PATERSON PACIFIC PARCHMENT CO 401K PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2016

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Paterson Pacific Parchment Co 401k Plan (Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Paterson Pacific Parchment Company (the Company) entered into the Paterson Pacific Parchment Co 401(k) Plan (a defined contribution plan) with an effective date of January 01, 1992. The Plan agreement was written to comply with the requirements of the Employee Retirement Income Security Act of 1974 (ERISA) and the provisions of the Tax Reform Act of 1986 and have been amended and restated since inception to comply with various changes in legislation and regulation.

Eligibility

All employees with one year of completed service based on 1,000 hours during the first 12 months of employment are eligible for participation in the Plan. Participation may occur on the first day of the month following the completion of the eligibility requirements.

Contributions

Each year, participants may contribute up to the maximum percentage allowable by law, of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Currently, the Plan offers a number of investment options managed by Reliance Trust Company. The Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of the participant's elective deferrals. For the year ending December 31, 2016, the Company elected to make matching contributions of \$238,379.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting

Participants are immediately 100% vested in both elective and matching contributions plus actual earnings thereon. Each participant's benefits are limited to the balance in their vested account.

Notes Receivable from Participants

Participants may borrow from their accounts up to \$50,000 or 50% of their vested balance. Loans to participants are secured by the balance in the participant's account and are charged a reasonable rate of interest, which is comparable to similar types of loans by other lenders as determined by the Plan administrator. Principal and interest is paid not less frequently than quarterly. Generally, the term of the loan may not exceed five years.

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Distribution of Benefits

Participants or their beneficiaries may begin receiving benefits upon termination of the participant's employment for any reason, including death or disability. Distributions may be made as either a single lump sum or a direct rollover to a qualifying institution. If neither of those options are elected by the participant or their beneficiary, and the account balance is between \$1,000 and \$5,000, the vested account balance will be rolled over to an IRA established by an IRA provider selected by the Company. If the vested account balance is greater than \$5,000, the participant may also request to receive installment payments, a partial withdrawal, or a deferral of payments until age 70½. Under certain circumstances permitted by the Plan, prior to termination, employees may receive hardship or in-service distributions for part or all of their vested account balance.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value as determined by quoted market prices and income is recognized based on valuation changes. The value of guaranteed interest accounts, including stable value funds held in common collective trust, are calculated by discounting the related cash flows based on current yields of similar instruments in comparable durations.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. In the event of participant default through nonpayment or other means, foreclosure on the promissory note and attachment of security may not occur until an event occurs that would allow or require a distribution of a participant's vested account balance.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of maintaining the Plan are allocated to the participants based on earnings or account balances, as defined by the Plan. The Company absorbed the majority of the Plan administrative expenses for 2016.

NOTE 3 – RECENT ACCOUNTING PRONOUNCEMENTS

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07 *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)* which removes the requirement to categorize investments for which fair values are estimated using the net asset value practical expedient within the fair value hierarchy. This ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted.

In July 2015, the FASB issued Accounting Standards Update 2015-12 (*Part I*) *Fully Benefit-Responsive Investment Contracts*, (*Part II*) *Plan Investment Disclosures*, (*Part III*) *Measurement Date Practical Expedient*, which provides that (i) fully benefit-responsive investment contracts will be stated and disclosed at contract value; (ii) eliminates the disclosure to report individual investments that represent 5 percent or more of a Plan's net assets available for benefits; and (iii) eliminates the disclosure for net appreciation (depreciation) for investments by general type and classes of assets on the basis of nature, characteristics and risk. This ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted.

The Company elected to early adopt ASU 2015-07 and Part II of ASU 2015-12 as permitted, in the prior year. The adoption of these new accounting pronouncements did not have a material effect on the Plan's financial statements, but were adopted to simplify accounting and reporting requirements of the Plan.

NOTE 4 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 5 – TAX STATUS

The Plan is qualified under the provisions of the Internal Revenue Code (IRC) and is not subject to federal and state income taxes.

The Plan has been amended and restated effective January 1, 2016, and is relying on an opinion letter issued in which the Internal Revenue Service states that the Prototype Standardized Profit Sharing Plan with CODA, as then designed was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with Section 401(a) of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – PRIORITIES UPON TERMINATION

Although the Company has established the Plan with the bona fide intention and expectation that it will be maintained indefinitely, nevertheless, the Company is not under any obligation or liability to continue the Plan for any given length of time. The Company may in its sole discretion discontinue or terminate the Plan in whole or in part in accordance with its provisions at any time without any liability for such discontinuance or termination. In the event the Plan terminates, no further contributions will be made to the Plan. The Company will direct the distribution of the participants' accounts in a manner permitted by the Plan as soon as practicable.

NOTE 7 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation method include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust (CCT): The Common collective trust indirectly invests in fully-benefit responsive investment contracts by holding units of the Putnam Stable Value Fund. The fair value of the Plan's interest in the CCT is based on audited financial information reported by Putnam Fiduciary Trust Company (the issuer). The fair value of participation units held in the fund are based on the fair values of the underlying investments, primarily consisting of guaranteed investment contracts and similar contracts issued by insurance companies, banks and other financial institutions, and security-backed investment contracts, including separate account products of insurance companies. The value of the CCT represents contributions plus earnings, less participant withdrawals and administrative expenses. Participant-directed redemptions for the CCT have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in each of the respective funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
