NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Confer Plastics, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established effective April 1, 1994. Effective January 1, 2015, the Plan was amended and restated. Under the provisions of the agreement, employees of Confer Plastics, Inc. (the "Company") become eligible to make elective employees deferrals, and receive matching contributions on the first day of the month, following the employee completing 250 hours of service within their first three months of employment, or after 1 year of service as defined by the Plan and attaining an age of 18. Previously, employees became eligible to participate for employee deferrals and matching contributions upon completion of three months and one year of service, respectively, as defined in the Plan, and attaining the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions: Participants may defer up to 100 percent of compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis. The Company makes matching contributions equal to 20% of each participant's deferral contribution, not to exceed 5% of participant compensation. The Plan allows for after-tax Roth contributions.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in their employee contributions. Effective January 1, 2015 new participants become 20% vested in their employer match contributions after one year of service, 40% after 2 years, 60% after three years, 80% after 4 years, and 100% after 5 years of service. Previously, participants became 100% vested in their employer match and discretionary contributions plus actual earnings thereon after one year of service.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested portion of their account balance, whichever is less. A loan is collateralized by the balance in the participant's account. The loan interest rate, determined daily, is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the vested portion of their account, a distribution in the form of installment payments, cash, other marketable securities, or a combination of these payment options. Participants with a vested account balance less than $1,000 will receive a lump-sum distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts: At December 31, 2016 and 2015, forfeited nonvested accounts totaled $1,207 and $960 respectively. Forfeitures result from nonvested benefit payments remaining in the Plan from terminated employees. Amounts forfeited by participants will be used first to reduce administrative expenses, then to reduce employer contributions.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of accounting: The Plan's financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent event: These financial statements have not been updated for subsequent events occurring after July 27, 2017, which is the date these financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2: Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: The separate accounts are stated at fair value based on the quoted market prices of the underlying mutual funds. The unit value of the separate accounts is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares.

In accordance with Subtopic 820-10, certain investments that were measured at NAV (or its equivalent) have not been classified in the fair value hierarchy.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016 and 2015, respectively.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 1,774,014	N/A	Daily	None

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 1,538,279	N/A	Daily	None

NOTE 4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan entered into a traditional investment contract with Massachusetts Mutual Life Insurance Company ("Mass Mutual"). Mass Mutual maintains the contributions in a general account. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contact value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

NOTE 4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (CONTINUED)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specific interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3.00%. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include but may not be limited to a participant termination of employment due to:

1. Removal of a group of participants from plan coverage as a result of temporary absence;
2. Change in position or other occurrence qualifying as a temporary break in service under the plan;
3. Transfer or other change or position resulting in employment by an entity controlling, controlled by, or under other common control with the employer;
4. Cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business;
5. Removal from the plan of one or more groups or classifications of participants;
6. Partial or complete plan termination;
7. Plan disqualification.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with Participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. The Plan sponsor provides effective communication to Mass Mutual that the agreement will be fully or partially terminated as of a date selected by the Plan sponsor, which will be no earlier than 30 days after the Plan sponsor provides effective communication to Mass Mutual;
2. Plan disqualification;
3. There is a termination or partial termination of the Plan;
4. The Plan sponsor breaches a provision of the Agreement;
5. Mass Mutual provides effective communication to the Plan sponsor that the agreement will be terminated as of a date at least 90 days after Mass Mutual provides such communication to the Plan sponsor.

NOTE 5. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2016 and 2015, as well as income and transactions for the years ended, have been derived from information provided by Mass Mutual, the custodian of the Plan, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements and supplemental schedule of assets (held at end of year) is based solely on their certifications and has not been audited by independent accountants.

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments are maintained in investment funds managed by Mass Mutual. Mass Mutual is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees incurred by the Plan for the investment management services are included in appreciation on investments, as they are paid through revenue sharing, rather than direct payment. The Company pays directly any other fees related to the Plan's operations. Fees paid by the Plan for the administrative services amounted to $5,191 for the year ended December 31, 2016 ($4,069 - 2015). Investment earnings on funds managed by Mass Mutual amounted to $152,234 for the year ended December 31, 2016 ($57,048 - 2015). Interest income earned from notes receivable from participants also qualifies as party-in-interest transactions. Interest income from these transactions amounted to $5,453 ($4,391 - 2015).

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances.

NOTE 8. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 11, 2009, that the prototype Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") which is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 9. TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process.
