Note 1: Description of the Plan

The following description of the Griswold Industries 401(k) Profit Sharing Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined-contribution plan that was adopted by a resolution of the Board of Directors of Griswold Industries (the "Company"), effective January 1, 1989, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed three months of service.

Contributions

Participants may elect to contribute up to 100 percent of their pretax annual compensation not to exceed the maximum deferral limitation, as defined in the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100 percent of the first 6 percent of base compensation that a participant contributes to the Plan up to a maximum of $1,800. The Company may make profit-sharing contributions at the discretion of the Board of Directors. No discretionary contributions were made to the Plan for the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings or losses, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their account plus actual earnings thereon is based on years of continuous service. A participant is 20 percent vested each year after one year of service and is considered to be 100 percent vested after five years of credited service.

Note 1: Description of the Plan (Continued)

Notes Receivable from Participants

Participants may borrow against their Plan account balance within Plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years, unless the purpose of the loan is to acquire a principal residence. The loan amount can be a minimum of $1,000 but cannot exceed the lesser of (a) $50,000 or (b) the greater of one-half of the participant's vested account balance under the Plan or $10,000, reduced by any previous outstanding loan balance at the date of the new loan. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through biweekly payroll deductions. The loans are secured by the vested account balance in the participant's account, and a participant can have a maximum of two loans outstanding at any time. Effective January 1, 2016, the Company changed its policy to only allow one outstanding loan at a time for all new participant loans.

Benefit Payments

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the vested portion in his or her account or an annuity over the life of the participant or designated beneficiary, as defined in the Plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59½, participants are allowed to withdraw their funds from the Plan. Distributions from the participants Roth account will be tax-free if the distribution meets the qualified distribution requirements as defined by the Plan.

Forfeitures

Forfeitures of the employee's nonvested portion of the Company's contributions are used to reduce future employer's contributions. At December 31, 2016 and 2015, forfeited nonvested accounts totaled $1,096 and $150, respectively. During 2016, employer contributions were reduced by $22,844 from forfeited nonvested accounts.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. The majority of administrative expenses incurred by the Plan are absorbed by the Company, except for fees related to administration of notes receivable from participants, which are deducted from the applicable participants' accounts.

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net realized and unrealized losses on investments.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting and Financial Statement Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value at December 31, 2016 and 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 11 for discussion of fair value of the Plan's mutual funds and guaranteed interest accounts. As further described in Note 12, fair value of the Plan's pooled separate accounts is measured using net asset value per share ("NAV") as a practical expedient.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits in net realized and unrealized gains on investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent notes receivable are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2: Summary of Significant Accounting Policies (Continued)

Use of Estimates

The process of preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks, and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by Custodian

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2016 and 2015, and net appreciation (depreciation) of investments and interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal, the custodian of the Plan.

Note 5: Excess Contributions Payable

ERISA requires the Plan to satisfy certain nondiscrimination provisions. The Plan is required to return some contributions in order to satisfy these provisions; therefore at December 31, 2016 and 2015, contributions payable are $31,714 and $41,282, respectively.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7: Withdrawn Participants

At December 31, 2016 and 2015, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 8: Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated April 1, 2013, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The related trust, therefore, is not subject to tax under the present income tax law.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 9: Fidelity Bond

ERISA requires that the Plan be covered by a fidelity bond. The amount of the bond must be equal to the lesser of 10 percent of the funds handled at the beginning of the Plan year or $500,000. As of January 1, 2016, the Plan met the ERISA minimum requirement and was bonded for $500,000.

Note 10: Parties in Interest

The investments in pooled separate accounts and guaranteed interest accounts are managed by Principal, the custodian as defined by the Plan, and therefore, these investments qualify as party-in-interest transactions. Additionally, the notes receivable from participants represent loans to employees and therefore also qualify as party-in-interest transactions.

Note 11: Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 11: Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Interest Accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 11: Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total

Total Investments at Fair Value	$ 2,220,405	$ -	$ 2,777,690	$ 31,665,347

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2015:

Note 11: Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs for the year ended December 31, 2016.

	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Rate or Range of Rates
Guaranteed Interest Accounts	$ 2,777,690	Discounted Cash Flow	Composite Guaranteed	0.10%-0.30%
			Current Rate on 12/31/16	1.31%

Note 12: Investments Measured Using Net Asset Value per Share

The Plan's pooled separate account investments are stated at net asset value at December 31, 2016 and 2015. Each unit in a pooled separate account invests directly in a unit of the mutual fund. Unit values are calculated based on the observable net asset value of the underlying investment in the mutual fund.

The following table for December 31, 2016, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:

	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled Separate Accounts	$26,667,252	None	Daily	None	60 days

The following table for December 31, 2015, sets forth a summary of the Plan's investments whose fair value is estimated using NAV (or its equivalent) as a practical expedient:
