INDEPENDENT AUDITOR'S REPORT

To the **Global Imaging Systems 401(k) Retirement Plan** Administrator and Participants:

Report on the Financial Statements

We were engaged to audit the accompanying statement of net assets available for benefits of **Global Imaging Systems 401(k) Retirement Plan** (the "Plan") as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016 and the supplemental schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2016. These financial statements and supplemental schedule are the responsibility of the Plan's management.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Prudential Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets, notes receivable from participants, and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016 that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule as of or for the year ended December 31, 2016 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note A – Description of Plan

The following description of the Global Imaging Systems 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established May 1, 1996, and subsequently restated January 1, 2017, is a defined contribution savings plan covering substantially all employees of Global Imaging Systems, Inc. and its subsidiaries that have adopted the Plan as of December 31, 2016 (collectively, referred to as the "Company" or the "Employer"), who have attained age 21 and one hour (1,000 hours prior to June 23, 1999) of service, excluding employees subject to a collective bargaining agreement, leased employees and nonresident aliens. Employees may immediately begin contributing on their eligibility date. If an eligible employee does not complete a deferral election prior to 30 days following entry date, they are automatically enrolled into the Plan at a 1% deferral rate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 1, 2013, the Plan was amended and restated in order to allow Roth participant contributions and to change the definition of compensation to no longer consider certain fringe benefits as eligible earnings. On July 1, 2014, the Plan was amended to change the automatic enrollment rate and automatic rate increase provisions. On January 14, 2015, the Plan was amended to allow for loans from a merger.

Administration of the Plan

Prudential Trust Company (the Trustee) is a third-party administrator hired by the Company. The Trustee maintains accounting records, holds the Plan's assets, and manages contributions. With regard to contributions, the Trustee invests cash received, interest and dividend income as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 75% for December 31, 2016 and 2015 of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. The maximum employee deferral for the years ended December 31, 2016 and 2015 was \$18,000. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of \$6,000 for December 31, 2016 and 2015.

For participants who have one year of service or more, the Company may make matching contributions at its discretion as a percentage of the participant's elective deferrals to the Plan, not to exceed 100%. For the year ended December 31, 2016 the Company matched contributions at a rate of 75% for the first 6% of employee deferrals. Employees enter the Plan for matching and discretionary contributions the first day of the quarter following one year of service.

The Plan also allows participants to contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Note A – Description of Plan (continued)

Plan Merger

Associated with the Company's 2015 acquisition of Conestoga Copier, Inc. assets totaling approximately \$1,722,000 were transferred into the Plan from the Conestoga Copier, Inc. 401(k) Plan on March 15, 2016, leaving the Plan as the surviving retirement plan. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ending.

Associated with the Company's 2015 acquisition of Capital Business Systems, Inc. assets totaling approximately \$1,407,000 were transferred into the Plan from the Capital Business Systems, Inc. Retirement Plan on March 15, 2016, leaving the Plan as the surviving retirement plan. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ending.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses based on participant earnings or account balances, as defined in the Plan agreement.

Vesting

All contributions made by individual participants are fully vested upon the date of contribution. Participants are immediately vested upon reaching normal retirement age, death, total disability or termination of the Plan. With regard to employer contributions, participants are vested in accordance with the schedule below:

Years of Services	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A Plan year during which an employee completes 1,000 or more hours is deemed to be a year of vesting service. If the employee is terminated or departs the organization for any reason, all unvested contributions are forfeited upon a forfeiture date coinciding with five consecutive breaks in service or, if earlier, when a participant has received the entire vested portion of their accounts.

Investment Options

Under the Plan, participants may currently direct investments to any of 18 investment options. Exceptions aside, participants may change their investment elections daily through a telephone access system or online system.

Note A – Description of Plan (continued)

Participant Loans

Loans are not available to participants in the Plan, unless it is a loan transferred from another qualified plan due to acquisition. The Plan administrator does have the ability to modify loans to meet conditions for compliance with the terms of the Plan's loan policy. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. The loans are secured by the balances in the participant's account and bear interest at a rate determined by the previous plan. Interest rates range from 4.25% to 9.50%, and are paid along with principal through payroll deductions.

The Plan administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Unless the participant rolls over the loan, any default in repayment to the Plan will result in the treating of the balance due as a taxable distribution from the Plan.

Distribution of Benefits

On termination of service due to death, disability, termination or attainment of the normal retirement age, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the participant's vested account balance exceeds \$1,000, the Plan will allow the participant to elect when to commence distribution or permit a direct rollover to another qualified plan or IRA. If the vested account balance does not exceed \$1,000, the Plan will distribute the balance in a lump-sum.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses of the Plan and then reduce future Employer contributions. During 2016, Plan expenses and employer contribution payments were reduced by approximately \$1,012,000 from forfeited non-vested accounts. As of December 31, 2016 and 2015 there was \$59,238 and \$278,456, respectively, outstanding that could be used to pay administrative expenses and offset future Employer contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in changes to the footnote disclosures related to fair value measurements in Note B.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied resulting in changes to the footnote disclosures related to fully benefit-responsive investments in Note G.

As described in the Code Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments in mutual funds and common stock are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. Participant loans are valued at their outstanding balance, which approximates fair value.

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by the Code, investment contracts held by a defined contribution plan are required to be reported at their fair value. However, contract value is the relevant measurement factor for the Plan's fully benefit-responsive investment contracts because contract value is generally the amount that participants receive when they initiate permitted transactions. During the periods presented herein, the contract values of the Plan's fully benefit-responsive investment contracts reasonably approximate their corresponding fair values which were based on information reported by the investment advisor using the audited financial statements of the contract trust at year-end. See Note G for further details.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays some administrative expenses, with the exception of investment management and transaction fees, some of which are paid by the participants who incur such fees. For the year ended December 31, 2016, the Plan paid administrative expenses totaling approximately \$469,000.

Fair Value Measurements

The Code has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">Quoted prices for similar assets or liabilities in active markets;Quoted prices for identical or similar assets or liabilities in inactive markets;Inputs other than quoted prices that are observable for the asset or liability;Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market funds: Valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self directed brokerage - Valued at the last quoted sales price as of the close of trading at year end.

The valuation methods described in the Valuation of Investments section above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

<u>Fair Value Measurements at Reporting Date Using:</u>			
	Assets Measured at Fair Value at 12/31/2016	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)

Notes to Financial Statements

December 31, 2016 and 2015

Note C – Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the Trustee that the information provided to the Plan administrator by the Trustee as of and for the years ended December 31, 2016 and 2015 are complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 23, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the IRC and is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2014.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are managed by the Trustee, including a money market fund, mutual funds, a self directed brokerage account, and a guaranteed investment contract. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to the Trustee by the Plan for investment services amounted to approximately \$469,000 in total during the year ended December 31, 2016.

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note G – Fully Benefit-Responsive Investment Contracts

The Prudential 105703 Guaranteed Interest Account is a benefit-responsive investment contract. Interest is credited to participant accounts using the single portfolio rate approach whereby a discrete contractual interest rate is applied to all contributions during the period, regardless of the timing of the receipt of the contributions during such period. For the years ended December 31, 2016 and 2015, the investment in the Prudential 105703 Guaranteed Interest Account totaled \$61,813,454 and \$54,066,734, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exempt under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note H – Subsequent Events

Subsequent events have been evaluated through July 7, 2017, which is the date the financial statements were available to be issued.

Effective January 1, 2017, the plan was restated to ensure compliance with the latest plan determination letter.

INDEPENDENT AUDITOR'S REPORT

To the **Global Imaging Systems 401(k) Retirement Plan** Administrator and Participants:

Report on the Financial Statements

We were engaged to audit the accompanying statement of net assets available for benefits of **Global Imaging Systems 401(k) Retirement Plan** (the "Plan") as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016 and the supplemental schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2016. These financial statements and supplemental schedule are the responsibility of the Plan's management.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Prudential Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets, notes receivable from participants, and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016 that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule as of or for the year ended December 31, 2016 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Note A – Description of Plan

The following description of the Global Imaging Systems 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established May 1, 1996, and subsequently restated January 1, 2017, is a defined contribution savings plan covering substantially all employees of Global Imaging Systems, Inc. and its subsidiaries that have adopted the Plan as of December 31, 2016 (collectively, referred to as the "Company" or the "Employer"), who have attained age 21 and one hour (1,000 hours prior to June 23, 1999) of service, excluding employees subject to a collective bargaining agreement, leased employees and nonresident aliens. Employees may immediately begin contributing on their eligibility date. If an eligible employee does not complete a deferral election prior to 30 days following entry date, they are automatically enrolled into the Plan at a 1% deferral rate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 1, 2013, the Plan was amended and restated in order to allow Roth participant contributions and to change the definition of compensation to no longer consider certain fringe benefits as eligible earnings. On July 1, 2014, the Plan was amended to change the automatic enrollment rate and automatic rate increase provisions. On January 14, 2015, the Plan was amended to allow for loans from a merger.

Administration of the Plan

Prudential Trust Company (the Trustee) is a third-party administrator hired by the Company. The Trustee maintains accounting records, holds the Plan's assets, and manages contributions. With regard to contributions, the Trustee invests cash received, interest and dividend income as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 75% for December 31, 2016 and 2015 of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. The maximum employee deferral for the years ended December 31, 2016 and 2015 was \$18,000. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of \$6,000 for December 31, 2016 and 2015.

For participants who have one year of service or more, the Company may make matching contributions at its discretion as a percentage of the participant's elective deferrals to the Plan, not to exceed 100%. For the year ended December 31, 2016 the Company matched contributions at a rate of 75% for the first 6% of employee deferrals. Employees enter the Plan for matching and discretionary contributions the first day of the quarter following one year of service.

The Plan also allows participants to contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Note A – Description of Plan (continued)

Plan Merger

Associated with the Company's 2015 acquisition of Conestoga Copier, Inc. assets totaling approximately \$1,722,000 were transferred into the Plan from the Conestoga Copier, Inc. 401(k) Plan on March 15, 2016, leaving the Plan as the surviving retirement plan. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ending.

Associated with the Company's 2015 acquisition of Capital Business Systems, Inc. assets totaling approximately \$1,407,000 were transferred into the Plan from the Capital Business Systems, Inc. Retirement Plan on March 15, 2016, leaving the Plan as the surviving retirement plan. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ending.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses based on participant earnings or account balances, as defined in the Plan agreement.

Vesting

All contributions made by individual participants are fully vested upon the date of contribution. Participants are immediately vested upon reaching normal retirement age, death, total disability or termination of the Plan. With regard to employer contributions, participants are vested in accordance with the schedule below:

Years of Services	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A Plan year during which an employee completes 1,000 or more hours is deemed to be a year of vesting service. If the employee is terminated or departs the organization for any reason, all unvested contributions are forfeited upon a forfeiture date coinciding with five consecutive breaks in service or, if earlier, when a participant has received the entire vested portion of their accounts.

Investment Options

Under the Plan, participants may currently direct investments to any of 18 investment options. Exceptions aside, participants may change their investment elections daily through a telephone access system or online system.

Note A – Description of Plan (continued)

Participant Loans

Loans are not available to participants in the Plan, unless it is a loan transferred from another qualified plan due to acquisition. The Plan administrator does have the ability to modify loans to meet conditions for compliance with the terms of the Plan's loan policy. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. The loans are secured by the balances in the participant's account and bear interest at a rate determined by the previous plan. Interest rates range from 4.25% to 9.50%, and are paid along with principal through payroll deductions.

The Plan administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Unless the participant rolls over the loan, any default in repayment to the Plan will result in the treating of the balance due as a taxable distribution from the Plan.

Distribution of Benefits

On termination of service due to death, disability, termination or attainment of the normal retirement age, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the participant's vested account balance exceeds \$1,000, the Plan will allow the participant to elect when to commence distribution or permit a direct rollover to another qualified plan or IRA. If the vested account balance does not exceed \$1,000, the Plan will distribute the balance in a lump-sum.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses of the Plan and then reduce future Employer contributions. During 2016, Plan expenses and employer contribution payments were reduced by approximately \$1,012,000 from forfeited non-vested accounts. As of December 31, 2016 and 2015 there was \$59,238 and \$278,456, respectively, outstanding that could be used to pay administrative expenses and offset future Employer contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in changes to the footnote disclosures related to fair value measurements in Note B.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied resulting in changes to the footnote disclosures related to fully benefit-responsive investments in Note G.

As described in the Code Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments in mutual funds and common stock are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. Participant loans are valued at their outstanding balance, which approximates fair value.

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by the Code, investment contracts held by a defined contribution plan are required to be reported at their fair value. However, contract value is the relevant measurement factor for the Plan's fully benefit-responsive investment contracts because contract value is generally the amount that participants receive when they initiate permitted transactions. During the periods presented herein, the contract values of the Plan's fully benefit-responsive investment contracts reasonably approximate their corresponding fair values which were based on information reported by the investment advisor using the audited financial statements of the contract trust at year-end. See Note G for further details.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays some administrative expenses, with the exception of investment management and transaction fees, some of which are paid by the participants who incur such fees. For the year ended December 31, 2016, the Plan paid administrative expenses totaling approximately \$469,000.

Fair Value Measurements

The Code has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">Quoted prices for similar assets or liabilities in active markets;Quoted prices for identical or similar assets or liabilities in inactive markets;Inputs other than quoted prices that are observable for the asset or liability;Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market funds: Valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self directed brokerage - Valued at the last quoted sales price as of the close of trading at year end.

The valuation methods described in the Valuation of Investments section above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

<u>Fair Value Measurements at Reporting Date Using:</u>			
	Assets Measured at Fair Value at 12/31/2016	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)

Notes to Financial Statements

December 31, 2016 and 2015

Note C – Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the Trustee that the information provided to the Plan administrator by the Trustee as of and for the years ended December 31, 2016 and 2015 are complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 23, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the IRC and is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2014.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are managed by the Trustee, including a money market fund, mutual funds, a self directed brokerage account, and a guaranteed investment contract. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to the Trustee by the Plan for investment services amounted to approximately \$469,000 in total during the year ended December 31, 2016.

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note G – Fully Benefit-Responsive Investment Contracts

The Prudential 105703 Guaranteed Interest Account is a benefit-responsive investment contract. Interest is credited to participant accounts using the single portfolio rate approach whereby a discrete contractual interest rate is applied to all contributions during the period, regardless of the timing of the receipt of the contributions during such period. For the years ended December 31, 2016 and 2015, the investment in the Prudential 105703 Guaranteed Interest Account totaled \$61,813,454 and \$54,066,734, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exempt under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note H – Subsequent Events

Subsequent events have been evaluated through July 7, 2017, which is the date the financial statements were available to be issued.

Effective January 1, 2017, the plan was restated to ensure compliance with the latest plan determination letter.

INDEPENDENT AUDITOR'S REPORT

To the **Global Imaging Systems 401(k) Retirement Plan** Administrator and Participants:

Report on the Financial Statements

We were engaged to audit the accompanying statement of net assets available for benefits of **Global Imaging Systems 401(k) Retirement Plan** (the "Plan") as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016 and the supplemental schedule H, line 4i—Schedule of Assets (Held at End of Year) as of December 31, 2016. These financial statements and supplemental schedule are the responsibility of the Plan's management.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Prudential Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets, notes receivable from participants, and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of December 31, 2016 and 2015 and for the year ended December 31, 2016 that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule as of or for the year ended December 31, 2016 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note A – Description of Plan

The following description of the Global Imaging Systems 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established May 1, 1996, and subsequently restated January 1, 2017, is a defined contribution savings plan covering substantially all employees of Global Imaging Systems, Inc. and its subsidiaries that have adopted the Plan as of December 31, 2016 (collectively, referred to as the "Company" or the "Employer"), who have attained age 21 and one hour (1,000 hours prior to June 23, 1999) of service, excluding employees subject to a collective bargaining agreement, leased employees and nonresident aliens. Employees may immediately begin contributing on their eligibility date. If an eligible employee does not complete a deferral election prior to 30 days following entry date, they are automatically enrolled into the Plan at a 1% deferral rate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 1, 2013, the Plan was amended and restated in order to allow Roth participant contributions and to change the definition of compensation to no longer consider certain fringe benefits as eligible earnings. On July 1, 2014, the Plan was amended to change the automatic enrollment rate and automatic rate increase provisions. On January 14, 2015, the Plan was amended to allow for loans from a merger.

Administration of the Plan

Prudential Trust Company (the Trustee) is a third-party administrator hired by the Company. The Trustee maintains accounting records, holds the Plan's assets, and manages contributions. With regard to contributions, the Trustee invests cash received, interest and dividend income as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 75% for December 31, 2016 and 2015 of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. The maximum employee deferral for the years ended December 31, 2016 and 2015 was \$18,000. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of \$6,000 for December 31, 2016 and 2015.

For participants who have one year of service or more, the Company may make matching contributions at its discretion as a percentage of the participant's elective deferrals to the Plan, not to exceed 100%. For the year ended December 31, 2016 the Company matched contributions at a rate of 75% for the first 6% of employee deferrals. Employees enter the Plan for matching and discretionary contributions the first day of the quarter following one year of service.

The Plan also allows participants to contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Note A – Description of Plan (continued)

Plan Merger

Associated with the Company's 2015 acquisition of Conestoga Copier, Inc. assets totaling approximately \$1,722,000 were transferred into the Plan from the Conestoga Copier, Inc. 401(k) Plan on March 15, 2016, leaving the Plan as the surviving retirement plan. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ending.

Associated with the Company's 2015 acquisition of Capital Business Systems, Inc. assets totaling approximately \$1,407,000 were transferred into the Plan from the Capital Business Systems, Inc. Retirement Plan on March 15, 2016, leaving the Plan as the surviving retirement plan. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ending.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution and performance sharing amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses based on participant earnings or account balances, as defined in the Plan agreement.

Vesting

All contributions made by individual participants are fully vested upon the date of contribution. Participants are immediately vested upon reaching normal retirement age, death, total disability or termination of the Plan. With regard to employer contributions, participants are vested in accordance with the schedule below:

Years of Services	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A Plan year during which an employee completes 1,000 or more hours is deemed to be a year of vesting service. If the employee is terminated or departs the organization for any reason, all unvested contributions are forfeited upon a forfeiture date coinciding with five consecutive breaks in service or, if earlier, when a participant has received the entire vested portion of their accounts.

Investment Options

Under the Plan, participants may currently direct investments to any of 18 investment options. Exceptions aside, participants may change their investment elections daily through a telephone access system or online system.

Note A – Description of Plan (continued)

Participant Loans

Loans are not available to participants in the Plan, unless it is a loan transferred from another qualified plan due to acquisition. The Plan administrator does have the ability to modify loans to meet conditions for compliance with the terms of the Plan's loan policy. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. The loans are secured by the balances in the participant's account and bear interest at a rate determined by the previous plan. Interest rates range from 4.25% to 9.50%, and are paid along with principal through payroll deductions.

The Plan administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Unless the participant rolls over the loan, any default in repayment to the Plan will result in the treating of the balance due as a taxable distribution from the Plan.

Distribution of Benefits

On termination of service due to death, disability, termination or attainment of the normal retirement age, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the participant's vested account balance exceeds \$1,000, the Plan will allow the participant to elect when to commence distribution or permit a direct rollover to another qualified plan or IRA. If the vested account balance does not exceed \$1,000, the Plan will distribute the balance in a lump-sum.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to pay administrative expenses of the Plan and then reduce future Employer contributions. During 2016, Plan expenses and employer contribution payments were reduced by approximately \$1,012,000 from forfeited non-vested accounts. As of December 31, 2016 and 2015 there was \$59,238 and \$278,456, respectively, outstanding that could be used to pay administrative expenses and offset future Employer contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in changes to the footnote disclosures related to fair value measurements in Note B.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied resulting in changes to the footnote disclosures related to fully benefit-responsive investments in Note G.

As described in the Code Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investments in mutual funds and common stock are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. Participant loans are valued at their outstanding balance, which approximates fair value.

Note B – Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

As required by the Code, investment contracts held by a defined contribution plan are required to be reported at their fair value. However, contract value is the relevant measurement factor for the Plan's fully benefit-responsive investment contracts because contract value is generally the amount that participants receive when they initiate permitted transactions. During the periods presented herein, the contract values of the Plan's fully benefit-responsive investment contracts reasonably approximate their corresponding fair values which were based on information reported by the investment advisor using the audited financial statements of the contract trust at year-end. See Note G for further details.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays some administrative expenses, with the exception of investment management and transaction fees, some of which are paid by the participants who incur such fees. For the year ended December 31, 2016, the Plan paid administrative expenses totaling approximately \$469,000.

Fair Value Measurements

The Code has established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">Quoted prices for similar assets or liabilities in active markets;Quoted prices for identical or similar assets or liabilities in inactive markets;Inputs other than quoted prices that are observable for the asset or liability;Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Global Imaging Systems 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2016 and 2015

Note B – Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Money market funds: Valued at amortized cost, which approximates fair value. The amortized cost of an instrument is determined by valuing it at its original cost and thereafter amortizing any discount or premium from its face value at a constant rate until maturity.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self directed brokerage - Valued at the last quoted sales price as of the close of trading at year end.

The valuation methods described in the Valuation of Investments section above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

<u>Fair Value Measurements at Reporting Date Using:</u>			
	Assets Measured at Fair Value at 12/31/2016	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)

Notes to Financial Statements December 31, 2016 and 2015

Note C – Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the Trustee that the information provided to the Plan administrator by the Trustee as of and for the years ended December 31, 2016 and 2015 are complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated July 23, 2014, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the IRC and is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2014.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are managed by the Trustee, including a money market fund, mutual funds, a self directed brokerage account, and a guaranteed investment contract. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to the Trustee by the Plan for investment services amounted to approximately \$469,000 in total during the year ended December 31, 2016.

Notes to Financial Statements

December 31, 2016 and 2015

Note G – Fully Benefit-Responsive Investment Contracts

The Prudential 105703 Guaranteed Interest Account is a benefit-responsive investment contract. Interest is credited to participant accounts using the single portfolio rate approach whereby a discrete contractual interest rate is applied to all contributions during the period, regardless of the timing of the receipt of the contributions during such period. For the years ended December 31, 2016 and 2015, the investment in the Prudential 105703 Guaranteed Interest Account totaled \$61,813,454 and \$54,066,734, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exempt under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note H – Subsequent Events

Subsequent events have been evaluated through July 7, 2017, which is the date the financial statements were available to be issued.

Effective January 1, 2017, the plan was restated to ensure compliance with the latest plan determination letter.
