible, participants are automatically enrolled in the Plan with a deferral amount of 6% of eligible compensation. The Plan includes an automatic escalation feature in which participants will automatically have their deferrals increased 1% each year indefinitely unless a participant makes an election to conclude escalation features.

Participants may contribute up to 60% of eligible compensation not to exceed Internal Revenue Code limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

For the years ended December 31, 2016 and 2015, the Employer matched 100% of the first 2% of eligible compensation and 30% of the next 4% of eligible compensation that a participant contributed to the Plan. The Employer made no discretionary profit-sharing contributions to the Plan for the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited with the participant's contributions and employer matching and profit-sharing contributions as well as allocations of the Plan's earnings and expenses. Allocations are based on the participant's eligible compensation, the value of the account balances or specific participant transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants are limited to one loan outstanding at any time. The loans are secured by the participant's vested account balance and bear interest at a reasonable rate of interest based on financial institution rates. Loan terms may not exceed five years, except for loans to purchase a principal residence. Principal and interest are paid ratably through payroll deductions.

Vesting

Participants are immediately vested in their rollover, voluntary contributions and employer contributions, plus the actual earnings thereon.

Hardship Withdrawals

Participants may elect to withdraw all or a portion of their vested balances if they incur a financial hardship. Hardship withdrawals are subject to the terms of the plan agreement and provisions of the Internal Revenue Code. The participant may not make elective deferrals or employee contributions to the Plan for the six-month period following the date of the hardship withdrawal.

Payment Of Benefits

Upon termination of service, participants with an account balance greater than $5,000 may elect to receive a lump-sum amount equal to the value of the participant's account or equal monthly, quarterly or annual installments over a period of time. Under the default automatic rollover provisions, distributions greater than $1,000 but less than $5,000 will be made to an Individual Retirement Account without participant consent if a participant does not make a different distribution election after receiving the required notification. Participants with a vested balance of $1,000 or less will receive a lump-sum payment upon termination.

In-Service Withdrawals

Active participants who reach age 59 ½ may withdraw all or part of their vested accounts.

2. Summary Of Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use Of Estimates

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported additions and deductions. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant does not make loan repayments and the plan administrator considers the loan to be in default, the loan balance is reduced and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the plan agreement.

Payment Of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through July 31, 2017, the date the financial statements were available to be issued.

3. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2016 and 2015 and net appreciation in fair value of investment, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied by the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; and • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money Market Fund: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust: Valued at the NAV of units of the trust. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common/collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Plan's assets at fair value:

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 1,473,013	$ —	$ —	$ 1,473,013
Mutual funds	25,076,346	—	—	25,076,346
Total assets in the fair value hierarchy	26,549,359	—	—	26,549,359
Investments measured at net asset value (a)				283,515
Total Assets At Fair Value				$ 26,832,874

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 1,270,055	$ —	$ —	$ 1,270,055
Mutual funds	23,282,295	—	—	23,282,295
Total assets in the fair value hierarchy	24,552,350	—	—	24,552,350
Investments measured at net asset value (a)				170,456
Total Assets At Fair Value				$ 24,722,806

(a) In accordance with ASC Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value Of Investments In Entities That Calculate Net Asset Value Per Share (Or Its Equivalent, Net Unit Value)

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient:

	December 31, 2016			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	$ 283,515	$ —	Daily	12 Month

	December 31, 2015			
	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	$ 170,456	$ —	Daily	12 Month

5. Related-Party And Party-In-Interest Transactions

Certain plan investments are shares of investment securities managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Notes receivable from participants given to parties-in-interest totaled $344,670 and $345,657 as of December 31, 2016 and 2015, respectively.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Tax Status

The Employer has adopted a volume submitter profit-sharing plan sponsored by Fidelity Management and Research Company. The volume submitter plan received a favorable opinion letter effective March 31, 2014 from the Internal Revenue Service regarding the volume submitter plan's qualified status. The Plan has been amended since receiving the opinion letter; however, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Service. Therefore, no provision for income tax has been included in the Plan's financial statements.

Management has determined that the Plan does not have any uncertain tax positions and associated unrecognized benefits that materially impact the financial statements and related disclosures.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation Of Financial Statements To Schedule H Of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:
