Savings and Retirement Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Multi-Plastics, Inc. Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in 1985 by Multi-Plastics, Inc. (the Company and/or Plan Sponsor) as a 401(k) defined contribution plan covering all non-union employees who have attained age 18 and completed one half-year of service by the first day of the Plan year (January 1) or the first day of the seventh month following (July 1). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute up to 100% of their pretax annual compensation as defined by the Plan not to exceed the limits imposed by the Internal Revenue Service (IRS). The Plan Sponsor will match a certain percentage of the participant's contribution as determined by the Plan Sponsor's Board of Trustees. For the plan years ended December 31, 2015 and 2014, the Plan Sponsor elected to match 50% of participant contributions up to 12% of eligible compensation.

At its discretion, the Plan Sponsor may also make additional discretionary contributions to the Plan each year. Participants covered by the Plan and either employed on the last day of the Plan year with 500 hours of service credited during the Plan year, or not employed as a result of death, disability, or retirement may be allocated a portion of the Plan Sponsor's discretionary contribution to the Plan. Allocations are based on each participant's annual compensation as a percentage of total eligible participant compensation. During 2015 and 2014, the Plan Sponsor did not make any discretionary contributions in addition to the employer match.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Plan Sponsor's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Multi-Plastics, Inc.
Savings and Retirement Plan

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Plan Sponsor's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service as defined in the Plan document and represented by the following table:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Loan provisions

The Plan allows participants to borrow from their fund account balances. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 1%, as determined by the plan administrator, the day the loan is issued. Principal and interest is paid ratably through payroll deductions. Loan terms shall not exceed five years, unless the loan was used to acquire a principal residence. Participant accounts are assessed an initial administration fee for the issuance of a loan and are assessed a quarterly fee for as long as the loan is outstanding. Loan administration fees paid to Aspire Financial Services (Aspire) through charges to participants' accounts for 2015 and 2014 was \$1,725 and \$1,680, respectively.

Financial hardship withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need.

Payment of benefits

Benefits are recorded when paid. The participant's entire account balance becomes payable upon death, disability, or retirement in the form of a lump sum distribution or an annuity. Normal retirement is age 65; early retirement is not permitted. In service withdrawals are permitted for participants who have reached age 59½.

For termination of service due to other reasons, a participant may receive the value of the vested interest of his or her account as a lump sum distribution or in the form of an annuity.

Forfeitures

Forfeitures arising from balances of terminated participants with less than fully vested interests in the Plan are applied to reduce employer contributions after the occurrence of a one-year break in service. As of December 31, 2015 and 2014, forfeited amounts available to reduce employer contributions totaled \$5,198 and \$5,851, respectively. For the Plan years ended December 31, 2015 and 2014, \$22,568 and \$7,254, respectively, of the forfeited nonvested accounts were applied to reduce employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Recent accounting pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12 (ASU 2015-12), which updated guidance on investment valuation and presentation. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value (NAV) per share. These amendments are effective retrospectively for Plan years beginning after December 15, 2015 and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the Plan's year-end, when the period does not coincide with a month-end, while requiring certain additional disclosures. This portion of the update is effective prospectively for Plan years beginning after December 15, 2015 and early adoption is permitted. The Plan early adopted ASU 2015-12 during 2015.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Mutual funds are valued at the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded as declared.

Under the terms of the agreement between the custodian of the Plan and the Plan, the custodian manages the funds on behalf of the Plan. Plan participants may select how their accounts are invested in the various investments offered by the custodian. The value of the accumulated shares for each investment varies daily and reflects investment results, including dividends and market value changes based on quoted market values, less an amount for expenses of the investment fund.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Multi-Plastics, Inc.
Savings and Retirement Plan
Notes to Financial Statements

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Administrative fees

The Plan paid administrative expenses of \$107,190 and \$105,635 to TD Ameritrade and Aspire for the Plan years ended December 31, 2015 and 2014, respectively. All other professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Reclassifications

Certain 2014 amounts on the statements of changes in net assets available for benefits have been reclassified to conform with the 2015 financial statement presentation.

Subsequent events

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Input to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relative observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2015 and 2014 held by TD Ameritrade.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total

5. Excess Contributions Payable

During the annual compliance testing performed on the Plan year ended December 31, 2013, it was discovered that the Plan Sponsor over contributed. One pay period was accidentally contributed twice resulting in excess employer contributions estimated to be \$24,621. As of December 31, 2014 the Plan Sponsor had not paid the excess contribution out of the Plan. During August 2015, the Plan Sponsor re-evaluated the excess contribution and determined that the amount over contributed was \$33,003. The Plan management treated this as a change in estimate and increased the liability. The \$33,003 was paid in August 2015.

6. Plan Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in employer contributions credited to their accounts.

8. Income Tax Status

The Plan obtained its latest determination letter dated January 27, 2005, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan Administrator and Board of Trustees have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Professional fees for the administration and audit of the Plan are paid by the Plan Sponsor on behalf of the Plan.

As of December 31, 2015 and 2014, the Plan had assets in a TD Ameritrade money market account and thus TD Ameritrade is considered a party-in-interest.

10. Prohibited Transaction

As required by ERISA Section 2510.3-102, the Plan Sponsor is required to segregate participant contributions to the Plan from its general assets as soon as practicable, but in no event more than 15 business days following the end of the month in which amounts are withheld from wages. During 2015, the Company failed to remit to the Plan's custodian certain employee and employer contributions and participant loan repayments for the September 15, 2015 pay period, totaling \$2,389 within the period described by Department of Labor regulations. Delays in remitting contributions to the custodian were due to an administrative error. Repayment was remitted to the Plan's trust on October in the amount of \$6,572, including \$181 of lost earnings. There were no prohibited transactions for the Plan year ended December 31, 2014.
