1. Description of Plan

General

The CCS Medical ("Employer") 401(k) Plan (the "Plan") is a prototype defined contribution plan covering all eligible employees who have attained three months of service. The Plan was originally effective January 1, 1999. The Plan was restated and amended effective July 1, 2006. The Plan was originally named Diabetic Supply of USA 401(k) Plan. Effective July 1, 2006, the Plan merged with the MP Total Care 401(k) Plan, at which time the name of the Plan was changed to CCS Medical 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Administration

CCS Medical, Inc. serves as the Plan sponsor and administrator. Fidelity Management Trust Company is the Plan's trustee and recordkeeper (the "Trustee" or "Recordkeeper").

Contributions

Participants may elect to contribute, on a tax deferred basis, up to 75% of the participant's eligible compensation subject to certain limitations under the Internal Revenue Code ("IRC"). The Employer may make a discretionary profit sharing contribution at an amount that is determined annually. The Employer elected not to make a profit sharing contribution for the years ended December 31, 2016 and 2015. In addition, the Employer may make a discretionary matching contribution. In 2016, the Employer discretionary matching contribution was 50% of the aggregate salary reduction, not to exceed 4% of total compensation.

Participant Accounts

Each participant's account is adjusted for distributions to the participant, participant's contributions, employer contributions, and Plan earnings or losses as well as a portion of the administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All participant accounts are maintained by the Trustee of the Plan assets. Participants direct the allocation of contributions among the investment funds allowed under the Plan.

Vesting

Participants are immediately vested in their voluntary contributions and rollovers, plus actual earnings therein. Vesting of matching and profit sharing contributions plus actual earnings thereon is based on years of employment or service. Below is the Plan's vesting table:

Years of Service	Vesting Percentage
Less than 1 year	0%
1	33%
2	66%
3 years or more	100%

Upon death, disability, or termination of the Plan, the employer matching and profit sharing contributions become 100% vested.

Forfeitures

Forfeitures of nonvested matching and profit sharing contributions are used to reduce future matching contributions and to pay administrative fees. There were no unallocated forfeitures at December 31, 2016. At December 31, 2016 and 2015, $60,175 and $288 of forfeitures were used to reduce employer matching contributions, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested interest. Participants are allowed to have no more than one loan outstanding at any time. The repayment period for participant loans cannot exceed five years, except for loans used for the purchase of a participant's primary residence, which must be paid back within ten years. Principal and interest are paid ratably through payroll deductions. These loans are secured by the balance in the participant's account. Interest rates on outstanding loans as of December 31, 2016 ranged from 4.25% to 5.50% with various dates of maturity through 2024.

Rollovers

Rollovers represent transfers of account balances of certain participant contributions into certain investments of the Plan from other qualified plans or individual retirement accounts.

Payment of Benefits

Benefits in the form of a lump sum payment may be distributed to a participant or a participant's beneficiary upon retirement, or the participants reaching the age of 59-1/2, death, disability, hardship or termination of employment. If employment is terminated for any reason other than those previously mentioned, the participants will only be entitled to the portion of the employer contributions for which participants are vested. Participants are entitled to 100% of the account balance of any salary reduction or voluntary contributions made on their own behalf.

Administrative Expenses

Administrative expenses relate to loan origination fees and administrative fees. Administrative fees paid by the plan were reduced by forfeitures during the year ended December 31, 2016.

Excess Contributions Payable

Refunds of excess deferral contributions are required to satisfy the relevant nondiscrimination provision of the plan. Excess contributions payable for 2016 and 2015 are $21,119 and $62,253, respectively. These amounts are included in the statements of net assets available for benefits as excess contributions payable at December 31, 2016 and 2015.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions to the investment options available in the Plan. Employer contributions are allocated according to the participant's investment allocations.

2. Summary of Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Fair Value Measurement: Disclosure for Investments in Certain Entities That Calculate Net Asset Value per Share". ASU 2015-07 simplifies Topic 820 by removing the requirement to categorize, within the fair value hierarchy, all investments measured using the net asset value per share practical expedient. Although classification within the fair value hierarchy is no longer required, an entity must disclose the amount of investments measured using the NAV practical expedient in order to permit reconciliation of the fair value of investments in the hierarchy to the corresponding line items in the balance sheet. For non-public companies, this amendment is effective retrospectively for fiscal years beginning after December 15, 2016. As permitted, the Plan early adopted the provision of ASU 2015-07, retrospectively, for the December 31, 2015 plan year. This adoption resulted in the reclassification of the adjustment from fair value to contract value for stable value fund totaling $15,463, in the statement of net assets available for benefits for the Plan. Certain historical disclosures that are no longer required were removed.

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirement to measure and disclose the fair value of benefit-responsive investment contracts. Part II eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefit and the net appreciation or depreciation for investments by general type. In addition, under the new standard, plans will only need to disaggregate the fair value of investments by

their general type, thus eliminating the need to disaggregate by nature, characteristics and risk. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date closest to plan's year-end, when the accounting period does not coincide with a month-end. The amendments in ASU-12 are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively and Part III is to be applied prospectively. Plan management has elected to adopt Parts I and II effective January 1, 2015. This adoption did not have a material impact on the Plan's financial statements.

Investment Valuation and Income Recognition

Investments are maintained by Trustee and are stated at fair value. Shares of mutual funds are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. As required by ASU 2015-12, the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits is prepared on a contract value basis. See Note 10 for reconciliation.

Purchases and sales of investments are recorded on a trade-date basis. The statement of changes in net assets available for benefits include net appreciation which represents the unrealized appreciation/depreciation for the year on investments held at year-end and realized appreciation/ depreciation on investments sold during the year. Dividend income is recorded on the ex-dividend date. Interest income from other investments is recorded as earned on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document. There was no allowance at December 31, 2016 or 2015 as the loans are fully collateralized by the participants' accounts.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Contributions and Contribution Receivables

Contributions are recorded on the accrual method of accounting. Contribution receivables are obligations arising from amounts owed to the plan from the participants or the Employer that have not been included in the Plan's investments at year end. Contribution receivables are recorded at cost, which approximates their fair value. Contribution receivables were $84,388 and $89,477 at December 31, 2016 and December 31, 2015, respectively.

Payment of Benefit

Benefits are recorded when paid.

3. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive contract with Trustee. The net asset value ("NAV") of the fund is based on the market value of its underlying investments. The fund is fully benefit-responsive; therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the fund value for credit risk of the fund issuer or otherwise. The objective of the collective trust fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology. The collective trust fund seeks to achieve this objective by investing in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The collective trust fund can be redeemed daily with a 30-day notice period and as of December 31, 2016, there were no unfunded commitments.

The average yields of collective trust fund were as follows:

	2016	2015
Average yields:		
Based on actual earnings	**1.89%**	1.89%
Based on interest rate credited to participants	**1.22%**	1.20%

4. Information Certified by the Plan Trustee (Unaudited)

All investments are held by Fidelity Management Trust Company under the Plan's trust agreement at December 31, 2016 and December 31, 2015. The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants as reflected in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015;
- Net Investment appreciation, as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016 as follows:

Interest and dividends	$	**667,692**
Net appreciation in fair value of investments	$	**568,244**

- Interest income on participant notes receivable and other income as reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016.
- Investment values disclosed in Note 5;
- Investments, as reflected in Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2016.

The plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurement

ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value, as of December 31, 2016 and 2015.

	Investments at Fair Value as of December 31, 2016

6. Party-in-Interest Transactions

Fidelity Management Trust Company is a party-in-interest and has issued investments held by the Plan as noted in the attached supplemental schedule. Notes receivable from participants and the related interest income also qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed such intent, the Employer reserves the right to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Tax Status

The current prototype Plan obtained its determination letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The prototype plan has been amended since receiving the determination letter; however, the Plan's administrator believes that the prototype plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal, state and/or local taxing authorities. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
