Notes to Financial Statements**

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Tanner Construction Company 401(K) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a participant directed, defined contribution plan covering all employees of Tanner Construction Company, Inc. (the “Company”), who have completed 12 months of service and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions to the Plan in the form of salary reductions subject to a maximum dollar limitation as determined by the Internal Revenue Service. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer contributions are discretionary. Employer discretionary contributions are allocated based upon compensation of the participants and may vary for certain employees in order to meet special tests prescribed by law. No employer discretionary contributions were made in the years ending November 30, 2016 and 2015.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s contribution, if any and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their salary reduction contributions plus actual earnings thereon. The vesting of the employer discretionary contributions and earnings thereon is based on twenty percent per year after one year of employment. Participants therefore become fully vested after six years of employment. There were no forfeitures for the years ending November 30, 2016 and 2015.

Notes Receivable from Participants

The Plan does not allow participant loans.

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account or installment payments over a period not to exceed the life expectancy of the participant or his or her designated beneficiary. All benefits are recorded when paid.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

The Plan provides for various investment options in several investment securities and instruments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks and values in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

In connection with the preparation of the financial statements, management of the Company evaluated subsequent events through August 21, 2017, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

The Plan considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

Reclassifications

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-07, Fair Value Measurement (Topic 820), which included new reporting and disclosure requirements for employee benefit plans. Under the newly adopted standards, the Plan no longer is required to classify the investments for which fair value is measured at net asset value or its equivalent within the fair value hierarchy. Additionally, the Plan's disclosures related to investments have now been changed to conform to the requirements of the new standard, which generally results in disclosures that are less complex. The plan adopted these standards as of November 30, 2016 and a retrospective approach has been taken to reflect these changes for November 30, 2015.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965), which included new reporting and disclosure requirements for employee benefit plans. Under the newly adopted standards, Plans are now required to report fully-benefit responsive investment contracts as contract value only, with no adjustment for estimated fair value. Additionally, now disclosures related to investments have now been changed to conform to the requirements of the new standard, which generally results in disclosures that are less complex. This new Standard has no effect on the Plan as there is no fully benefit responsive investments.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Recognition and Measurement of Financial Assets and Financial Liabilities*, which includes guidance to address certain aspects of recognition, measurement, presentation and disclosure of financial instruments. For employee benefit plans within the scope of Topics 960 through 965 on plan accounting, the amendments in this update are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. The Plan is currently evaluating the impact of this guidance on the Plan's net assets available for plan benefits, the changes in net assets available for plan benefits, and disclosures.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements (Continued)

In February 2017, the FASB issued ASU 2017-06, *Plan Accounting - Defined Benefit Pension Plans, Defined Contribution Pension Plans, Health and Welfare Benefit Plans: Employee Benefit Plan Master Trust Reporting*, which includes guidance to require an employee benefit plan to report an interest in a master trust and the change in the value of that interest as separate line items on the statement of net assets available for plan benefits and the statement of changes in net assets available for benefits, respectively. The guidance also requires employee benefit plans to provide certain additional disclosures and to remove certain other disclosures from the footnotes to the financial statements. This guidance is effective for all employee benefit plans in fiscal years beginning after December 15, 2018. The adoption of this guidance is not expected to have a significant impact on the Plan's statement of net assets available for plan benefits, statement of changes in net assets available for plan benefits, or disclosures.

NOTE 3: FAIR VALUE MEASUREMENTS

The Plan uses GAAP's three-level hierarchy for the recognition and disclosure of fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Tanner Construction Company
401(K) Profit Sharing Plan
Notes to Financial Statements

NOTE 3: FAIR VALUE MEASUREMENTS (Continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2016 and 2015.

Cash: The carrying value approximates fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes that the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2016 and 2015:

December 31, 2016

Description	Valuation Inputs at Reporting Date

NOTE 5: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6: INCOME TAX STATUS

The Plan adopted is a prototype plan which meets the requirement of Section 401 of the Internal Revenue Service code and is exempt from taxation. The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management believes the Plan is no longer subject to income tax examinations for tax returns filed for years prior to 2013.

NOTE 7: PARTIES-IN-INTEREST TRANSACTIONS

Certain expenses of the Plan, including legal and accounting fees, are paid by the Employer. In addition, certain services to the Plan by the Employer were performed at no charge.
