Independent Auditor's Report

Plan Administrator and Management
Marrs Electric, Inc. Employee Stock Ownership Plan
Tulsa, Oklahoma

We have audited the accompanying financial statements of Marrs Electric, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of October 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended October 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of October 31, 2016 and 2015, and the changes in its net assets available for benefits for the year ended October 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As further discussed in *Note 1* to the financial statements, the Plan's sponsor approved an amendment to terminate the Plan effective March 31, 2016. In accordance with accounting principles generally accepted in the United States of America, the accompanying financial statements have been prepared on a liquidation basis. This matter has no effect on the net assets available for benefits. Our opinion is not modified with respect to this matter.

Notes to Financial Statements

October 31, 2016 and 2015

Note 1: Description of the Plan

The following description of Marrs Electric, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

Marrs Electric, Inc. (the Company) established the Plan effective as of November 1, 2001, for the participation of company employees and those of the participating affiliate, Marrs Electric, Inc. of Arkansas (the affiliate). The Plan operated, in relevant part, as an unleveraged employee stock ownership plan (ESOP) and was designed to comply with Section 4975(e)(7), and the regulations thereunder, of the Internal Revenue Code of 1986 (the Code), as amended, and was subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended. Chad Myers, President, and Michael Marrs, Vice President, served as the trustees of the Plan. Arvest Bank served as the custodian of the Plan.

The Plan purchased 25,200 shares of the Company's common stock at \$51.30 per share using \$372,040 of cash and \$920,720 was financed through the proceeds of a party-in-interest borrowing guaranteed by the Company. The purchased stock was held in a trust established under the Plan. The borrowing was repaid over a four-year period by fully deductible company contributions to the trust fund. With each payment of principal, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code. All shares were allocated to participant accounts upon the final loan repayment occurring on October 31, 2006.

As discussed below, management filed an amendment to terminate the Plan effective March 31, 2016.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Management filed an amendment effective March 31, 2016, to terminate the Plan and distribute the Plan's assets to participants. All termination distributions were made prior to October 31, 2016. Participants exercised the put option on the Company's common stock upon distribution and received cash from the Company at \$84.30 per share based on the prior valuation date subject to the terms outlined in the plan document.

Eligibility

Employees of the Company or its affiliate were generally eligible to participate in the Plan after one year of service, defined as 1,000 hours of service from the date of hire.

Marrs Electric, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

October 31, 2016 and 2015

Employer Contributions

Contributions were made to the trust in amounts determined by the Company's Board of Directors at their discretion so long as such contributions did not exceed the maximum amounts deductible under Section 404(a)(3) of the Code. Contributions could be paid by cash or shares of the Company's common stock at the discretion of the Board of Directors. In the event a contribution was made in the form of shares of the Company's common stock, such shares were valued at fair market value.

Participant Accounts

The Plan was a defined contribution plan under which a separate individual account was established for each participant. Each participant's account was credited as of the last day of each plan year with an allocation of employer contributions and forfeitures of terminated participants' nonvested accounts. Only those participants who were eligible employees of the Company as of the last day of the plan year received an allocation. Employer contributions were allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Plan earnings were allocated to each participant's account based on the ratio of the participant's beginning of year account balance to all participants' beginning of year account balances.

Vesting

Participants were fully vested in the Company's common stock after six years of continuous service. The nonvested balance was forfeited after five consecutive years of break in service, as defined in the plan document. Participants terminating due to normal retirement, death or disability were 100% vested in their accounts. Participants became 100% vested upon termination of the Plan.

Put Option

Under federal income tax regulations, the Company's common stock that was held by the Plan and its participants was not readily tradable on an established market and included a put option. The put option was a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price was representative of the fair market value of the stock. The Company could have paid for the purchase with interest over a period of five years. The purpose of the put option was to ensure the participant had the ability to ultimately obtain cash and was exercised upon the termination of the Plan.

Payment of Benefits

No distributions from the Plan were to be made until a participant retired, became disabled, died (in which case payment were to be made to the participant's beneficiary or, if none, their legal representatives) or otherwise terminated employment with the Company or its participating affiliate. Distributions were made in cash or shares of the Company's common stock. The amount to be distributed was based on the immediately preceding valuation date.

Voting Rights

Each participant was entitled to exercise voting rights attributable to the shares allocated to his or her account and was notified by the trustee prior to the time such rights were to be exercised. The trustee was not permitted to vote any share for which a participant had not given instructions.

Diversification

Diversification was offered to participants close to retirement so that they had the opportunity to move part of the value of their investment in the Company's common stock to investments which were more diversified. A participant became qualified to receive preretirement distribution upon his or her attainment of age 55 and completion of 10 years of participation in the ESOP. The plan sponsor offered each qualified participant the option each year for six years to elect a distribution of at least 25% of his or her company stock account (or up to 50% of his or her company stock account when the participant was in the sixth year), less amounts previously distributed. Participants who elected to diversify received a cash or stock distribution.

Forfeitures

Plan forfeitures were allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at October 31, 2016 and 2015, totaled \$0 and \$20,848, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting due to the plan termination as described previously.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes to Financial Statements

October 31, 2016 and 2015

Investment Valuation and Income Recognition

Shares of the Company's common stock were valued at estimated fair value as determined by annual independent appraisals. Quoted market prices, if available, were used to value investments. Equity securities were valued at the closing price reported on the active market on which the individual securities were traded. Fixed income securities were valued on the basis of yields currently available on comparable securities of issuers with similar credit ratings. Money market accounts were valued at the reconciled bank balance, which approximates fair value.

S corporation distributions were recognized on the date they were contributed to the Plan.

Investment income included the Plan's gains and losses, interest income and dividends on investments held during the year. Purchases of securities were recorded on a trade-date basis. Realized gains and losses from security transactions were reported on the average cost method.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan at the Company's discretion. The Plan had historically paid its own operating expenses; however, certain administrative expenses were paid by the Company on behalf of the Plan during the years ended October 31, 2016 and 2015.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) were recognized on the actual transfer date.

Note 3: Administration of Plan Assets

The custodian of the Plan held the Plan's assets, which consisted of the Company's common stock, equity securities, fixed income securities and money market accounts.

Company contributions were held and managed by the custodian, who invested cash received and interest income and made distributions to participants.

Officers or employees of the Company or its affiliate performed certain administrative functions. No such officer or employee received compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Plan. Certain other administrative expenses were paid by the Company on behalf of the Plan.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and significant to the fair value of the assets

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at October 31, 2015:

		Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Marrs Electric, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

October 31, 2016 and 2015

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended October 31, 2016. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 investments.

Level 3 Valuation Process

Fair value determinations for Level 3 measurements of investments are the responsibility of the plan sponsor. The plan sponsor contracts with a valuation specialist to generate fair value estimates on an annual basis. The plan sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Marrs Electric, Inc., Common Stock
Balance, November 1, 2015	\$ 2,124,360
Benefit payments	<u>(2,124,360)</u>
Balance, October 31, 2016	<u><u>\$ -</u></u>

Marrs Electric, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

October 31, 2016 and 2015

Unobservable (Level 3) Inputs

The following table presents qualitative information about unobservable inputs used in recurring Level 3 fair value measurements at October 31, 2015. These assets were not held by the trust at October 31, 2016.

	Fair Value at October 31, 2015	Valuation Technique	Unobservable Inputs
Marrs Electric, Inc., common stock	\$ 2,124,360	Income approach	Discount for lack of marketability

Note 6: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invested in the Company's common stock. The Plan had a number of service providers which were parties-in-interest under ERISA.

Note 7: Tax Status

The Plan obtained its latest determination letter from the Internal Revenue Service dated November 25, 2013, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Code and, therefore, not subject to tax. The Plan was amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust were designed and being operated in compliance with the applicable requirements of the Code through the date of termination. Therefore, management believes the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 8: Concentrations

At October 31, 2015, 44% of the Plan's investments were held in 25,200 shares of the Company's common stock, which is approximately 25% of the Company's common stock.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
