COLLECTIVE BARGAINED RETIREMENT PLAN

Notes to Financial Statements
Years Ended December 31, 2016 and 2015

Note 1 – Description of Plan

The following description of the Toledo Molding & Die, Inc. Collective Bargained Retirement Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions. The Plan agreement may be obtained at the administrative offices of Toledo Molding & Die, Inc. (the Company, Plan Sponsor and Plan Administrator).

General

The Plan was adopted by the Company effective April 12, 1990 and restated effective April 15, 2016. The Plan is a savings plan covering all eligible employees subject to the collective bargaining agreements of U.A.W. Local #2021 at the Company's Tiffin location, Local #2279 at the Delphos location, and Local #4444 at the Bowling Green location, as defined by the Plan agreement.

Effective April 15, 2016, the plan assets from the Toledo Molding & Die, Inc. Phillips Hourly Retirement Plan were merged into this plan, making up the majority of the transfer from affiliated plans.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, and an allocation of Plan earnings (losses). The allocation of Plan earnings (losses) is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. Participants direct the investment of their account balances among the investment funds offered by the Plan.

Notes Receivable from Participants

Participants are permitted loans up to the lesser of \$50,000 or 50% of their vested account balance. Participants should refer to the Plan agreement for a complete description of loan provisions.

Contributions

Participants may elect to defer up to 50% of annual earnings as defined by the Plan. The Company may make discretionary matching contributions to the Plan based on the amounts deferred by participants. The Company's matching contribution is specified in each collective bargaining agreement.

COLLECTIVE BARGAINED RETIREMENT PLAN

Notes to Financial Statements
Years Ended December 31, 2016 and 2015

Note 1 – Description of Plan (continued)

Vesting

Upon retirement, total and permanent disability before retirement, or death, participants (or their beneficiaries) are entitled to receive the full value of their accounts. Upon termination of employment for any reason other than retirement, total and permanent disability, or death, a participant is entitled to the vested interest in his or her account. Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Vesting of employer contributions is based upon years of continuous service. A participant's account vests ratably, becoming fully vested after five years of credited service. For former Phillips plan participants, their vesting schedule remained at full vesting after three years for matching contributions. Non-elective employer contributions continued to vest ratably becoming fully vested after five years of credited service.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts may be used to reduce Company contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in the total value of their account.

Administrative Costs

The Plan will pay for some or all administrative costs, as rendered by parties-in-interest, as described in the Plan document.

Note 2 – Significant Accounting Policies

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's investments are held at Fifth Third Bank, the Plan's Trustee.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

Common/collective trust funds (CCTs) represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued at the net asset value (NAV). The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2016 and 2015, net appreciation (depreciation) of investments, and dividends and interest for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

Note 4 – Fair Value Measurements

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value, as of December 31, 2016 and 2015. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Note 7 – Income Tax Status

The Internal Revenue Service ruled on March 31, 2014, that the Prototype Non-standardized Profit-Sharing Plan with CODA (the prototype plan of the Trustee upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. Subsequent to this ruling the Plan was amended. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is currently designed in compliance with the applicable requirements of the IRC, and has indicated that it is taking the necessary steps, if any, to bring the Plan's operations into compliance.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefit.

Note 9 – Subsequent Events

Management has evaluated subsequent events through August 1, 2017, the date the financial statements were available to be issued, and determined that no additional events have occurred that require recognition or disclosure.
