1. Plan Description

The following description of the Valet Waste LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more comprehensive description of the Plan's provisions.

a) *General* – The Plan is a 401(k) defined contribution plan covering substantially all full-time employees of Valet Waste, LLC (the Company) who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b) *Eligibility* – The Plan substantially covers all employees of the Company who have completed three months of service and are age twenty-one or older. Participants hired after June 1, 2013 are automatically enrolled into the Plan on the first day of the month following the date the age and service requirements are met. The Company withholds 2% of compensation as a pre-tax contribution unless the participant opts not to participate in the Plan. Unless the participant provides other direction, the deferral increases 1% each year until the deferral reaches 6%.

c) *Employee Contributions* – Each year, participants may contribute annual compensation up to the maximum amount allowed by law of either pre-tax compensation, after-tax compensation, or both types of contribution as defined in the Plan up to a maximum of $18,000 for the year ended December 31, 2016. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions of $6,000 for the current plan year. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

d) *Employer Contributions* – The Plan allows for discretionary employer matching contributions. The Board of Directors of the Company determines the matching contribution to be made; however the Company is not obligated to make a contribution. A participant's eligibility for matching contributions is based on the following factors: (1) the employee must be employed on the last day of the year; (2) employee must have completed at least 1,000 hours of service during the plan year. For 2016 and 2015, the Company offered a match of 100% of employees' contributions up to the

first 3% deferred and 50% of the next 2% deferred.

e) *Participants Accounts* – Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Administrative expenses may be charged based on account balances or charged equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

f) Investment Options – Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. Participants may change their investment options at any time online at the record keeper's website.

g) *Vesting* – Participants are vested immediately in their contributions and the Company's matching contributions.

h) *Notes Receivable from Participants* – Under the terms of the plan, participants may borrow up to fifty percent of their vested account balance, with a minimum of $1,000 and up to a maximum of $50,000. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

i) *Payment of Benefits* – In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested accumulated value of their account in a lump sum distribution payment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2016 through July, 27, 2017, the date the financial statements were issued. No material events requiring recognition or disclosure in the financial statements were noted.

4. Information Prepared and Certified by the Custodian

The following information included in the accompanying financial statements and supplemental material was obtained from data that has been prepared and certified to as complete and accurate by Fidelity Management Trust Company, Inc, the Plan's custodian.

December 31,	***2016***	*2015*
Investments, at fair value:		
Mutual Funds	**$ 3,584,576**	$2,804,239
Guaranteed investment contract, at contract value	**168,853**	128,863
Notes receivable from participants	**52,132**	48,647

Year ended December 31,	***2016***	*2015*
Investment income:		
Net decrease in fair value of investments	**$ 163,094**	$(193,046)
Interest and dividends	**175,165**	149,235
Interest income – participant notes receivable	**2,329**	3,720

5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds – Valued at the net asset value (NAV) of shares held by the Plan at year end. The Plan's mutual funds are publicly traded and included in Level 1 of the fair value hierarchy.

Guaranteed Investment Contract (GIC) – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The GIC is included in Level 2 of the fair value hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	Investment Assets at Fair Value December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,584,576	–	–	$ 3,584,576
Total investments at fair value	$ 3,584,576	–	–	$ 3,584,576

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$2,804,239	–	–	$ 2,804,239
Total investments at fair value	$2,804,239	–	–	$2,804,239

6. Guaranteed investment contract (GIC)

The Plan holds a fully benefit-responsive investment contact with Wells Fargo Bank (Wells Fargo), the Wells Fargo Stable Return Fund. Because the GIC is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of the statement of net assets available for benefits at contract value.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. In most cases, participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. The GIC issuer is contractually obligated to repay the principal and a specified minimum interest rate that is guaranteed to the plan.

The methodology for calculating the interest crediting rate is based on a number of factors including the earnings of the underlying assets compared to the minimum interest crediting rate as stated in the contract, mortality risks and prevailing market conditions. The interest crediting rate is reset quarterly.

	2016	2015
Average yields:		
Based on actual earnings	1.93%	1.83%
Based on interest rate credited to participants	1.94%	1.79%

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Related Party Transactions

Fidelity is the current recordkeeper and custodian of the Plan and qualifies as a party-in-interest. The Plan invests in mutual funds managed by Fidelity.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Prototype Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

e) *Participants Accounts* – Each participant's account is credited with the participant's contributions and allocation of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Administrative expenses may be charged based on account balances or charged equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

f) Investment Options – Participants direct the investment of their contributions and the Company's contribution into various investment options offered by the Plan. Participants may change their investment options at any time online at the record keeper's website.

g) *Vesting* – Participants are vested immediately in their contributions and the Company's matching contributions.

h) *Notes Receivable from Participants* – Under the terms of the plan, participants may borrow up to fifty percent of their vested account balance, with a minimum of $1,000 and up to a maximum of $50,000. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

i) *Payment of Benefits* – In the case of retirement, death, disability or termination of employment, participants may elect to receive the vested accumulated value of their account in a lump sum distribution payment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits paid to participants are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2016 through July, 27, 2017, the date the financial statements were issued. No material events requiring recognition or disclosure in the financial statements were noted.

5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds – Valued at the net asset value (NAV) of shares held by the Plan at year end. The Plan's mutual funds are publicly traded and included in Level 1 of the fair value hierarchy.

Guaranteed Investment Contract (GIC) – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The GIC is included in Level 2 of the fair value hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	Investment Assets at Fair Value December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,584,576	–	–	$ 3,584,576
Total investments at fair value	$ 3,584,576	–	–	$ 3,584,576

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$2,804,239	–	–	$ 2,804,239
Total investments at fair value	$2,804,239	–	–	$2,804,239

6. Guaranteed investment contract (GIC)

The Plan holds a fully benefit-responsive investment contact with Wells Fargo Bank (Wells Fargo), the Wells Fargo Stable Return Fund. Because the GIC is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of the statement of net assets available for benefits at contract value.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. In most cases, participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. The GIC issuer is contractually obligated to repay the principal and a specified minimum interest rate that is guaranteed to the plan.

The methodology for calculating the interest crediting rate is based on a number of factors including the earnings of the underlying assets compared to the minimum interest crediting rate as stated in the contract, mortality risks and prevailing market conditions. The interest crediting rate is reset quarterly.

	2016	2015
Average yields:		
Based on actual earnings	1.93%	1.83%
Based on interest rate credited to participants	1.94%	1.79%

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Related Party Transactions

Fidelity is the current recordkeeper and custodian of the Plan and qualifies as a party-in-interest. The Plan invests in mutual funds managed by Fidelity.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Prototype Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.
