Note 1: Description Of Plan

The following description of the Hill & Markes, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Hill & Markes, Inc. (the Company), who are age 21 or older, except those subject to collective bargaining agreements and certain nonresidential aliens, and who have attained six months of credited service. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants have the option of making after-tax Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching contributions. During the years ended December 31, 2016 and 2015, the Company made matching contributions equal to 25% of actual deferrals of the first 6% of eligible employees' salaries. In addition, the Company has the option of making additional discretionary contributions. Contributions are subject to certain dollar limitations.

Participants' accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's discretionary contributions, if any, plan earnings, and are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account balance.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service; a participant is 100% vested after six years of credited service. Participant accounts become fully vested upon attainment of the normal retirement age of 65, upon death, or disability.

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans must be adequately secured and made in accordance with the terms of the Plan. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or separation of service, a participant or their beneficiary will be entitled to receive a distribution of the participants total vested account balance. Benefits will be paid in accordance with terms of the Plan.

Plan termination - Although it has not expressed any intention to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants would become 100% vested in their employer contributions.

Note 1: Description Of Plan (Continued)

Forfeited accounts - At December 31, 2016 and 2015, the Plan had forfeitures from terminated, non-vested participant accounts of $3,223 and $777, respectively. These amounts can be used to pay for plan expenses or reduce employer contributions.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - Investments held by the Plan measured at contract value and those measured at fair value using the net asset value per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy and a description of the hierarchy levels is not included in the disclosures.

The accompanying financial statements are presented on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis with the gain or loss based upon the actual cost of the securities. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan has adopted a prototype plan through Massachusetts Mutual Life Insurance Company which has an opinion letter dated March 16, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Note 2: Summary Of Significant Accounting Policies (Continued)

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on total net assets available for benefits or changes in net assets available for benefits.

Change in accounting principles - In May 2015, the FASB issued Accounting Standards Update (ASU) *2015-07, Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The update is to be applied retrospectively. Management has elected to adopt the update early. There was no material impact on the Plan's net assets available for benefits or changes in net assets available for benefits upon adoption of the new ASU.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates that requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further, the disclosure of information about fair value measurements shall be provided by general type of asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management elected to adopt Part II for the year ended December 31, 2015. Management adopted Part I in the year ended December 31, 2016. There was no material impact on the Plan's net asset available for benefits or changes in net assets available for benefits upon adoption of the new ASU.

Note 3: Investments

The statements of net assets available for benefits, the investment activities included in the statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015, and the accompanying notes to the financial statements (other than the assignment of levels) were prepared in part or entirely from information certified by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments and notes receivable from participants of $11,360,679 and $10,117,221 at December 31, 2016 and 2015, respectively, and related investment income (loss) of $642,067 and ($37,370) for the years ended December 31, 2016 and 2015, respectively.

Note 4: Fair Value Measurements

The following is a description of the valuation methodology used for assets at fair value at December 31, 2016 and 2015:

Pooled separate accounts with insurance company: Valued at the net asset value (NAV) of the underlying pool of securities. The objective of each Pooled Separate Account is to seek a high total rate of return over the long term and to also provide a means of capital appreciation by investing in various types of securities determined by a fundamental analysis of factors such as each issuer's financial condition and industry position, as well as evaluating current market and economic conditions. The pooled separate accounts may be redeemed at any time.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Fair Value Measurements At Reporting Date

December 31, 2016

Investments measured at net asset value as a practical expedient:	
Pooled separate accounts with insurance company	$ 8,194,586
Total Investments At Fair Value	$ 8,194,586

Note 4: Fair Value Measurements (Continued)

Fair Value Measurements At Reporting Date (Continued)

December 31, 2015

Investments measured at net asset value:	
as a practical expedient:	
Pooled separate accounts with insurance company	$ 7,711,921
Total Investments At Fair Value	$ 7,711,921

The Plan entered into an investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in pooled separate accounts and a guaranteed investment contract, Guaranteed Interest Account. The accounts are credited with earnings associated with the underlying investments and charged for participant withdrawals and administrative expenses.

The Guaranteed Interest Account is included in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because it is fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, the contract generally provides that withdrawals associated with certain events which are not in the ordinary course of fund operations, and are determined by the issuer to have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in the contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Units of the Guaranteed Interest Account may be redeemed at any time and the contract contains no withdrawal penalty provisions.

Note 5: Excess Contributions Payable

Benefits paid to participants for 2016 and 2015 include excess deferral contributions of $18,492 and $5,433, respectively. These amounts relate to excess deferral contributions paid or owed to certain active participants as required by the nondiscrimination provisions of the Plan. The amounts are also included in the Plan's statements of net assets available for benefits as excess contributions payable at December 31, 2016 and 2015.

Note 6: Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation to the net assets available for benefits per the financial statements to Form 5500 for the years ended December 31, 2016 and 2015:

	2016	2015
Net assets available for benefits per the financial statements	$ 11,342,187	$ 10,133,993
Excess contributions payable	18,492	5,433
Net Assets Available For Benefits Per Schedule H Of Form 5500	$ 11,360,679	$ 10,139,426

The following is a reconciliation of total income from net assets per the financial statements to the Form 5500 for the year ended December 31, 2016:

Net increase in net assets available for benefits per financial statements	$ 1,208,194
Adjustment for excess contributions payable	13,059
Net Increase In Net Assets Available For Benefits Per Schedule H Of Form 5500	$ 1,221,253

Note 7: Related Party Transactions

Certain fees for administrative services may be paid by the Company. Certain plan investments are managed by Massachusetts Mutual Life Insurance Company as denoted on the supplemental Schedule of Assets (Held at End of Year). Massachusetts Mutual Life Insurance Company is the Custodian and record keeper for the Plan and, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

Note 8: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2016, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through August 3, 2017, which is the date the financial statements were available to be issued.
