Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Matrix Providers Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2012 and most recently restated on January 1, 2016. The Plan is available to eligible employees age 19 years or older on the day they are hired. Discretionary profit sharing contributions are available to employees 21 years or older who have completed one year of service (1,000 hours). Employees may enter the plan immediately upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Matrix Providers, Inc. (the "Company") administers the Plan. John Hancock Life Insurance Company (U.S.A.) ("John Hancock") serves as trustee, manages Plan assets, and maintains the Plan's records. John Hancock offers Plan participants a variety of investment options through various pooled separate accounts and a common/collective trust. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 90% of their total annual compensation, not to exceed IRS limitations, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Participants may elect to contribute a percentage of eligible compensation into the Plan on an after-tax basis as a Roth 401(k) contribution. After-tax contributions are subject to special Internal Revenue Code ("IRC") rules that must be satisfied and reduce the maximum amount a participant may contribute. Employee contributions to the Plan are made through regular payroll deductions. The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferral. Each year, the Company will determine the formula for the discretionary matching contribution. To the extent matching contributions are designated as qualified, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 65. There were no discretionary or profit-sharing contributions to the Plan for the year ended December 31, 2016.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's discretionary matching contribution, discretionary profit-sharing contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65), retirement due to disability, or if the Plan is terminated.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 minus the difference between the highest outstanding balance of loans in the past 12 months and the outstanding balance of loans from the Plan on the date the loan is made or 50% of their vested account balances. A participant may only have one currently outstanding loan from the Plan. Loan repayments should be made over a period of time not to exceed five years, except in the case of a loan used to purchase a personal residence, which may be repaid over ten years. The loans are secured by the balances in the participants' accounts and interest rates are commensurate with local prevailing rates as determined at the initial date of the loan by the Plan administrator. As of December 31, 2016, there were no participant loans outstanding.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits

Upon termination of service, disability, or attaining retirement age, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance. For termination of service due to death, a complete distribution will be made by December 31 of the calendar year containing the fifth anniversary of the participant's death. Upon a distributable event, if an employee's vested balance is less than $5,000, a lump-sum distribution will be made. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses or reduce employer contributions or shall be allocated to participants in the same manner as the employer's contribution. There were no forfeitures for the years ended December 31, 2016 and 2015 (compiled).

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by John Hancock. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The investments for the Plan are comprised of pooled separate investment accounts and a common/collective trust. Plan investments in pooled separate investment accounts are valued at net asset value ("NAV") by John Hancock based upon the fair value of the investments comprising the separate funds. The common/collective trust is valued based on the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, less its liabilities, and divided by the number of units outstanding. The NAV of the investment is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by John Hancock are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies. During the year ended December 31, 2016, two investments accounted for 34% of investment income.

As of December 31, 2016 and 2015 (compiled), three investments accounted for 47% and 63%, respectively, of total investments at fair value.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 2 - Information Certified by John Hancock

John Hancock has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2016 and the income earned or losses incurred on the investments and loans at amortized cost for the year then ended, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by John Hancock, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

As of December 31, 2016 and 2015 (compiled), the investments included pooled separate accounts and a common/collective trust fund. The pooled separate accounts are recorded at the NAV of the investments comprising the separate funds, the majority of which have observable Level 1 pricing inputs, including publicly quoted prices and quoted prices for similar assets in active or non-active markets (market approach). These funds are redeemed on an immediate basis and have no unfunded commitments. Pooled separate accounts do not have publicly traded NAV or share prices. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The investments in the common/collective trust account are valued based on the NAV as a practical expedient. There are no unfunded commitments and the units may be redeemed on a daily basis. Therefore, there are no investments to be disclosed within the fair value hierarchy.

There were no changes to the valuation techniques used during the period.

Reported Net Asset Values

The following table provides information regarding assets where the NAV of pooled separate accounts and common/collective trust investments has been determined based on the NAV of the fund as a practical expedient:

	December 31, 2016 Fair Value	December 31, 2015 Fair Value (Compiled)	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate accounts	$ 1,174,683	$ 507,541	$ -	Immediate	N/A	1 day
Common/collective trust	4,326	309	-	Immediate	N/A	1 day
Total	$ 1,179,009	$ 507,850	$ -			

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the trustee's determination letter dated March 31, 2014, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016 and 2015 (compiled), there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

The Company experienced significant downsizing and operating losses during the year ended December 31, 2016.

As a result of a reduction of the Plan sponsor's workforce, the Plan experienced a partial plan termination as defined by ERISA. Under ERISA, a partial plan termination may occur if 20% of the Plan participants are terminated because of an action taken by the Plan sponsor. If a partial plan termination occurs, full vesting is required for the terminated participants, but the remaining participants' vesting continues to be determined according to the plan provisions. All terminated employees who were participants in the Plan were fully vested in their account balances at the date of the partial plan termination; therefore, there was no impact on vesting caused by the partial plan termination.

Note 7 - Related Party and Party-in-Interest Transactions

Plan investments are pooled separate accounts and a common/collective trust fund, which are managed by John Hancock. John Hancock is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions and receivables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2016 due to the accrual of participant contributions paid to the Plan subsequent to year-end.
