Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Henny Penny Corporation Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Wilmington Trust, N.A., the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Independent Auditor's Report (Continued)

Emphasis of Matter

As disclosed in Note 5 to the financial statements, the fair value of 100% of the Plan's investments as of December 31, 2015 and 2014, is an investment whose fair value has been determined by an independent appraiser in the absence of readily ascertainable fair value. Because of the inherent uncertainty of valuation, the value may differ significantly from the value that would have been used had a ready market for the investments existed, and the differences could be material. Our report is not modified with respect to this matter.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2015 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Henny Penny Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Henny Penny Corporation Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General: Henny Penny Corporation (the Company), the Plan's sponsor, established the Plan effective January 1, 2014. The Plan operates as a leveraged employee stock ownership plan and is designed to comply with §4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The ESOP Committee, which is appointed by the Company's Board of Directors, is responsible for the oversight of the Plan. The trust department of an independent third-party bank is the Plan's Trustee.

During the year ended December 31, 2014, the Plan purchased Company common stock using proceeds from borrowings provided by the Company (see Note 7), and holds the stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of Company common stock. The lender has no rights against the shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Company are generally eligible to participate in the Plan after attaining age 18 and one year of service providing they work at least 1,000 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such plan year. Employees may begin participating in the Plan on June 30 or December 31 after meeting the service requirements.

Employer Contributions: The company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Participant contributions are not permitted.

Payment of benefits: Distributions on account of death, disability, or retirement commence in the plan year following the event. Distributions for other separations from service commence in the sixth plan year following the separation from service. The distribution of the participant's account will be made in substantially equal installments over a minimum five year period. However, if a participant's vested balance is \$5,000 or less, the participant will be paid out in a lump sum as soon as administratively reasonable after termination. Distributions are made in cash and the amount to be distributed is based upon the account valuation date immediately preceding the distribution.

Under the provisions of the Plan and at prices determined from an independent appraisal, the Company is obligated to repurchase or redeem participant shares which have been distributed under the terms of the Plan. During the years ended December 31, 2015 and 2014, there were no shares repurchased by the ESOP.

Henny Penny Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account, with respect to limited major corporate matters, and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee has voting rights for all unallocated shares on behalf of the collective best interest of the Plan participants and beneficiaries. Other corporate matters, such as the annual appointment of the Board of Directors, are voted on by the Plan's Trustee.

Participant accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Participants who earned compensation from the Company during the Plan year and either: (a) retired, became disabled, or died during the Plan year, or (b) were employed on the last day of such Plan year, will receive an allocation. Allocations are based on a participant's eligible compensation, as defined by the Plan, relative to total eligible compensation.

Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of year account balance to all participants' beginning of year account balances.

Vesting: The vesting of Plan benefits attributable to Company contributions and forfeitures will be based upon the participant's years of service. Participants are credited with a year of service for each Plan year in which they have completed 1,000 hours of service. Participants become fully vested upon reaching six years of service as shown in the table below or upon death, disability, or retirement.

Less than 2 years of service	0%
2 years of service	20%
3 years of service	40%
4 years of service	60%
5 years of service	80%
6 or more years of service	100%

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Forfeited accounts: Forfeitures of terminated non-vested account balances, including both stock and cash accounts, are allocated to remaining participants as additional Company contributions. There were no forfeitures for the years ended December 31, 2015 and 2014.

Diversification: Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify can receive a cash distribution from the plan or transfer the diversification amount to another qualified plan.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Contributions are recorded when approved by the Board of Directors.

Payment of benefits: Benefits are recorded when paid.

Plan expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Accounting pronouncement adopted: In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. The Plan adopted amendments in Part II of this Update for the 2015 plan year. The impact of adopting Part II of these amendments is reflected in the financial statements. The adoption of Part I and III had no impact to the financial statements.

Subsequent events: The Plan administrator has evaluated subsequent events through July 29, 2016, the date the financial statements were available to be issued.

Henny Penny Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 3. Information Certified and Provided by the Plan's Trustee

All information related to investments and investment income that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2015 and 2014 and for the year ended December 31, 2015 was prepared by or derived from the information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets is complete and accurate. Accordingly, as permitted by 29 CFT 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedule related to the Plan's assets.

Note 4. Investments

The Plan's investment at December 31, 2015 and 2014, is presented in the following table:

	2015		2014	
	Allocated	Unallocated	Allocated	Unallocated
Sponsor Company common stock				
Number of shares	85,206	1,514,794	-	1,600,000
Cost	\$ 8,786,907	\$ 156,213,093	\$ -	\$ 165,000,000
Fair value	\$ 4,371,087	\$ 77,708,913	\$ -	\$ 47,120,000

Note 5. Fair Value Measurements

The Plan has determined the fair value of certain assets and liabilities through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Henny Penny Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014.

Sponsor company common stock: The fair value of the Sponsor Company common stock held by the Plan is valued based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management and the Trustee have concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the Trustee's selection of an independent appraiser, as described in the trustee agreement. Plan management accumulates the data for the appraiser from the audited financial statements of the Company and projections of the Company's future performance. The appraiser prepares a preliminary report which Plan management, along with the Plan's Trustee, reviews in detail, discusses and approves.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's asset at fair value as of December 31, 2015 and 2014:

Description	Asset at Fair Value as of December 31,			
	Level 1	Level 2	Level 3	Total
2015				
Sponsor Company common stock	\$ -	\$ -	\$ 82,080,000	\$ 82,080,000
2014				
Sponsor Company common stock	\$ -	\$ -	\$ 47,120,000	\$ 47,120,000

The following table sets forth a summary of changes in fair value of the Plan's Level 3 asset for the year ended December 31, 2015:

	Sponsor Company Common Stock
Balance, beginning of year	\$ 47,120,000
Net appreciation in fair value	34,960,000
Balance, end of year	\$ 82,080,000

Henny Penny Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2015, there were no transfers into or out of Levels 1, 2, or 3.

The following table represents the Plan's Level 3 financial instrument, the valuation techniques used to measure the fair value of that financial instrument, and the significant unobservable inputs.

Instrument	Fair Value as of December 31,		Principal Valuation Techniques	Unobservable Inputs
	2015	2014		
Sponsor Company common stock	\$82,080,000	\$47,120,000	Discounted Cash Flow	Weighted average cost of capital
				Long-term revenue growth rate
				Long-term pretax operating margin
				Discount for lack of marketability
			Market Comparable Companies	EBIT and EBITDA multiples
				Revenue multiple
				Discount for lack of marketability

Note 6. Risks and Uncertainties

The Plan invests in the Company's common stock which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows of the Company. Due to the level of risk associated with the investment in the common stock, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7. Loan Payable

During the year ended December 31, 2014, the Plan entered into a \$165,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be paid over forty-five years with annual principal and interest payments of \$6,281,366. The loan bears an interest rate of 2.74% per annum. The outstanding balance on this note at December 31, 2015 and 2014, was \$154,408,583 and \$165,000,000, respectively.

Henny Penny Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 8. Related Party and Party-In-Interest Transactions

The Plan's assets, which consist of Sponsor Company common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan as discussed in Note 7. These are related party and party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions at any time after the liquidation of the stock acquisition loans and to terminate the ESOP, subject to provisions of ERISA. Upon termination of the Plan, participants will become 100% vested in their accounts and all allocated assets of the Plan will be distributed to such participants and retirees, or their beneficiaries at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Company's Board of Directors shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of unallocated Company common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay any outstanding loans.

Note 10. Tax Status and Subsequent Event

As of December 31, 2015, the Plan has filed for a determination letter from the Internal Revenue Service (IRS) regarding the Plan's qualification and the related trust's tax-exempt status under the appropriate sections of the IRC. The Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Subsequent to the December 31, 2015 plan year end, the IRS has determined and informed the Plan administrator by a letter dated June 15, 2016, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.
