Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Applied Control Equipment 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established August 1, 1996. The Plan adoption agreement was restated effective January 1, 2002 and most recently amended January 1, 2016, and it is available to all employees age 21 years or older who have completed three months of service following their employment date. Employees may enter the Plan on the first day of the month following or coinciding with the date eligibility was met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Applied Control Management, Inc. (the "Company") administers the Plan. Principal Life Insurance Company ("Principal") served as trustee, managed Plan assets, and maintained the Plan's records as of December 31, 2016 and 2015 and for the year ended December 31, 2016. Individual accounts are invested in the various investment options at the direction of the participants.

Effective January 1, 2016, the Plan was restated to adopt a prototype plan with Principal, and the Plan's name was formally changed to Applied Control Equipment 401(k) Plan.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, not to exceed annual IRS limits. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants are automatically enrolled in the Plan to defer 5% of their compensation upon meeting eligibility requirements, unless the participant elects otherwise. The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contributions for the year. Employee contributions to the Plan are made through regular payroll deductions based on W-2 wages.

The Plan allows participants to elect that some or all of their 401(k) contributions be designated as after-tax Roth 401(k) contributions. Provided the requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

It is the Company's intention to satisfy the Safe Harbor requirement of section 401(k)(12) of the Internal Revenue Code. As the Plan is a Safe Harbor 401(k) plan, the Company will provide a Safe Harbor matching contribution of 100% of elective deferrals up to 3% of compensation plus 50% of elective deferrals between 3% and 5% of the participant's compensation. Matching contributions are determined on each pay period based on participant elective deferrals. Additionally, the Company may make discretionary non-elective contributions and additional discretionary matching contributions on deferrals up to 6% of compensation. Non-elective and additional discretionary contributions will be allocated in proportion to the participant's eligible earnings. Participants are eligible to receive non-elective contributions if they are employed on the last day of the Plan year and have completed 1,000 hours of service during the Plan year. The employer contributions are funded on a payroll basis. The Company did not make any discretionary non-elective contributions or discretionary matching contributions during the year ended December 31, 2016.

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions, rollover contributions, and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and Safe Harbor matching contributions.

Discretionary non-elective and additional discretionary employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2 years	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65), retirement due to disability, or if the Plan is terminated.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Loans Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates at loan origination as determined quarterly by the Plan administrator, and mature at various dates ranging from August 2017 through August 2022. Beginning in September 2012, the Plan's loan policy updated interest rates to be prime rate plus 2% at loan origination. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at an amortized cost plus accrued interest.

The Plan administrator will fix the term for repayment of any loan; however, in no instance may the term of repayment be greater than five years, unless the loan is used to purchase a principal residence, which will be repaid over a longer period, not to exceed 30 years, as established by the Plan administrator at the time of the loan.

Payment of Benefits

Upon attainment of age 59½, termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance, receive payment in annual installments, or roll over the account balance to an IRA or to another employer's qualified plan in accordance with the terms of the Plan agreement. For termination of service for other reasons, a participant may receive the value of the vested account balance as a lump-sum distribution. Upon attainment of age 70½, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a period not to exceed a participant's assumed life expectancy. Hardship withdrawals are allowed on participant elective deferred contributions. Accounts with balances less than $5,000 may be immediately distributed upon a distribution event. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used first to pay Plan expenses, then reduce Safe Harbor matching contributions, and then to reduce non-elective employer contributions. The balance of this account at December 31, 2016 and 2015 was $339 and $4,782, respectively. For the year ended December 31, 2016, Safe Harbor matching contributions were reduced by $4,537 from forfeited accounts.

Valuation of Investments and Income Recognition

Investments are recorded at fair value, net asset value ("NAV"), or at contract value as reported to the Plan by Principal. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in fully benefit-responsive investment contracts through a guaranteed investment contract. As required by generally accepted accounting principles, the statements of net assets available for benefits present the contract value of the investment in the guaranteed investment contract.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected on the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Principal are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Investments

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value, contract value, and NAV; participant loans at amortized cost as of December 31, 2016; and the income earned or losses incurred on the investments for the years ended December 31, 2016 and 2015, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The table below represents the value of investments greater than 10% of net assets available for benefits:

	December 31,	
	2016	2015
Principal Trust Target 2025 Fund	$ 1,202,930	$ 1,451,150
Principal Trust Target 2035 Fund	$ 1,120,093	$ 1,388,100
Principal Trust Target 2020 Fund	$ 1,005,938	$ 1,271,869

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2016 and 2015.

Investments as of December 31, 2016 are as follows:

Description	Level 1	NAV	Total
Mutual funds	$ 1,621,052	$ -	$ 1,621,052
Self-directed brokerage investments	344,007	-	344,007
Collective investment trusts	-	6,554,795	6,554,795
Total	$ 1,965,059	$ 6,554,795	$ 8,519,854

Investments as of December 31, 2015 are as follows:

Description	Level 1	NAV	Total
Mutual funds	$ 1,766,055	$ -	$ 1,766,055
Self-directed brokerage investments	417,133	-	417,133
Collective investment trusts	-	7,169,931	7,169,931
Total	$ 2,183,188	$ 7,169,931	$ 9,353,119

Plan investments in collective investment trusts are valued at NAV as determined by the trustees based on quoted market prices, which reflect the fair value of the investments that compose the trusts. These trusts are redeemable on a daily basis and have no unfunded commitments. In accordance with Accounting Standards Codification Topic 820, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.

Investments in mutual funds and the self-directed brokerage investments are reported at the last reported sales price at the end of the respective periods using quoted market values.

There were no changes to the valuation techniques used during the year ended December 31, 2016.

Note 4 - Investment Contract

In 2015, the Plan had a fully benefit-responsive investment contract with Great-West ("guaranteed interest contract"). Great-West maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract is included in the financial statements at contract value as reported to the Plan by Great-West. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Note 4 - Investment Contract (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate earned by the fund was 1.20% for 2015. The investment fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long-term new portfolio compared to the minimum interest crediting rate, as stated in the guaranteed interest contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Note 5 - Income Taxes

The Plan adopted a prototype plan by Principal, which received a favorable determination letter from the IRS dated March 31, 2014. The Plan administrator believes that the Plan, as originally adopted and subsequently amended, continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provisions for federal or state income taxes have been included in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Party-in-Interest Transactions and Related Party Transactions

Certain Plan investments are self-directed brokerage investments and collective investment trusts, which are managed by Principal. Principal is the asset trustee; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. Participant loans also qualify as party-in-interest transactions and are also exempt from the prohibited transaction rules.

Note 9 - Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued.
